All three novels and both Echo Trilogy novellas bundled together! Their love is destined to shatter the boundaries of time... Archaeology grad student Alexandra Larson's world is turned upside down when her mother shares her deepest, darkest secret--that she doesn't know the true identity of Lex's father. The revelation sparks a change within Lex, and her dreams become far too real. She sees things she shouldn't be able to see...knows things she couldn't possibly know. Terrifying things. Deadly things. To distract her from the surreal changes taking over her life, Lex leaps at the chance to join an Egyptian excavation run by Oxford's enigmatic Professor Marcus Bahur. But the distraction might be more than she bargained for. While deciphering the secrets of a mysterious stone tablet, Lex falls headlong into a prophecy created by a dying god over four millennia ago. She must rely on her frightening new psychic powers to dig up the truth. And it doesn't take long for her visions to convince her that both Professor Bahur and his excavation are much more than they seem... The gift of life's eternal wisdom! The cross and loop or circle symbol known as the Ankh has come to be one of the most widely recognized symbols in the world--honored and/or used in rituals by many religions in many cultures around the globe and through time. It gained huge popularity in the 60s when it became an anti-establishment, anti-war symbol, as Lon Milo Duquette points out in his introduction. The Ankh: Key of Life includes a silver-colored Ankh on a black silken cord and an informative illustrated book about the Ankh's history and meaning plus a plethora of ideas for wearing and using your Ankh in a meaningful way. If any symbol on earth could hold such power it is certainly the Ankh. It is the consensus among many modern esotericists that the Ankh was designed to be recognized by the ancient eye as a simple sandal strap. This is my favorite theory for it suggests to me the secret that life is a journey each of us must make one step at a time. It's simply a matter of going--a process of voluntary movement--a willed commitment to move on, move up, and become something greater than we now are. *Features a silver-colored Ankh pendant on a silken cord

The last word on the tarot of the Golden Dawn, this veritable encyclopedia covers every aspect of the cards. The authors stress experimentation with the tarot, which is a mark of a vibrant magical system. The descriptions of each tarot card are very reliable and very complete. Of particular interest are the alchemical associations and the authors' work on the gematria or numerology of each card. For the first time a complete alchemical system is given for the whole deck. There is also a good deal of added astrological information and divinatory meanings and interpretations. Several excellent suggestions for studying and

meditating on the cards are provided by the authors. This book is a balanced combination of both historical and new material presented by the Zalewskis that stands firmly rooted in Golden Dawn teachings and ritual practice. There are many interesting new innovations in this book. Fully illustrated by Golden Dawn member and professional artist, Skip Dudchous, this new 2019 edition has been completely re-edited and re-formatted for ease of reading. It will be an invaluable resource for those interested in the tarot of the Golden Dawn.

House of Life: an institution little known in culture current of those interested in ancient Egypt. Yet, as we will see, was a foundation of extreme importance for the elaboration of various facets of the religious and magical culture of Egypt. According to existing documents, the House of Life already exists in the Old Kingdom in the 6th dynasty and lasts until the end of the Pharaonic civilization. The available sources are not very talkative about what was done in this laboratory and this is also understandable given its nature. The activities of the House of Life were varied.

Theurgy was about more secret and refined rituals that had to make the processes of the macrocosm functioned smoothly and extended their beneficial influence in society. The communion of the sovereign with the solar entities, as an intermediary of them, was the subject of rites and appropriate ceremonies. The defense of the King from enemies follows the same technique used against Ra and the Evil Apophis: in the "Book to Bring Down Apophis" are described by thread and by sign the ways of making images of the Evil One and the related deprecatory formulas. The staff of the House of Life also practiced natural magic intended to assist people in the various vicissitudes of life. Yes presumes that the consecration of amulets and magical texts also condoms took place in this place.

After learning that early African Americans in the Antebellum South followed the Kongo Cross, which the author used to discover the Maa Aankh, an Egyptian-style medicine wheel. Using this diagram as a guide revealed that the familiar physical reality we live in is limited, but beyond our five physical senses is a rich and unlimited spiritual dimension. Everything we desire - peace, prosperity, success, love, joy - can be found in this spiritual realm, because they are ethereal in nature. Most people have a problem obtaining these goals because they allow themselves to become disconnected from their Source. But, by learning how to stay connected to this invisible reality, you can overcome the physical problems you face. Included are practical exercises based upon shamanic traditions that will help you break away from the destructive beliefs and habits that disconnect you from the Source. As well as spiritual practices and rites that will help you maintain the connection to create the life that you want and deserve.

The first of its kind, this book examines artistic representations of the brain after the rise of the contemporary neurosciences, examining the interplay of art and science and tackling some of the critical-cultural implications. Weaving an MRI pattern onto a family quilt. Scanning the brain of a philosopher contemplating her own death and hanging it in a museum. Is this art or science or something in-between? What does it mean? How might we respond? In this ground-breaking new book, David R. Gruber explores the seductive and influential position of the neurosciences amid a growing interest in affect and materiality as manifest in artistic representations of the human brain. Contributing to debates surrounding the value and/or purpose of interdisciplinary engagement happening in the neuro-humanities, Gruber emphasizes the need for critical-cultural analysis within the field. Engaging with New Materialism and Affect Theory, the book provides a current and concrete example of the on-going shift away from constructivist lenses, arguing that the influence of relatively new neuroscience methods (EEG, MRI and fMRI) on the visual arts has not yet been fully realised. In fact, the very idea of a brain as it is seen and encountered today—or "The Brain," as

Gruber calls it—remains in need of critical, wild and rebellious re-imagination. Illuminating how artistic engagement with the brain is often sensual and suggestive even if rooted in objectivist impulses and tied to scientific realism, this book is ideal for scholars in Art, Media Studies, Sociology, and English departments, as well visual artists and anyone seriously engaging discourses of the brain.
