**English to Swahili Picture Dictionary** W. W. Norton & Company

A range of distinguished anthropologists and sociologists re-examine the concept of risk in contemporary societies.

Individual Biography and National History in Tanzania Rowman & Littlefield Publishers

Did you ever want to teach your kids the basics of Swahili ?

Learning Swahili can be fun with this picture book. In this book you will find the following features: Swahili Alphabets. Swahili Words. English Translations.

**The Swahili** Edinburgh University Press

Reflecting upon language and the role metaphor plays in patterning ideas and thought, Underhill analyses the discourse of several languages in recent history.

**The Complete Euripides** Black Dog & Leventhal Pub

Shifting the discourse from a focus on academic language to the more dynamic but less researched construct of academic literacies, this volume addresses three key questions: • What

constitutes academic literacy? • What does academic literacy development in adolescent multilingual students look like and how can this development be assessed? • What classroom contexts foster the development of academic literacies in multilingual adolescents? The contributing authors provide divergent definitions of academic literacies and use dissimilar theoretical and methodological approaches to study literacy development. Nevertheless, all chapters reflect a shared conceptual framework for examining academic literacies as situated, overlapping, meaning-making practices. This framework foregrounds students' participation in valued disciplinary literacy practices. Emphasized in the new college and career readiness standards, the notion of disciplinary practices allows the contributing authors to bridge the language/content dichotomy, and take a more holistic as well as nuanced view of the demands that multilingual students face in general education classrooms. The volume also explores the implications of the emphasis on academic literacy practices for classroom instruction, research, and policy.

*Mindfulness and Acceptance in Couple and Family Therapy*  
 University of Pennsylvania Press

A biography of a teacher, charity leader, activist and guardian of

extended family who lived through changes from colonialism to independence, socialism to neoliberalism, and local Swahili Islam to a more globalized form. Showing how historical processes impacted on Mikidadi, this counters recent rewritings of Tanzania's post-colonial history.

*Sarufi ya Kiswahili cha Ngazi ya Kwanza na Kati* Holt Rinehart & Winston

"As an introduction to how the history of an African society can be reconstructed from largely nonliterate sources, and to the Swahili in particular, . . . a model work."—International Journal of African Historical Studies

*My Talking Yoruba Book* Createspace Independent Publishing Platform

This book reviews the research and philosophical foundations for using mindfulness, acceptance, and Buddhist psychology in couple and family therapy. It also provides a detailed and practical approach for putting these ideas into action in the therapy room, including a mindful approach to therapeutic relationships, case conceptualization, treatment planning, teaching meditation, and intervention.

*Neuroscience* World Bank Publications

Swahili is a language spoken in Kenya, Tanzania, Uganda, Rwanda, Burundi, Mozambique, and the Democratic Republic of the Congo. With over 200 words translated, you will learn a sizable amount of Swahili words in this book. In addition, the colourful real-life pictures keep it interesting and relatable. It is a rich foundation for the little ones trying to learn Swahili. Nasieku Kamano is a Kenyan living in South Africa. She initially created a draft of this book to teach Swahili to her children Mali, 3 and Kael, 1. They love looking at the pictures and identifying the items and animals in the book.

*Ritual and Gender in New Guinea* Simon and Schuster

After decades of banishment to popular magazines and advice columns, jealousy and envy have emerged as legitimate topics of scientific inquiry. This volume includes chapters from nearly every major contributor to the psychological literature in this area. From emotional, and cognitive processes that underlie jealousy and envy; to the ways these emotions are experienced and expressed within close relationships; to family, societal, and cultural contexts, the volume offers a definitive statement of current theory and research.

*Emotionally Focused Therapy (EFT) with Individuals, Couples, and Families* Thermal Delight in Architecture

A Companion to Comparative Literature presents a collection of more than thirty original essays from established and emerging scholars, which explore the history, current state, and future of comparative literature. Features over thirty original essays from leading international contributors Provides a critical assessment of the status of literary and cross-cultural inquiry Addresses the history, current state, and future of comparative literature Chapters address such topics as the relationship between translation and transnationalism, literary theory and emerging media, the future of national literatures in an era of globalization, gender and cultural formation across time, East-West cultural encounters, postcolonial and diaspora studies, and other experimental approaches to literature and culture

*African Youth Languages* Guilford Publications

This cultural and psychological study of gender identity and sexual development in a New Guinea Highlands society includes initiation rites and socialization studies, and contrasts the Sambia with other societies, including our own. Sambia boys experience ritualized homosexuality before puberty and do not leave it until marriage, after which homosexual activity is prohibited. The implications are developed cross-culturally and contextualized in gender literature.

*The Cambridge Companion to Narrative* University Press of America

Our thermal environment is as rich in cultural associations as our visual, acoustic, olfactory, and tactile environments. This book explores the potential for using thermal qualities as an expressive element in building design. Until quite recently, building technology and design has favored high-energy-consuming mechanical methods of neutralizing the thermal environment. It has not responded to the various ways that people use, remember, and care about the thermal environment and how they associate their thermal sense with their other senses. The hearth fire, the sauna, the Roman and Japanese baths, and the Islamic garden are discussed as archetypes of thermal delight about which rituals have developed—reinforcing bonds of affection and ceremony forged in the thermal experience. Not only is thermal symbolism now obsolete but the modern emphasis on central heating systems and air conditioning and hermetically sealed buildings has actually damaged our thermal coping and sensing mechanisms. This book for the solar age could help change all that and open up for us a new dimension of architectural experience. As the cost of energy continues to skyrocket, alternatives to the use of mechanical force must be developed to meet our thermal needs. A major alternative is the use of passive solar energy, and the book will provide those interested in solar design with a reservoir of ideas. *The Complete Course for Beginners* Al-Attique Pub Incorporated The English to Swahili Picture Dictionary is a great resource whether you are teaching a child Swahili or learning it yourself. It is a good starting point as it allows you to learn new words for everyday items and common animals. This book features bold and striking images as well as example sentences in both English and Swahili to help you learn and remember the words as well as highlighted keywords.

*Thermal Delight in Architecture* Bloomsbury Publishing

A unique and valuable overview of current approaches to narrative study, first published in 2007.

**Swahili Grammar for Introductory and Intermediate Levels** Routledge

Making linguistics accessible and relevant to all teachers, this text looks at language issues in the classroom through an applied sociocultural perspective focused on how language functions in society and in schools—how it is used, for what purposes, and how teachers can understand their students' language practices. While touching on the key structural aspects of language (phonetics, phonology, morphology, and syntax), it does not simply give an overview, but rather provides a way to study and talk about language. Each chapter includes practical steps and suggests tools for applying different kinds of linguistic knowledge in classrooms. The activities and exercises are adaptable to elementary or high school settings. Many examples focus on the intersection of math, science, and language. Teacher case studies show how real teachers have used these concepts to inform teaching practices. Given the increasing use of multimedia resources in today's schools, multiple mediums are integrated to engage educators in learning about language. The Companion

Website provides a multitude of relevant resources that illustrate the diversity of language functions and debates about language in society.

**Theopneustia** MIT Press

This book showcases current research on language in new media, the performing arts and music in Africa, emphasising the role that youth play in language change and development. The authors demonstrate how the efforts of young people to throw off old colonial languages and create new local ones has become a site of language creativity. Analysing the language of 'new media', including social media, print media and new media technologies, and of creative arts such as performance poetry, hip-hop and rap, they use empirical research from such diverse countries as Cameroon, Nigeria, Kenya, the Ivory Coast and South Africa. This original edited collection will appeal to students and scholars of African sociolinguistics, particularly in the light of the rapidly changing globalized context in which we live.

**Blank Cookbook** Pluto Press
