Every age needs figures
of spiritual inspiration, but
in times of recession and
uncertainty they are
essential in helping us to
rise above despair and to
search for God deep
within ourselves. In this
new book, Michael Ford
invites four spiritual
masters onto the same
stage for the first time
and shows how they
speak, not only to our own
times, but for all seasons.
Thomas Merton, Henri
Nouwen, Anthony de
Mello and John O'Donohue
all died suddenly at the
height of their fame as
spiritual masters, but they
continue to have
immense followings. What
was their secret and why
do their legacies endure?
Through unpublished
interviews with some of
the authors themselves,
encounters with their

friends, and reflections
from readers who have
been inspired by their
writings, Michael Ford
journeys across the
United States and Europe
to assess their place in
the world of contemporary
spirituality. He goes
behind the scenes of the
Abbey of Gethsemani in
Kentucky to hear first
hand from monks who
were novices under
Merton; visits Lambeth
Palace in London to
discover Merton's
influence on the
Archbishop of Canterbury;
talks to people about how
Nouwen, the proverbial
wounded healer, helped
them through depression
because he had suffered
himself; speaks to Jesuits
who worked with de Mello
in India and tries to find
out how close the
international storyteller
came to Buddhism; and
takes a walk with
O'Donohue through
landscapes in rural Ireland
that feature in such books
as *Anam Cara* and
discusses the appeal of
Celtic spirituality.
Blending the spiritual with
the journalistic, Michael

Ford presents four unique
writers as Spiritual
Masters for All Seasons. +

Promotes the importance
of understanding
spirituality and religious
belief in health and
human service care
Although health and
human service
professionals traditionally
receive extensive training
in the emotional and
physical aspects of caring
for a person, they rarely
receive adequate
instruction in an area
often as
essential—spirituality and
religious belief.
Recognizing the
importance of religion to a
large share of the
population, *Religious and
Spiritual Aspects of
Human Services* fills this
gap in human services
literature. James W. Ellor,
F. Ellen Netting, and Jane
M. Thibault address the
challenge of
understanding the client's
perspective—even when it
involves a religious
tradition unfamiliar to the
practitioner—and consider

the impact of the client's needs on the agency and on public policy.

The 18th century was a wealth of knowledge, exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars.

The Age of Enlightenment profoundly enriched religious and philosophical understanding and continues to influence present-day thinking.

Works collected here include masterpieces by David Hume, Immanuel Kant, and Jean-Jacques Rousseau, as well as religious sermons and moral debates on the issues of the day, such as the slave trade. The Age of Reason saw conflict between Protestantism and Catholicism transformed into one between faith and logic -- a debate that continues in the twenty-first century.

"In this very room, I'm sensing a DEFINE presence..." They say a picture is worth a thousand words. That being the case, if 6,047 children from 175 different neighborhoods in 67 different countries each drew 34 pictures, the word-count equivalent would be...a ridiculously

high number that has absolutely nothing to do with this book. In recent years, many Christian clergy, laity and mental health professionals have rediscovered the ancient practices of spiritual direction. Seen as a refreshing alternative to the techniques and limitations of modern psychology, such practices offer new insights for pastoral care. But many remain unclear on what spiritual direction is and whether its methods are applicable to

their own clients and parishioners. Spiritual direction is a practice of Christian soul care that is found most notably in the Catholic, Orthodox and Episcopal traditions but is also present in Wesleyan/Holiness, Pentecostal/charismatic, social justice and Reformed communities. Predating modern counseling and psychotherapy movements but sharing key principles and insights for spiritual formation, spiritual direction offers significant resources for today's pastors, counselors, therapists, chaplains and other caregivers attuned to the work of God in people's lives. In this landmark volume, editors Gary W. Moon and David G. Benner, along with a team of expert contributors, provide a comprehensive survey of spiritual direction in its myriad Christian forms. Specific chapters offer careful historical perspective and contemporary analysis of how Christians from various backgrounds have practiced spiritual direction, with particular attention to each tradition's definition of spiritual direction, the process of authentic transformation, the role of the spiritual

director, indicators of mature spirituality and other aspects of the spiritual direction process. Chapters also provide psychological and clinical insight into how spiritual direction is similar to, different from and can be integrated with psychotherapy and pastoral counseling to help others experience spiritual transformation and union with God.

Presenting a thorough, comprehensive theory of spiritual capital based on solid academic research, 'Spiritual Capital' serves to reinforce and amplify the notion of a moral economic core that is beginning to feature in contemporary economic arguments. In this rare major work wholly dedicated to the subject of spiritual capital, Sam Rima explains the desperate need for revolutionary and transformational thinking in the area of economic policy and practice and makes the case for a new moral foundation to business and economics that directly addresses today's financial and business crisis. Writing in an accessible style, and drawing on examples from several continents, Rima explains spiritual capital theory in terms of the resources needed for its creation, how it is formed, how it can be invested and what the return on investment can be. The book provides practical tools for measuring a personal or organizational store of spiritual capital, along with clear guidelines on how to engage in spiritual

capital formation. These will benefit business leaders interested in developing viable and sustainable enterprises capable of avoiding the disconnection between economic policy and social reality. There are also recommendations here for policy makers regarding the macro application of spiritual capital theory. This important contribution to Gower's Transformation and Innovation Series will appeal to business leaders and policy makers, academicians and students in the fields of sociology, theology, and economics, and anyone interested in social and economic justice issues, social innovation, and corporate social responsibility.

Spiritual Capital Michael Glazier

ABSTRACT Key to the process of spiritual growth is the knowledge that human beings long for love. They desire to know their worth and value. This seeking leads to a desire for a relationship with God. In order to grow in faith to a deeper relationship with God, it is important to first have a strong sense of one's own worth as a basis for growth. This involves an accurate self-perception

and a loving self-acceptance. Affirmation can help to develop a loving self-acceptance, where one can experience, feel, and see one's worth. Affirmation is a gift of love from one person to another, where one receives oneself as one experiences one's own goodness and dignity from the other and one learns one is lovable. Another key to spiritual growth is self-knowledge. Self-acceptance and self-knowledge are the beginning of the spiritual life. Developing emotional awareness leads to greater self-knowledge. Emotions need to be listened to and interpreted as part of the development of self-knowledge and self-acceptance. This emotional awareness is the beginning of understanding the negative patterns of behavior that comes out of one's woundedness. With the healing presence of Christ through prayer, one can experience God's love for them in one's woundedness and know that God dwells within and desires to transform and heal wounds with his love. This affirms one in one's worthiness, enabling one to be able to open to receive love and

then return love. In spiritual direction, one seeks a relationship with God. It is a sacred time of growth, conversion, and transformation. It is a time when one looks at a relationship with self, others, and God. One is empowered by the grace of God to enter this process and continue the development of these relationships. The ministry of spiritual direction is called to be the sacred place where humanity in their fullness meets their God and accepts his mercy. When one surrenders to this grace, one is surrendering to love, mercy, and affirmation. One's self-image and relationship with others and God are touched and experienced in a new light.

"Caryll Houselander (1901-54), English artist, spiritual writer, poet,

social activist and mystic, was a unique laywoman who took holiness out of the monastery, cloister and rectory and into the offices, factories, farms, streets and homes of ordinary people. In this engagingly interactive book, part narrative biography and part practical spirituality, readers will be moved to see in Caryll's story - from her difficult childhood, through periods of searching, being touched by God, becoming involved with the poor and the marginalized in society, living through war, writing and meeting an early death through cancer - something of their own life history."--

How should we see the Spirit at work in spiritual leaders today? How did the Spirit work through spiritual leaders in the Bible? While many books on spiritual leadership look at the culture around us and offer sound advice from biblical principles, this study asks Scripture first what the Spirit did through spiritual leaders

in the Bible in order to figure out what the Spirit should be doing through spiritual leaders today.

Affirmation and Healing Within Spiritual Direction

InterVarsity Press

In recent years our knowledge of the individual parts of the Bible has increased greatly, but our understanding of how they fit together has not kept pace. In particular, the relationship between the Old and New Testaments has been a neglected field of study. The latest in IVP's developing family of New Dictionaries, the 'New Dictionary of Biblical Theology' is an essential tool for students, preachers and ministers, as well as for scholars and others seeking a better grasp of the Bible's teaching. The aim of this prestigious dictionary is to integrate the various biblical books and themes into the overarching story of the Scriptures. The volume embodies three perspectives on biblical theology, which are reflected in its structure.

Winner! This magnificent new publication distinguishes itself from others by its comprehensiveness, and in its coverage of Eastern, as well as Western, saints. The book contains approximately 7,000 Saints and Blesseds. Entries are placed in alphabetical order according to name. Where there are numerous saints with the same name (for example John) these are now listed chronologically. The entries include date and place of birth and death as well as family background, education, activity for which the saint is remembered, and whether he/she is a patron saint. In order to be comprehensive, even possibly mythical saints are included 'Barbara, Christopher and Katherine of Alexandria, because their stories have been so important in art, literature and popular devotion. This is the most complete and accurate Dictionary of Saints available.
