MARQUEZ CRANE

God Made Outer Space HarperCollins UK

When God created heaven and earth, he also created heaven and Teren. Planet Teren is identical to Earth in every respect, including its placement in a duplicate solar system. Since creation, the two parallel planets developed along almost identical lines, and when God saw that the humans on each planet were not following his commandments, he decided to send his twin sons to intercede, one son to each planet. When both sons were confronted with crucifixion, God let it stand on Earth and every other chapter gives the reader Earth's historical highlights for the past two thousand years (including each and every documented war). On planet Teren, however, God stepped in and not only resurrected Jesus but also then installed him as the CEO of the planet. From his base in Jerusalem, the Teren Jesus set the standards for human development and without war""or for that matter, any form of sin""the people of Teren turned their attention to making life meaningful, fulfilling, pleasant, and Christian. (Every other chapter documents the development on Teren over the past two thousand years.) On Earth, millions upon millions of human brains were scattered across killing field after killing field. What might have come out of those millions upon millions of lost and destroyed brains? We may find out as we take a tantalizing glimpse into life on God's Parallel Planets.

Memories of God and Creation Christian Faith Publishing, Incorporated

Is it possible to remember how the universe was created, where humans came from, and what we planned to do with our lives? Yes, says board-certified psychiatrist Shakuntala Modi, M.D. For more than a decade Dr. Modi has used clinical hypnosis to help patients deiscover the sources of their physical and mental health problems, not only in their pasts, but even in their past lives. Now she targets the cosmos. According to Dr. Modi, everyone carries memories of God and creation in their subconscious. This book presents information from many of her hypnotized patients, presenting evidence that we all carry the secrets of the universe within us. The astonishing revelations in this book include real patient descriptions of:What it's like to be one with GodWhy there are individual soulsWhere evil came fromHow angels were createdHow dying feelsHow easy it is to return to Heaven after death Prepare to have your world view completely altered by the information in *Memories of God and Creation*.

Made by God Hachette UK

An account of astrology from its beginnings in Mesopotamia, focusing on the Greco-Roman world, *Ancient Astrology* examines the theoretical development and changing social and political role of astrology.

In the Beginning God Created the Heavens - Planets (UKRAINIAN) Convergent Books

Calculating God is the new near-future SF thriller from the popular and award-winning Robert J. Sawyer. An alien shuttle craft lands outside the Royal Ontario Museum in Toronto. A six-legged, two-armed alien emerges, who says, in perfect English, "Take me to a paleontologist." It seems that

Earth, and the alien's home planet, and the home planet of another alien species traveling on the alien mother ship, all experienced the same five cataclysmic events at about the same time (one example of these "cataclysmic events" would be the meteor that wiped out the dinosaurs). Both alien races believe this proves the existence of God: i.e. he's obviously been playing with the evolution of life on each of these planets. From this provocative launch point, Sawyer tells a fast-paced, and morally and intellectually challenging, SF story that just grows larger and larger in scope. The evidence of God's universal existence is not universally well received on Earth, nor even immediately believed. And it reveals nothing of God's nature. In fact. it poses more questions than it answers. When a supernova explodes out in the galaxy but close enough to wipe out life on all three home-worlds, the big question is, Will God intervene or is this the sixth cataclysm:? *Calculating God* is SF on the grand scale. *Calculating God* is a 2001 Hugo Award Nominee for Best Novel. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Planet Gods Harmony

The *God's Design Heaven & Earth Teacher Guide* reveals the wonders of God's creation through the study of weather and water, the universe, and planet earth. Each lesson contains at least one hands-on activity to reinforce the concepts being taught and a "challenge" section with extra information and activities designed especially for older students. In addition to the lessons, special features in each book include biographical information on interesting people, as well as fun facts to make the subject more engaging. Teaches children an understanding that God is our Creator and that the Bible can be trusted. Designed to build critical thinking skills and flexible enough to work with all learning styles, the lessons require minimal teacher preparation, are multi-level for 3rd-5th and 6th-8th grades, as well as being fun and easy-to-use. The course includes a helpful daily schedule, as well as worksheets, quizzes, and tests. The information contains tips on how to teach science, properly contrasting creation vs. evolution, and integrating a biblical worldview.

In the Beginning God Created the Heavens... The Sun Macmillan

What is the universe? What does that mean? I will try to explain to those persons who want to know. The universe is the large emptiness we see all around and parts we do not see yet. It is easy for us to see through it and reach out, and we touch nothing. The universe does exist because there are things that we can touch and feel. There is space around everything; this empty space. It did not exist before any parts or trees, grass, animals, people, so there was emptiness. This is called es or ethrea and exists millions and billions of years ago. There was a super intelligent being, whom we call Jehovah, and Jehovah looked all over this empty space and found no other being or no other part or thing in this emptiness that exists. He called it ethrea; he found nothing existed besides him. So he thought and thought for quite some time and decided he would create a being called animal, but there was nothing to be like him. It does not need to look like me. Nothing can be like me. It must have a place to move and a part that helps it move. It must have legs and feet to touch something to move on. So Jehovah discovered that he could speak and lots of stuff would come into existence.

Now how can make this stuff form into balls, or better, Ill call it a planet or nebula. If I make it go around like a whirlwind, it will come to a center. So he caused the stuff to go round and round, and he discovered it got hot with friction. When it cooled down, it became a large ball, and he called it the sun. Some of the spinning stuff became smaller balls, and he could call those the planets and the smaller ones as moons. There were so many of these planets and moons. What could he do with them? He could make grass and trees and animals and people that could be companions. It would take many years of experiments to do this, and he had so many planets to cause to grow and many years to make the animals able to talk, and they will need to be able to eat.

This Is God's Planet In Celebration

"Hi, GOD here. I'm here to talk about Creation. How I created the Universe." What would happen if astrophysicist Neil deGrasse Tyson and comic Mel Brooks collaborated on retelling Genesis' Story of Creation? It might be something as hilariously charming and informative as "How Mrs. God and I Created the Universe." GOD takes us on his humorous first person, 14 billion year retelling of how he created the universe - from the creation of the stars and planets to that fateful day in the Garden of Eden and why He loves pizza. His recap is a playful and funny mash-up of astrophysics, human nature, biology, chemistry and stand-up humor that transcends science and religion. You will smile and at times laugh out loud as GOD takes you through his innocent observations on life today; subtle links to pop culture; surprise when things actually work; humble acceptance of errors; wild choices for Earth's color scheme; and giving things nerdy names. All while fielding endless suggestions from Mrs. God. After reading "How Mrs. God and I Created the Universe" you will never look at flowers, trees, fish, the seas, rocks, gems, men nor the Book of Genesis the same way again.

In the Beginning God Created the Heavens... The Moon Simon and Schuster

In *God and the Astronomers*, Dr. Robert Jastrow, world-renowned astrophysicist, describes the astronomical discoveries of recent years and the theological implications of the new insights afforded by science into mankind's place in the cosmos. He explains the chain of events that forced astronomers, despite their initial reluctance ("Irritating," said Einstein; "Repugnant," said the great British astronomer Eddington; "I would like to reject it," said MIT physicist Philip Morrison) to accept the validity of the Big Bang and the fact that the universe began in a moment of creation.

When God Made the World Xlibris Corporation

Easy reader kids explore outer space and learn about galaxies, stars, moons, and other exciting outer space adventures. This early reader 16-page book teaches kids about the Bible and character traits.

Heaven & Earth (Teacher Guide) Convergent Books

This beautifully illustrated children's book invites kids to explore God's design for ethnic diversity and challenges readers—both parents and children—to learn and live out counter-cultural, biblical views, fostering a lifelong celebration of diversity for the glory of God. Designed for four- to eleven-year-olds, *God Made Me AND You* by Shai Linne is the second book in the *God Made Me* series, starting with *God Made All of Me* by Justin and Lindsey Holcomb. Because Scripture teaches that ethnic diversity is not something that should be tolerated but rather enthusiastically embraced, Christian hip hop artist Shai Linne helps children, parents, and caregivers to celebrate this biblical truth through a lyrical, rhyming style and colorful illustrations. *God Made Me AND You* is an

approachable guide for families to begin conversations about cultivating a God's perspective on ethnic diversity, confronting the sins of racism, bigotry, and ethnic pride. Because children learn from family members, media, or peers, parents and caretakers have a responsibility to teach their children what God has to say about the beauty of diversity in his image-bearers, with a particular focus on ethnic diversity. This colorful and compelling children's book serves as a resource and lifelong gift for children and parents, helping families understand diversity from a biblical perspective and with a clear picture of the beauty and glory of God.

How God Created the Universe W. W. Norton & Company

This book contains personal experiences, thoughts and theories based off my own research and investigations into the possibility that a loving God exists.

In the Beginning God Created the Heavens - Planets (POLISH) Lulu.com

By comparing the earth to all the other planets in our solar system, we can see just how special it really is. There is no other place as perfect for us as the earth! The earth could never have happened by chance. God perfectly created the earth for us to have a comfortable, beautiful, and wonderful place to live for His purpose.

In the Beginning God Created the Heavens... The Planets Christian Faith Publishing, Inc.

Invite children to embark on another journey to discover more about God and His incredible creation. Based on Louie Giglio's popular messages about science and the Bible, *How Great Is Our God* shows kids the awe-inspiring connection between the natural world and the God who created it. The bestselling children's devotional *Indescribable: 100 Devotions for Kids About God and Science* resonated with more than 500,000 kids, parents, and teachers. Now Louie Giglio offers 100 more devotions about God and science that will expand the curiosity of kids ages 6-10. Including amazing scientific facts, beautiful photography, and fun illustrations, *How Great Is Our God* covers numerous topics: Space and time Earth and weather The human body Animals Plants And more! John 8:12 says, "I am the light of the world. Whoever follows me will never walk in darkness, but will have the light of life." This mind-bending, not-so-typical devotional will deepen your kids' awe and appreciation for God's wild imagination and infinitely creative creation, from the pink lake in Senegal to the Earth's trip around the sun to the water-holding frog that can live up to five years without a drink (what?!). Explore Louie Giglio's other books in the bestselling *Indescribable Kids* series:

Indescribable Indescribable for Little Ones The Wonder of Creation

In the Beginning God Created the Heavens - the Planets Routledge

Over the years, startling evidence has been unearthed, challenging established notions of the origins of Earth and life on it and suggesting the existence of a superior race of beings who once inhabited our world. The product of thirty years of intensive research, *The 12th Planet* is the first book in Zecharia Sitchin's prophetic *Earth Chronicles* series--a revolutionary body of work that offers indisputable documentary proof of humanity's extraterrestrial forefathers. Travelers from the stars, they arrived eons ago, and planted the genetic seed that would ultimately blossom into a remarkable species...called Man. *The 12th Planet* brings to life the Sumerian civilization, presenting

millennia-old evidence of the existence of Nibiru, the home planet of the Anunnaki and of the landings of the Anunnaki on Earth every 3,600 years, and reveals a complete history of the solar system as told by these early visitors from another planet. Zecharia Sitchin's Earth Chronicles series, with millions of copies sold worldwide, deal with the history and prehistory of Earth and humankind. Each book in the series is based upon information written on clay tablets by the ancient civilizations of the Near East. The series is offered here, for the first time, in highly readable, hardbound collector's editions with enhanced maps and diagrams.

[Mother God and Me Our Memoirs](#) Moody Publishers

From the author of the bestselling children's book *When God Made You* comes a rhythmic, whimsical journey through creation--for little readers who love science and wonder and the beginnings of all things. For spiritual parents who are looking for a different kind of creation book, Matthew Paul Turner's *When God Made the World* focuses on the complex way that God created our vast and scientifically operating universe, including the biodiversity of life on our planet and the intricacies of a vast solar system. Scottish illustrator Gillian Gamble brings the natural world to vibrant life with rich colors and poignant detail certain to stretch young minds and engage imaginations. Planet Earth, God made a blue and green sphere, And designed it to orbit the sun once a year. God made daytime and nighttime, climates and seasons, And all kinds of weather that vary by region. God made continents and oceans, islands and seas, A north and south pole that God put in deep freeze. God carved rivers and brooks, mountains and caves, Made beaches with sand and huge crashing waves. God made tropics and plateaus, glaciers and meadows, marshes and tundras and erupting volcanos.

The Language of God National Geographic Books

Taking Johannes Kepler as his guide, Gingerich argues that an individual can be both a creative scientist and a believer in divine design--that indeed the very motivation for scientific research can derive from a desire to trace God's handiwork.

[In the Beginning God Created the Heavens... The Stars](#) Beacon Press

The title of the book, *This Is God's Planet*, came about because of what ignorant people were saying about the origin of the earth and the origin of man. It has too much impact on young children. I felt the leadership of the Lord to write the book. At the beginning of my relationship with God, he spoke to me with an oral voice: "Water is the balance of all nature." I have pursued the total truth of these words for twenty-five years. It is not over yet.
