The New Approach to Network Security: Secure Access Service Edge (SASE)
[Implementing Cisco Edge Network Security](#)
This exam tests the knowledge of a network security engineer to configure and implement security on

Cisco network perimeter edge devices such as a Cisco switch, Cisco router, and Cisco ASA firewall. This exam focuses on the technologies used to strengthen security of a network perimeter such as Network Address Translation (NAT), ASA policy and application inspect, and a zone-based firewall on Cisco routers.
