Pinocchio, the Tale of a Puppet Youcanprint

"From Agatha to Zeno, this book presents the images and attributes of more than one hundred saints, those most frequently encountered in sacred art, history and legend, tradition and devotional literature. Lavishly illustrated, this book introduces the saints with their identifying attributes, notes on their lives and martyrdoms, and visual references that make it easy to identify their characters and legends and the forms of worship for each."--BOOK JACKET.

Pinocchio, The Tale of a Puppet follows the adventures of a talking wooden puppet whose nose grew longer whenever he told a lie and who wanted more than anything else to become a real boy. As carpenter Master Antonio begins to carve a block of pinewood into a leg for his table the log shouts out, "Don't strike me too hard!" Frightened by the talking log, Master Cherry does not know what to do until his neighbor Geppetto drops by looking for a piece of wood to build a marionette. Antonio gives the block to Geppetto. And thus begins the life of Pinocchio, the puppet that turns into a boy. Pinocchio, The Tale of a Puppet is a novel for children by Carlo Collodi is about the mischievous adventures of Pinocchio, an animated marionette, and his poor father and

woodcarver Geppetto. It is considered a classic of children's literature and has spawned many derivative works of art. But this is not the story we've seen in film but the original version full of harrowing adventures faced by Pinnocchio. It includes 40 illustrations.

Traditional studies of Roman art have sought to identify an indigenous style distinct from Greek art and in the process have neglected the large body of Roman work that creatively recycled Greek artworks. Now available in paperback, this fresh reassessment offers instead a cultural history of the functions of the visual arts, the messages that these images carried, and the values that they affirmed in late Republican Rome and the Empire. The analysis begins at the point at which the characteristic features of Roman art started to emerge, when the Romans were exposed to Hellenistic culture through their conquest of Greek lands in the third century B.C. As a result, the values and social and political structure of Roman society changed, as did the functions and character of the images it generated. This volume, presented in very clear and accessible language, offers new and fascinating insights into the evolution of the forms and meanings of Roman art. "Zanker, one of the foremost ancient Roman art historians, has produced an excellent general study of Roman art and its reception. . . . This book would be ideal for students at all levels interested in Roman art, history, and culture."—Choice

"Cosimo di Rondó, a young Italian nobleman of the eighteenth century, rebels against his parents by climbing into the trees and remaining there for the rest of his life. He adapts efficiently to an existence in the forest canopy he hunts, sows crops, plays games with earth-bound friends, fights forest fires, solves engineering problems, and even manages to have love affairs. From his perch in the trees, Cosimo sees the Age of Enlightenment pass by and a new century dawn. Long considered one of Calvino's finest works, *The baron in the trees* exemplifies this brilliant writer's gift for fantasy."--Page [4] of cover.

Camille Pissarro (1830-1903) was at the very center of the Impressionist movement. Although his paintings seem to typify the impressionist style, the variety of media in which he worked and his working practices, which involved careful studio preparation as well as plein air painting, lead us to redefine our concept of Impressionism.

This book, a companion volume to Professor Pollitt's *The Art of Rome: Sources and Documents* (published by the Press in 1983),

presents a comprehensive collection in translation of ancient literary evidence relating to Greek sculpture, painting, architecture, and the decorative arts. Its purpose is to make this important evidence available to students who are not specialists in the Classical languages or Classical archaeology. The author's translations of a wide selection of Greek and Latin texts are accompanied by an introduction, explanatory commentary, and a full bibliography. An earlier version of this book was published twenty-five years ago by Prentice-Hall. In this new publication Professor Pollitt has added a considerable number of new passages, revised some of his earlier translations and presented the texts in a different order which allows the reader to follow more easily the development of sculpture and painting as perceived by the ancient writers. The new and substantial bibliography, organised by topics as they appear in the book, emphasises works that deal directly with the literary sources or that supplement our knowledge of the personalities and monuments described in the sources. This collection will be welcomed by students and teachers of Greek art who have long been in need of an authoritative and reliable sourcebook for their subject.

With its fittingly dramatic design, *Courbet and the Modern Landscape* accompanies the first major museum exhibition specifically to address Gustave Courbet's extraordinary achievement in landscape painting. Many of these carefully selected works produced from 1855 to 1876--gathered from Asia, Europe, and North America--will be new to readers. The catalogue--which accompanies an exhibition at the Getty Museum to be held from February 21 to May 14, 2006--highlights the artist's expressive responses to the natural environment. Essays by the curators examine Courbet's distinctly modern practice of landscape painting. Mary Morton's essay situates his landscapes in relation to his work in other genres, his critical reputation, and his role in establishing a new pictorial language for landscape painting. Charlotte Eyerman's essay investigates how later generations of nineteenth- and twentieth-century artists responded to Courbet's example. The catalogue also includes an essay by Dominique de Font-Reaulx, curator of

photographs at the Musee d'Orsay, on the relationship between Courbet's work and landscape photography of the 1850s and 1860s.
