The focus of this book is on the classic, ageless, and enduring flowers, which we have dubbed Vintage roses. This user-friendly term encompasses both the true Old roses and the best of the Modern roses. All Vintage roses have one thing in common; they are garden-friendly roses that celebrate the style and grace of the old. Vintage roses can be overblown, multi-petalled or deliciously simple, and this sumptuous tome is a love letter to these beautiful blooms. Unearth the hands-on know-how and history of the world's favourite flower. This book will appeal to the armchair gardener, gardening novice and

seasoned expert alike. At the heart of the book are over 60 specially selected specimens - including those that have the best visual appearance, the most fragrant perfume, are easy to grow and produce beautiful flowers for cutting. The book covers not just original varieties such as Rosa Mundi (with its beautifully variegated stripes of deep pink and white), but also the wonderful new varieties that have been developed over the last 20 years. The no-fuss notes on pruning and care and the straightforward advice that accompanies each variety completely dispel the myth that roses are difficult or time-consuming to grow - proving that you can just as easily grow roses in a pot on your front steps as you can in a large country garden. Covering the best rambling, climbing and shrub roses, from bourbon to tea and floribunda to polyantha, you'll be sure to find your new favourite variety. Plus, tips and tricks on arranging your

cut roses makes it even easier to enjoy these fabulous flowers at home. With contemporary commentary on each bloom, easy-to-follow advice and glorious photography, this book will appeal to everyone who appreciates the classic beauty of the vintage rose.

A landmark anthology envisioned by Tracy K. Smith, 22nd Poet Laureate of the United States American Journal presents fifty

contemporary poems that explore and celebrate our country and our lives. 22nd Poet Laureate of the United States and Pulitzer Prize winner Tracy K. Smith has gathered a remarkable chorus of voices that ring up and down the registers of American poetry. In the elegant arrangement of this anthology, we hear stories from rural communities and urban centers, laments of loss in war and in grief, experiences of immigrants, outcries at injustices, and poems that honor elders, evoke history, and praise our efforts to see and understand one another. Taking its title from a poem by Robert Hayden, the first African American appointed as Consultant in Poetry to the Library of Congress, *American Journal* investigates our time with curiosity, wonder, and compassion. Among the fifty poets included are: Jericho Brown, Natalie Diaz, Matthew Dickman, Mark Doty, Ross Gay, Aracelis Girmay, Joy Harjo, Terrance Hayes, Cathy Park Hong, Marie Howe, Major Jackson, Ilya Kaminsky, Robin Coste Lewis, Ada Limón, Layli Long Soldier, Erika L. Sánchez, Solmaz Sharif,

Danez Smith, Susan Stewart, Mary Szybist, Natasha Trethewey, Brian Turner, Charles Wright, and Kevin Young.

Abandon the networking-for-networking's-sake mentality in favor of a more powerful and effective approach to creating and enhancing connections. STOP NETWORKING. Seriously, stop doing it. Now. It is time to ditch the old networking-for-networking's-sake mentality in favor of a more powerful and effective approach to creating and enhancing connections. In Superconnector, Scott Gerber and Ryan Paugh reveal a new category of professionals born out of the social media era:

highly valuable community-builders who make things happen through their keen understanding and utilization of social capital. Superconnectors understand the power of relationship-building, problem-solve by connecting the dots at high levels, and purposefully cause different worlds and communities to interact with the intention of creating mutual value. How can you become a Superconnector? Gerber and Paugh share instructive anecdotes from a who's who roster of high achievers, revealing how to systematically manage a professional community and maximize its value. Of utmost importance is practicing Habitual Generosity, acting on the knowledge that your greatest returns come when you least expect them, and that by putting others' needs first the good karma will flow back to you tenfold. Gerber and Paugh also explore winning strategies such as The Art of Selectivity, a well-honed ability to define which relationships matter most for you and decide how you will maintain them over time. Full of helpful advice on

how to communicate with anyone about anything, Google-proof your reputation, and much more, Superconnector is a must-read for those seeking personal and business success.

EDIT: Updates for 2017!

Added more spells, illustrations and a glossary. I compiled this Book of Shadows from a collection of spells I have been using since I started down my path. This book contains over 100 spells, a list of runes, how they can be used in spell casting and even crafting

your own spells. I've collected these spells from several different sources, mostly from witches I have met in my travels and covers I have been a part of. I've tweaked a few of these spells to fit my needs from time to time and you can do the same as the words aren't what give the spells power, your energy is what really matters, so feel free to do the same and change what you want to suit your own needs. The craft of Magic is a constant fluctuating living thing and our ancestors have borrowed, changed, and made from scratch what we practice today. I hope this book helps you grow as a person and a spellcrafter. -Brittany Nightshade -Brittany Nightshade

Vintage Roses BenBella Books
A lost classic of Western herbalism—rediscovered and restored with 200 full-color images. Herbalist to King Charles I, John Parkinson (1567–1650) was a master apothecary, herbalist, and gardener. Famous in his own lifetime for his influential books, his magnum opus, the *Theatrum Botanicum*, was published in 1640 and ran to 1,766 large pages. The sheer scope and size was perhaps to prove the book's downfall, because while it was much revered—and plagiarized—it was never reprinted and, centuries later, has attained the status of an extremely rare and valuable book. Parkinson was writing at a time when Western herbalism was at its zenith, and his skills as a gardener (from his grounds in Covent Garden) combined perfectly with his passion for science, observation, and historical scholarship. In the *The Herbalist's Bible*, Julie Bruton-Seal and Matthew Seal have beautifully combined selections from

Parkinson's book with their own modern commentary on how each plant is used today to create a truly one-of-a-kind, comprehensive collection of herbal information old and new. Parkinson's clear and lively description of a chosen plant's "vertues" or healing properties side-by-side with the editors' notes—including copious herbal recipes—make this the perfect book for students and practitioners of herbalism, historians, and gardeners, all of whom will welcome this restoration of Parkinson's lost classic.

What do you do when your life feels as busy as a three-ring circus? *Juggling Elephants* tells a simple but profound story about one man with a universal problem. Mark has too much to do, too many priorities, too much stress, and too little time. As he struggles to balance his many responsibilities without cracking under the pressure, Mark takes a break to attend the circus with his family. There he has a surprising conversation with a wise ringmaster. He leaves with a simple but powerful lesson: Trying to get everything done is like

juggling elephants -- impossible. So Mark begins to think about his work, family, and personal life the way a ringmaster thinks about the many acts in a three-ring circus. He discovers that managing his various acts can be fun and easy once he changes his attitude and follows his new friend's ongoing guidance. Mark soon realizes:

- If you keep trying to juggle elephants, no one, including you, will be thrilled with your performance.
- A ringmaster cannot be in all three rings at once.
- The key to the success of a circus is having quality acts in all three rings.
- Intermission is an essential part of any good circus.

Juggling Elephants is a wonderfully lighthearted guide for everyone who feels like they're about to be squashed. It will help you better focus your time and energy, so you'll be able to enjoy more of the things that are important to you. Above all, it will teach you how to run your circus, instead of letting the circus run you.
