Former AMA racing champion Reg Pridmore, known worldwide for his popular CLASS Motorcycle Schools, brings his decades of experience on the track, street and classroom, to the readers of

this new riding skills book. After reviewing the basics, Pridmore shows advance students how to focus on control in cornering, braking, and acceleration. A long-time proponent of the value of body-steering, Pridmore's insightful text explains how this controversial technique helped him win championships and how it can help everyday riders and budding racers become smoother, better riders. Sections on street strategies and riding gear make this a comprehensive how-to riding skills book for anyone looking to improve their skills. They did it to show the US military that they were very capable motorcyclists after they*

were denied to be motorcycle messengers in WW1. Their names were Adeline and Augusta Van Buren. 100 years later the Sister Centennial Ride took 100 women across america following a similar route New York to San Francisco. This book is in celebration of those riders, the Van Buren sisters, and 100 years of women motorcycle adventurers.

Life has gotten a bit boring for Zuria Johnston, and with the exception of her Friday nights out with her best, flamboyant friend, Chase, and her job as a guidance counselor, she seems to have hit a rut. After a rough break-up with her longtime boyfriend, Manuel, her prospects of finding a man also seem pretty bleak. That is, until she connects

with her poetic crush, Amir, and he opens her eyes to a world of romance and passion that she didn't know existed. She discovers what it feels like to be loved as a real woman should, and to overcome the difficulties of being a young, strong, black woman who is afraid to have her heart broken for a second time. The thrill of new romance seems to fill the emptiness in her life, but her old life

isn't as easy
to escape as
she first
thought.
Mistakes that
she thought
she had left
behind
threaten to
undo
everything
that she has
begun to build
in this new
chapter of her
life, but she
isn't the only
one battling
the demons of
her past. The
poetic and
passionate
Amir harbors
some dark
secrets of his
own, and
when the truth
begins to
come out, the
connection
between her
two lovers, old
and new, may
end her short
reign of
happiness
before it ever
fully begun.
With love from
one man and
sworn
vengeance
from another,
Zuria is
trapped in the
middle, trying
desperately to
make her way
through the
tangled
troubles of
family, love,
and
happiness.
The problem
is, she might
lose more
than the man
of her dreams.
As this
complex and
spellbinding
story reaches
its peak, Zuria
will have to
risk mind,
body, and soul
for herself and
the people she
loves, but will
that final risk
mean
achieving the
life she'd
always
dreamed of?
Or will she
end up
making the
ultimate
sacrifice?

A motorcycle's
electrical
system can be

daunting to even the most adept home mechanic. And yet, the more complex these systems become—and the more important to a motorcycle’s function—the more useful, even critical, it will be to know something about them. That’s where this book comes in with a user-friendly guide to understanding , diagnosing, and fixing the electrical systems and components that make a bike run . . . or falter. Veteran technician Tracy Martin explains the principles behind motorcycle electrical systems and how they work. He details the various tools, such as multimeters and test lights, that can be used to evaluate and troubleshoot any vehicle's electrical problem. And in several hands-on projects, he takes readers on a guided tour of their vehicle’s electrical system, along the way giving clear, step-by-step instructions for diagnosing specific problems.

Sisters' Centennial Motorcycle Ride

83 Press In Modern Paper Crafts, well-known origami guru Margaret Van Sicklen blows the dust off traditional origami and paper crafting, presenting more than 20 projects that rely on classic paper craft techniques, but are suited to 21st-century style and

aesthetics. The suite of contemporary projects in Modern Paper Crafts ranges from gift wrap, holiday ornaments, and note cards to frames, boxes, bowls, silhouettes, wall art, mobiles, and even a folding screen. Projects are divided into five chapters: folding, cutting, scoring and sculpting, pleating, and recycling. Each chapter begins with an overview and step-by-step

photo tutorials of basic techniques, and each project includes step-by-step instructions and illustrations. A variety of papers are used for the projects, from standard cardstock and scrapbooking paper to art papers and recycled corrugated cardboard. All of the projects are accessible to the novice paper crafter but will also appeal to the more advanced crafter.
