Avoid The Tourist Herds. What could be more uninspiring than seeing the identical attractions that everyone else has for decades? This Twisted Tour Guide escorts you to the places locals don't want to talk about anymore...the same places people once couldn't stop talking about. Long after the screaming headlines and sensationalism has subsided, these bizarre, infamous and obscure historical sites remain hidden awaiting rediscovery. Each visitation site in this guide is accompanied by a story. Many of the narratives defy believability, yet they are true. The profiled cast of characters feature saints and sinners (with emphasis towards the latter). Notorious crimes, murders, accidental deaths, suicides, kidnappings, vice and scandal are captivating human interest tales. The photography from each profile showcases the precise location where each event occurred. The scenes can seem ordinary, weird and/or sometimes very revealing towards clarifying the background behind events. If you're seeking an alternative to conventional tourism, this Twisted Tourist Guide is ideal. Each directory accommodates the restless traveler and even resident looking for something unique and different. An ancient Arab proverb states, "When Allah made the Sudan, he laughed." Had he known the country's future, he would have done better to cry. To most of the world, Sudan means Darfur and the tragedy of atrocities and ethnic cleansing that has occurred there. Canada's first involvement in Sudan was in 1884, when Canadian voyageurs were recruited to help rescue General Gordon, who was besieged in Khartoum by the Mahdi. Canada in Sudan introduces Canadians to this massive, troubled nation, telling the story from ancient times through to the modern era and the work of Canadian archaeologists, aid organizations, and Canadian Forces military observers deployed to Sudan as part of Operation Safari. On March 30, 2007, Minister for Foreign Affairs

Peter MacKay said, "Sudan is an almost perfect storm of conflict, dislocation, underdevelopment, and brutality." Perhaps he was confirming that Canada will be in Sudan for a very long time.

The automotive industry appears close to substantial change engendered by "self-driving" technologies. This technology offers the possibility of significant benefits to social welfare—saving lives; reducing crashes, congestion, fuel consumption, and pollution; increasing mobility for the disabled; and ultimately improving land use. This report is intended as a guide for state

and federal policymakers on the many issues that this technology raises.
