Wishes & Kisses for My Avery A&C Black

This book explores the interface between intellectual property and human rights law and policy. The relationship between these two fields has captured the attention of governments, policymakers, and activist communities in a diverse array of international and domestic political and judicial venues. These actors often raise human rights arguments as counterweights to the expansion of intellectual property in areas including freedom of expression, public health, education, privacy, agriculture, and the rights of indigenous peoples. At the same time, creators and owners of intellectual property are asserting a human rights justification for the expansion of legal protections. This book explores the legal, institutional, and political implications of these competing claims: by offering a framework for exploring the connections and divergences between these subjects; by identifying the pathways along which jurisprudence, policy, and political discourse are likely to evolve; and by serving as an educational resource for scholars, activists, and students.

Longarm fires up Hell's Half Acre! After U.S. Deputy Marshal Custis Long blasts a killer to hell in an epic gunfight, he seeks respite in Hell's Half Acre. Notorious beyond its size, Fort Worth's "Acre" features bullet-riddled corpses and scores of barely dressed women, drunks, gamblers, tinhorns, outlaws, cowboys and tradesmen. What better place for a marshal to vacation? But, sooner than later, the bad guys in Hell's Half Acre need reminding that there's no rest for the wicked—or for the lawman known as Longarm who blows them to blazes.

Recurrent crises in emerging markets and in advanced economies in the last decades cast doubt about the ability of financial liberalization to meet the aims of sustainable economic growth and development. The increasing importance of financial markets and financial efficiency criterion over economic decisions and policies since the 1980s laid down the conditions of the development process of emerging market economies. Numerous crises experienced thereafter gave rise to flourishing work on the links between financialization and economic development. Several decades of observations and lessons can now be integrated into economic and econometric models to give more sophisticated and multivariable approaches to financial development with respect to growth and development issues. In the markets-based and private-enterprise dominated world economy, two conditions for a successful growth-enhancing financial evolution can at least be brought fore: macroeconomic stability and consistent supervision. But even after the 2007-2008 global crisis, economists do not agree on the meaning of those conditions. For liberal and equilibrium-market economists,

good finance and supervision mean market-friendly structures while for institutionalists, post-Keynesian and Marxist economists, good finance and supervision must lie in collectively designed and managed public structures. Drawing heavily on the tumultuous crises of the 1990s-2000s, this book argues that those experiences can shed light on such a crucial issue and lead economic theory and policy to go beyond the blindness of efficient free markets doctrine to economic catastrophes. It also points to new challenges to global stability in the wake of reconfiguration of international financial arena under the weight of major emerging market economies.

Music at the Limits

Music at the Limits brings together three decades of Edward W. Said's essays on music. Addressing the work of a wide variety of composers and performers, Said analyses music's social and political contexts, and provides rich and often surprising assessments. He reflects on the censorship of Wagner in Israel; the relationship between music and feminism; and the works of Beethoven, Bruckner, Rossini, Schumann, Stravinsky and others. Always eloquent and often surprising, Music at the Limits reinforces Said's reputation as one of the most influential writers of the twentieth century.

Learning how to revise may well be the most excruciating part of writing - frequently it is what makes or breaks new writers. Now, in this unique and highly useful book, Jay Woodruff gives some of America's finest contemporary writers an opportunity to talk with passion and professionalism about revision - about the hard work of their writing. Books on writing generally offer prescriptions and proscriptions about this "craft so hard to learn" instead of evidence. But in A Piece of Work Woodruff's incisive questions guide five writers - Tobias Wolff, Tess Gallagher, Robert Coles, Joyce Carol Oates, and Donald Hall - through specific examples that enable the reader to see how good writing becomes better. From the first draft through various revisions and finally to the printed version of a single piece of each author's work, Woodruff traces the full course of the revision process. While we might prefer to picture all authors as Coleridge, with the perfectly formed lines and stanzas of "Kubla Khan" emerging from a dream, the
