This book deals with  
the determination of  
method of timing of  
events through dasha  
and transit. The  
horoscope and related  
divisional charts can

simply give an indication about the auspicious and inauspicious probabilities on the basis of the study of house, house lord and significator whereas the timing of an event cannot be calculated without understanding the impact of major period & transit in operation so for getting timing of events in one's life, we use Dasha and transits. Dasha tells which planet is affecting the native at a particular time, whereas transit tells us which natal planet is vibrating because of the transiting planet. A combined result of Dasha and transit gives us the behavior of the native at a particular time. In nutshell the Horoscope and concerned divisional

charts only indicate the promise in the horoscope, negative or positive, according to the position of house, house lord, significator, concerned house from the significator. But the time of fructification of event is indicated by the Dasha/Anterdasha of different planets. If a good dasha is in operation, the native will get good results according to the significations of the concerned dasha nath and its lordship in the horoscope. For determining the timing of events for various events such as education, profession, marriage, children, acquiring of vehicle, land and property, foreign travels, each subject is discussed in detail in different chapters. The principles to identify

the timing of events are given with illustrations / examples.

This book deals with the fundamentals of Horoscope matching. Today "Horoscope matching" has become the indispensable part of Hindu marriage. But it has not been mentioned in any old Jataka scripture of Astrology. However, it has been described in the Muhurta scriptures of the same. In Ramayan, marriage of Rama, Bharata, Lakshmana and Shatrughna has been described elaborately. But, in this great epic also Horoscope

matching has not been mentioned. Likewise, in Mahabharata, too, it has not been cited. Therefore, it can be said that Horoscope matching in Astrology was not in practice a few centuries ago. But, the community accepted and made it an indispensable part keeping its usefulness in view. Different systems of Horoscope matching are in practice in different parts of India. In North India, Ashtakuta matching is in practice whereas in South Dasakuta matching is in fashion. But Ashtakuta matching is in vogue in most part of India. This is why the All India Federation of Astrologers' Societies has accepted and prescribed this system of Ashtakuta matching for the courses of its

students. The book has been written keeping in view the courses introduced by the All India Federation of Astrologers' Societies, Delhi. The students are advised to study "Kundali Milana-Sukhi Dampatya Jeevana Ka Adhar" because prediction of a happy married life cannot be made by Ashtakuta matching only. This shows only the amity, love and mutual understanding between the two. But to determine the age, health and ups and downs in life of the couple some other aspects such as Period-sub-period, Dosha Samya etc. are also essential to be analyzed. An analysis of long conjugal life is essential for its stability. So, apart from Ashtakuta matching,

we should keep in view other aspects also. To know all this, "Kundali Milan - Sukhi Dampatya Jeevana Ka Adhara" is prescribed. *Sagittarius Horoscope* Astrotech Lab The Book by Dr. Dennis Harness provides an excellent practical presentation to this important astrological system. It shows us how to access the wisdom of the Nakshatras in our personal life and for our society. Through it, the modern reader can understand the energies of their stars and learn how to utilize these to bring their lives into harmony with the great forces of the universe. The book is a must reading not only for any students of astrology but for any students of astrology but for anyone
