Surviving The Evacuation, Book 3: Family Vintage

Within a few minutes of the outbreak, Manhattan was overrun by the living dead. Within a few days, the undead had reached every corner of the globe. Ireland was no exception. There was no evacuation of Northern Ireland, and no quarantine in the Republic. A Royal Naval blockade prevented ships from docking, but they didn't prevent those who could reach the coast from fleeing by sea. There weren't enough boats for everyone. Those who were left behind took refuge in castles, police stations, churches, military bases, and any other buildings with strong walls. The walls weren't strong enough. Eight months later, there are only a few dozen survivors left on the entire island of Ireland. They are certain that there is no safe refuge anywhere on the planet. Stranded on the southwestern Atlantic coast of the Irish Republic, Bill and Kim head north. They know that there is a safe haven on Anglesey, but that is hundreds of miles of undead Ireland and a treacherous sea crossing away. They begin a journey on which they will have to rescue the innocent and confront the past before they can embrace the future. Set on the island of Ireland, eight months after the outbreak, this is the next volume of Bill Wright's journals.

After a rough start, Maddie learns to trust her own ingenuity and invents clever ways to survive in a place that has been deserted and forgotten. Surviving the Evacuation, Book 13: Future's Beginning Frank Tayell

A castle can be made safe from the undead, but not from the people inside the walls. It is seven months since the outbreak. In the anarchy and chaos that came with the undead, civilisation was destroyed. In the wars that followed, the planet was nearly ruined. Billions died. Only a few thousand survived. Fifty people have found refuge in the Tower of London. Zombies plague the city outside the old fortress. The wasteland beyond is filled with nothing but radioactive ruins. With nowhere left to retreat to, and in a final attempt to make the ancient castle a place where they can do more than just slowly starve, the survivors search for food in the abandoned coastal farms. They find something else. They discover that hunger, thirst, and the undead aren't the only threat they face. Betrayal and danger lurk in the shadows in this, the penultimate book in the series. It will conclude in Book 7: Home.

Surviving The Evacuation, Book 6: Harvest Frank Tayell

Zombies. The outbreak began in New York. Soon it had spread to the rest of the world. People were attacked, infected, and they died. Then they came back. No one is safe from the undead. As anarchy and civil war took grip across the globe, Britain was quarantined. The British press was nationalised. Martial law, curfews and rationing were implemented. It wasn't enough. An evacuation was planned. The inland towns and cities of the United Kingdom were to be evacuated to defensive enclaves being built around the coast, the Scottish Highlands, and in the Irish Republic. Bill Wright, a Westminster insider and an advisor to a future Prime Minister, broke his leg on the day of the outbreak. Unable to join the evacuation, he watched from his window as the streets filled with refugees. He watched as the streets emptied once more. He watched as they filled up again, this time with the undead. Then the power went out. He is trapped. He is alone. He is running out of food and water. He knows that to reach the safety of the enclaves he will have to venture out into the wasteland that once was England. On that journey he will ultimately discover the horrific truth about the outbreak, a decades old conspiracy, and his unwitting part in it. This is the first volume of his journal. The War that Saved My Life Frank Tayell

The outbreak began in February. Nations went to war. Governments collapsed. Billions died in the chaos and anarchy that followed. Billions more were infected. They died. They came back. It is now October and out of the tens of millions who lived in southern England only ninety people remain. They sought sanctuary behind the ancient walls of the Tower of London, but it was only a temporary refuge. There is no more food to be scavenged from the ruins of the old world. Their water supply is polluted. As the days get shorter, the weather worsens, and people begin to get sick. They have been betrayed and are besieged by the living and undead alike. Over their heads hangs the threat of a last catastrophic weapon. This spectre of the old world conspiracy that brought the living dead to plague the Earth leaves them with a terrible decision. Some must be sacrificed so that amidst the horror others might find somewhere in the undead wasteland that they can call home. (80,000 words) Other books in the series: 1: London. 2: Wasteland. Nightfall Frank Tayell

Not all people died. Not all gave up hope. The outbreak was in February. By the end of November, Earth has become a hellish wasteland ravaged by the undead. Survivors from across the Atlantic seaboard took refuge on the Welsh island of Anglesey. Beset by dangers from within, they departed to establish a new refuge in Belfast. Not all of them arrived. Six took the last plane on its last flight, but crashed in France. Expecting a sprinting battle through the ruins of Belfast, they packed light. With few weapons and barely any food, their chances of survival are slim. The chances of rescue are slimmer. There was no evacuation in France. No quarantine. No rationing. But there are zombies, and there are people who believe they, alone, are the last survivors of the old-world. So begins a frantic race against the undead, through the snow and storm ravaged ruins of Northern France.

The Remaining Crown

The battle might be lost, but the war isn't over. Once it was home to half a billion people. A year after the nuclear war, Europe is a radioactive, storm-ravaged wasteland through which a hundred million undead inexorably march. In their wake, they leave nothing but ruins. Ahead of them flee those few who managed to survive this long. Chasing them are the dregs of humanity. Once known as the Rosewood Cartel, they kill, loot, and destroy as indiscriminately as the living dead. Hope might be lost, but it could still be found, as can a future for the last remnant of humanity. Those who built a sanctuary on Anglesey, in Dundalk, in Creil are the help that came to others. In this, their darkest hour, but with a new dawn so close, they will not give up. Set in the Faroe Islands, France, Denmark, and elsewhere, the battle has begun, but the war hasn't yet been lost.

All Spell Breaks Loose Surviving The Evacuation, Book 6: Harvest

Whoever wins the election, humanity will lose. Nine months after the outbreak, ten thousand survivors from across the globe have found a refuge on the Welsh island of Anglesey. Hordes of the undead ravage the wastelands of Britain and Ireland. Satellite images show that the rest of the world is no better. Food, fuel, and ammunition are running low and there are no more old-world supplies with which to replace them. Intended as an alternative to a slide into despotism, an election is called. It is hoped the contest will bring forth solutions to the myriad crises facing this last bastion of humanity. After the favoured candidate is hospitalised, suspicion falls on the new frontrunner, a publican who purchased his support with an impossible promise of a return to the pre-apocalyptic world. With no viable candidate, and no way of calling off the election, those who still have access to a ship plan their departure; others plan to rig the contest; a few give up on all plans for a future beyond tomorrow. Anglesey is on the verge of collapse, and humanity is on the brink of extinction. Set in Belfast, the Isle of Man, and Wales during the run-up to the election on Anglesey, this is

the sixth volume of Bill Wright's journals.

Surviving is easy. It's the next part, living, that's hard. Zombies. It is seven months since the outbreak. The world is in ruins. Britain is a radioactive wasteland peopled by the undead. The few survivors cling to the hope that they might wake up tomorrow. For most, that is all they have left. But Nilda has something more; the chance that her son is alive. At least he was, months before. She and Chester set out from Penrith, searching for her son. During the journey, Nilda learns more about this self-confessed criminal, Radio Free England, the conspiracy behind the outbreak, and how Chester was involved in it all. As they near Hull, she realises it is too late to change her travelling companion. She will need his help to escape the zombie infested city, and find her son. Fleeing from the last remnant of the old government, Tuck and Jay head south in search for survivors. When they rescue a wounded man, their quest becomes one for medical supplies. That leads them to a rooftop city, and to the realisation that surviving out in the wasteland is easy compared to forging a new life from the wreckage of the old civilisation. Surviving The Evacuation, Book 7: Home Frank Tayell

It took three weeks to destroy civilisation. It won't be rebuilt in a day. A year after the outbreak, a sharp winter is followed by a sudden thaw. Spring has come early to Nova Scotia, bringing new hope. For the thirteen thousand survivors who've found sanctuary in northern Canada, and for the first time since the apocalypse, extinction isn't imminent. But it looms large in the near future, a legacy of the nuclear war that destroyed civilisation. As the weather improves, some survivors quit the small community. Even more plan their departure. The old-world supplies of food, oil, and ammunition have been consumed. More will have to be grown, drilled, and made. Medicine, paper, clothes: in a few years there will be none left to salvage. If it can't be manufactured, it will have to be forgone. What knowledge can't be preserved will be lost. Humanity's future appears bleak unless more people can be found. Hoping there is some truth in the rumours of a redoubt in Vancouver, an expedition to the Pacific is launched. The journey will be perilous as North America was ground zero for the outbreak, and for the nuclear war. Set in Canada and beyond, as survivors from the Atlantic and Pacific meet. Please note, this book features places and events, and heroes and villains from the saga of the Pacific survivors told in the series *Life Goes On*.

Surviving the Evacuation, Book 18 Frank Tayell

For good or ill, the future has begun. After the outbreak came the nuclear war. The blasts killed millions. Chaos followed. Most of those unlucky enough not to succumb to starvation and disease joined the ranks of the living dead. Fleeing the impossible nightmare, ten thousand, from nations across the Atlantic seaboard, found refuge on the Welsh island of Anglesey. There, they should have been safe. There, they should have been able to rebuild. There, they were betrayed. Forced to flee once more, a hasty exodus was planned, but those plans were sabotaged. The survivors became scattered across the island of Ireland. Old-world supplies are scarce, hope is running out, and safety is just a memory. The snow has come, and though rain will soon follow, winter has truly begun. In Dundalk, eight hundred survivors have occupied a local college, but the campus is too dispersed to defend. As they scour the snow-covered town for a safe route to the sea, they find signs of long-fled survivors and answers to a question they hadn't asked. In Belfast, the situation is increasingly precarious. There are saboteurs in their midst. As the investigation into their identity slowly progresses, the terrorists continue to plot. Rumours of a mutiny escalate into a riot, while an unseen clock ticks ever closer towards humanity's destruction. Set in Belfast and Dundalk, over three days that change everything.

Surviving The Evacuation, Book 9: Ireland Hill and Wang

The outbreak changed everything, but there are some bonds even the undead can't break. It's been six years since Pete Guinn last saw his sister, Corrie. He always hoped to see her again, but feared she was dead. When an elusive billionaire reveals Corrie is living under an assumed name in the Australian outback, Pete unquestioningly jumps at the chance of a reunion. But you can't win the lottery without buying a ticket, and billionaires don't

do favours for free. Corrie is in hiding from her old employer, and from the Rosewood Cartel. Now that they've both found her, only a miracle can save the two siblings, and what happens in Manhattan can't be described as miraculous. What begins as a viral outbreak soon turns into an impossible horror. People are infected and die, only to rise up and continue transmitting the infection. Even as the army is mobilised, the virus spreads beyond the borders of the United States. Nowhere is safe from the living dead. As Australia is quarantined, the mining town of Broken Hill becomes a transit hub for the relief effort. Tourists are evacuated while civilians are conscripted, Pete and Corrie among them. Together with a bush pilot, a flying doctor, and an outback cop, the struggle to maintain civilisation begins. Supplies run low. Looting is rampant. Laws are forgotten, especially by the cartel who haven't abandoned their search for Corrie and their quest for revenge. Set in Broken Hill and beyond as the Australian quarantine begins. As this book returns to the beginning of the outbreak, it can be considered a good entry point for readers new to the series.

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next

world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.
