 Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

 #1 New York Times Bestseller "Funny and smart as hell" (Bill Gates), Allie Brosh's Hyperbole and a Half showcases her unique voice, leaping wit, and her ability to capture complex emotions with deceptively simple illustrations. FROM THE PUBLISHER: Every

time Allie Brosh posts something new on her hugely popular blog Hyperbole and a Half the internet rejoices. This full-color, beautifully illustrated edition features more than fifty percent new content, with ten never-before-seen essays and one wholly revised and expanded piece as well as classics from the website like, "The God of Cake," "Dogs Don't Understand Basic Concepts Like Moving," and her astonishing, "Adventures in Depression," and "Depression Part Two," which have been hailed as some of the most insightful meditations on the disease ever written. Brosh's debut marks the launch of a major new American humorist who will surely make even the biggest scrooge or snob laugh. We dare you not to. FROM THE AUTHOR: This is a book I wrote. Because I wrote it, I had to figure out what to put on the back cover to explain what it is. I tried to write a long, third-person summary that would imply how great the book is and also sound vaguely authoritative--like maybe someone who isn't me wrote it--but I soon discovered that I'm not sneaky enough to pull it off convincingly. So I decided to just make a list of things that are in the book: Pictures Words Stories about things that happened to me Stories about things that happened to other people because of me Eight billion dollars* Stories about dogs The secret to eternal happiness* *These are lies. Perhaps I have underestimated my sneakiness!

A revised and expanded new edition of the classic guide for inventors When this comprehensive resource for inventors was first published, bringing a new product to market was costly, time-consuming, and very risky. But today, new technologies including the Internet have drastically changed the world of inventing. In the past, inventors had to handle production, manufacturing, packaging, and distribution by themselves. Today,

large companies are constantly looking for new inventions to license, and new technology makes it easier than ever for inventors to outsource what they can't handle themselves. A leading expert on invention and innovation, author Don Debelak has brought this one-of-a-kind inventor's guide fully up to date. This new edition is packed with trustworthy, proven advice on product design, manufacturing, patenting, licensing, distribution, financing, and more. Plus, the latest innovative strategies in funding, outsourcing, and Internet marketing make this the most complete and up-to-the-minute guide available for inventors like you. Inside, you'll learn how to: * Recognize a valuable, moneymaking idea * Determine if your product is market-ready * Create a custom, step-by-step product-to-market strategy * Adjust your strategy for changing market conditions * Find financial help from investors and partners * Use turbo-outsourcing to bring your product to market in a year or less * Find a manufacturer to cover up-front development costs With more funding, licensing, and outsourcing options available, it's easier and cheaper than ever to get your product on the shelves. So why wait? Whether you're an experienced inventor who wants to sell more of your creations, or just someone with a million-dollar idea, this is your guide to financial success. Don Debelak's expert advice and timeless wisdom have already helped thousands of people turn their inventions into cash. Don't miss the boat!

Everyone needs a good wash occasionally. Even a giant excavator! After a hard day's work, a garbage truck, a tractor, an 18-wheeler, and more are covered with dirt, slime, manure, mud, and bugs. Off to the Big Truck Super Wash! Honk! Honk! Clank! Belch! 5 powerful trucks tell how they got so grubby. The dump truck explains— Hauling rocks from the gravel pit, Working in clouds of dust and grit. It's what I love! It's what I do! Wouldn't you want to play in dirt too? The jolly manager at the Big Truck Super Wash welcomes each dirty truck with a warm smile, shampoo (gurgle and gush), steam, scrubbers (swish-a, swoosh-a), and a rinse. The trucks can return home glistening, gleaming, and spot-free. With rhythm, rhyme, and onomatopoeia, the text is fun to read aloud. And each truck is depicted with expressive headlight eyes and a personality of its own. In creating the character of the truck wash manager, the illustrator portrayed his dad, who owned a truck and often recruited his son to help wash it. Subtle messages about hard work and cleanliness make it a perfect choice for bath time or any time!
