Presented here for the first time and for meditation and emulation are the words and work of many environmental apostles. The words and work of each apostle are designed to delight and inspire the reader to begin or continue to lead a life of environmental action for conservation and contemplation of nature for spiritual succor in the age of climate change. All the usual suspects are here, such as St. Francis, Rachel Carson, Aldo Leopold, John Muir, Henry David Thoreau, and Judith Wright, but *New Lives of the Saints* emphasizes some aspects of their words and work often ignored or overlooked, such as Thoreau on swamps and Leopold on marshes. Also included are some unusual and unexpected environmental apostles, such as Walter Benjamin, Raymond Williams, Seamus Heaney, and Paul Virilio, all of whom contributed to green thinking as this book shows.

Other environmentally apostolic writers, such as Walt Whitman, Sidney Lanier, Lord Dunsany, H. P. Lovecraft, Felix Guattari and Kelly Barnhill, are also discussed. Beginning with two environmentally and animal friendly retellings of the legends of St. George and St. Margaret involving dragons, the book goes on to devote a chapter each to ten other environmental apostles as patron saints of a special type of environment or of an approach to environmental conservation and contemplation. These saints sing the song of the earth, including its swamps, marshes, bogs, fens, national parks, mountains, forests, oceans, seas, airs, rivers, reefs, trees, cities, peoples, places, plants, animals, and so on. They provide nurture for living a life of hope and symbiotic livelihood living sacrally with the earth. *New Lives of the Saints* crosses the great divide between fiction and non-fiction and mixes the genres of story and essay. It is a ground-breaking work of environmental counter-theology for the symbiocene, the hoped-for age superseding the Anthropocene.

Songs of the Saints; a Poem for Each of the Black-letter Festivals Rowman & Littlefield

A gorgeously illustrated co-publication with Christine Burgin by “one of the world’s great essayists” (The New York Times). With a guide to the illustrations by Mary Wellesley. Angels have soared through Western culture and consciousness from Biblical to contemporary times. But what do we really know about these celestial beings? Where do they come from, what are they made of, how do they communicate and perceive? The celebrated essayist Eliot Weinberger has mined and deconstructed, resurrected and distilled centuries of theology into an awe-inspiring exploration of the heavenly host. From a litany of angelic voices, Weinberger’s lyrical meditation then turns to the earthly counterparts, the saints, their lives retold in a series of vibrant and playful capsule biographies, followed by a glimpse of the afterlife. Threaded throughout Angels & Saints are the glorious illuminated grid poems by the eighteenth-century Benedictine monk Hrabanus Maurus. These astonishingly complex, proto-“concrete” poems are untangled in a lucid afterword by the medieval scholar and historian Mary Wellesley.

A poignant and powerful spiritual memoir about how the lives of the saints changed the life of a modern woman. In *My Sisters the Saints*, author Colleen Carroll Campbell blends her personal narrative of spiritual seeking, trials, stumbles, and breakthroughs with the stories of six women saints who profoundly changed her life: Teresa of Avila, Therese of Lisieux, Faustina of Poland, Edith Stein of Germany, Mother Teresa of Calcutta, and Mary of Nazareth. Drawing upon the rich writings and examples of these extraordinary women, the author reveals Christianity’s liberating power for women and the relevance of the saints to the lives of contemporary Christians.

Theology of the Body Explained Forgotten Books

Coursing though cultures and time, tuneful verse has given moving expression to the human longing for the divine. As poetry strung on sweet melodies, hymns bear testimony to the religious life of the devout, and to the inspiring teachings of minstrels and saints. Such is the gitan tradition of the Satpanth Isma’ilis, Indian successors of the Fatand Nizari Isma’ili sect of the Shi’ah Muslims. Traditionally recited during daily ritual prayers, ginans have been revered for generations among the Satpanth Isma’ilis as sacred compositions. This work offers for the first time an extensive translation of hymns attributed to the Isma’ili saint-composer, Pir Shams (ca. 13th century), who is at once one of the most pivotal and yet most enigmatic figures of this literary tradition. It also presents a cogent historical reconstruction of the beginnings of Satpanth Isma’ilism—a phase of Isma’ili history that has spanned over eight centuries.

There is no greater authority on the saints than Alban Butler, and his enormous research has been the standard reference on the subject for the last two and a half centuries. This new adaptation of Butler’s multi-volume *Lives of the Saints* presents a modernized text for today’s reader and provides an illuminating guide to these historic, symbolic, and foundational Christian men and women. Butler’s daily readings from the lives and works of the saints offer readers of all backgrounds the opportunity to engage directly with these great figures. Butler’s distinctive contribution to stories about saints was to turn attention away from the superhuman, miraculous themes that are prevalent in earlier works. He gives us saints who are examples of Christian living, who provide inspiration for our own lives, in every time and circumstance. As Butler writes: “They were once what we are now, travelers on earth. They had the same weaknesses we have. We have difficulties; so had the saints.” Important features of this version include mention of recently canonized saints as well as those whose path to official sainthood is still in progress. Also included in the daily readings are more obscure saints whose lives and contributions to Christianity should not be forgotten.
