 In the line of fire... OPERATION SHADOW
 WARRIORS An ongoing U.S. military
 experiment to test the integration of
 trained female military operatives in live
 combat scenarios... The Alpha Platoon. A
 unit of Navy SEALs stationed in the
 unforgiving dryness of Afghanistan...who
 just learned that their newest team
 member is a woman. But Bay Thorn has a
 spine of steel—and the chops to prove it.
 Without a team to back her up, however,
 she's dead in the water. And her only ally
 is Gabe Griffin, a lone SEAL who is lethal,
 dangerous and unbearably attractive....
 Between the open hostility from her team
 and the harsh al Qaeda territory, Gabe is a

lifeline for Bay. But mutual respect quickly
 grows into mutual attraction. And with
 each day and every assignment, the
 longing only deepens. They mustn't speak
 of it. Mustn't act on it. Because in this line
 of work, falling in love can get you killed....

 Regional dynamics and federalism lie at
 the heart of Canadian politics. In *Open
 Federalism Revisited*, James Farney, Julie
 M. Simmons, and a diverse group of
 contributors examine the legacy of Prime
 Minister Stephen Harper in areas of public
 policy, political institutions, and cultural
 and economic development. This volume
 examines how these areas significantly
 affected the balance between shared rule
 and self-rule in Canada's federation and
 how broader changes in the balance
 between the country's regions affected
 institutional arrangements. *Open
 Federalism Revisited* engages with four
 questions: 1) Did the Harper government
 succeed in changing Canadian federalism
 in the way his initial promise of open

federalism suggests he wanted to? 2) How big was the difference between the change Harper's government envisioned and what it actually achieved? 3) Was the Harper government's approach substantially different from that of previous governments? and 4) Given that Harper's legacy is one of mostly incremental change, why was his ability to change the system so relatively minor? With attention to such topics as political culture, the role of political parties in regional integration, immigration policy, environmental policy, and health care, *Open Federalism Revisited* evaluates exactly how much changed under a prime minister who came into office with a clear desire to steer Canada back towards an older vision of federalism.

Highways and Agricultural Engineering, Current Literature ReadHowYouWant.com New York, Los Angeles, and Washington, D.C., have been abandoned. The Bill of Rights has been revoked, and replaced with the Moral Statutes. There are no more police—instead, there are soldiers. There are no more fines for bad behavior—instead, there are arrests, trials, and maybe worse. People who get arrested usually don't come back. Seventeen-year-old Ember Miller is old enough to remember that things weren't always this way. Living with her rebellious single mother, it's hard for her to forget that people weren't always arrested for reading the wrong books or staying out after dark. It's hard to forget that life in the United States used to be different. Ember has perfected the art of keeping a low profile. She knows how to get the things she needs, like food stamps and hand-me-down clothes, and how to pass the random home inspections by the military. Her life is as close to peaceful as circumstances allow. That is, until her mother is arrested for noncompliance with Article 5 of the Moral Statutes. And one of the arresting officers is none other than Chase Jennings...the only boy Ember has ever loved. Recipient of the 2005 Governor General's Literary Award in non-fiction, *Quand la nation débordait les frontières* is considered the most comprehensive analysis of Lionel Groulx's work and vision as an intellectual leader of a nationalist school that extended well beyond the borders of Québec. For over five decades, historians and intellectuals have defined the nationalist discourse primarily in

territorial terms. In this regard, Groulx has been portrayed—more often than not—as the architect of Québécois nationalism. Translated by Ferdinanda Van Gennip, *A Nation Beyond Borders* will continue to spark debate on Groulx's description of the parameters of the French-Canadian nation. Highlighting the often neglected role of French-Canadian minorities in his thought, this book presents the Canon as an uncompromising advocate of solidarity between all French-Canadian communities.

The way we plan and build cities in Australia needs to change. Australia's population is growing: between 2017 and 2046 it is projected to increase by 11.8 million, the equivalent of adding a city the size of Canberra each year for thirty years. Most of this growth will occur in the major cities, and already its effects are being felt: inner-city property prices are skyrocketing and the more affordable middle and outer suburbs lack essential services and infrastructure. The result is inequality: while wealthy inner-city dwellers enjoy access to government-subsidised services - public transport, cultural and sporting facilities - new home buyers, pushed further out, pay the lion's share of the costs. So how can we create affordable housing for everyone and still get them to work in the morning? What does sustainable urban development look like? In this timely critique of our nation's urban development and planning culture, Peter Seamer argues that vested interests often distort rational thinking on our cities. Looking to the future, he sets out cogent new strategies to resolve congestion, transport and expenditure problems, offering a blueprint for multi-centred Australian cities that are more localised, urban and equitable in nature.

How much abuse can the human spirit take before it either breaks free or simply breaks? *Breaking Point*, the fourth book in the *Threefold Cord* series, continues to explore this question and tells the story of the damage done to children raised in abusive cults. Twins Kevin and Robert and their younger brother Jonah had previously found permanent sanctuary as adopted sons in the loving home of the Adamson family. Danny and Matthew, two ten-year-old child refugees from an abusive

fundamentalist sect, are recent additions to the family, and they have to deal with a number of issues related to their troubled past. Some of the more fanatical adherents of that particular sect, the Philadelphia Brethren, are furious with the Adamson family, especially Danny and Matthew, for speaking out against their church and influencing some of their members to leave. Now they seek revenge. Not only that, Matthew's girlfriend, eleven-year-old Melissa, is still trapped in the cult. After having to endure years of abuse from both her deranged parents and the church, Melissa is nearing her breaking point. She can't take much more. The boys and their adoptive parents search for ways to help Melissa, and a tense situation escalates further after the church holds "that troublesome Adamson family" responsible for even more defections from their congregation. The family is in danger, and soon the life of one young Adamson will hang in the balance. Set in the early 1960s in rural Saskatchewan, *Breaking Point* is not only an insightful look into the damage that can be caused by extreme religious cults. It is also a celebration of the power of an accepting and loving family and a nostalgic look at experiencing adolescence and young love in simpler times.

Discover a renewed biblical vision for sex, singleness, and relationships, and transform into an empowered woman of faith equipped to navigate today's dating culture with vision, clarity, and freedom. Let's face it: being single in today's culture as a woman of faith can be a STRUGGLE FEST. But it doesn't have to be. With real talk and straight wisdom, speaker, podcaster, and founder of *The Refined Woman* Kat Harris says it's time for a new conversation about singleness, sex, and desire. Growing up at the height of the purity movement, Kat knew this much: good Christians don't have sex until marriage. But approaching 30 and thrust into the New York City dating scene, she found a set of rules was not a compelling enough reason to keep her clothes on. Caught between purity culture's rules and popular culture's do what feels good, Kat began a multi-year journey searching for answers to the biggest questions about sexuality and faith: What does the Bible really say about sex? Why does almost everyone deal with some sort of sexual shame? But really--what's a single girl to do with her sexual desire? What if we never get married . . . then what? It turns out Kat was asking questions that countless women were dying to ask but

didn't know they had the permission to do so. Hungry for clarity, she researched, wrestled, and discovered a God who wasn't afraid or ashamed of sex and desire as she thought He might be. In actuality, God created sex and desire within humanity and called it very good. Now she believes God desires to restore a generation disillusioned with purity culture and Christian dating, discouraged about their singleness, ashamed of their sexual desire, and uncertain how to practically walk this season out well. Join Kat on her messy, sometimes painful, and always honest journey to discovering God's heart for sexuality, desire, singleness, and our purpose within it all.

She heard his footsteps as he came up the hall, and wondered why he was back so soon. He walked into the room, over to the bed, dropped onto it with a deep groan and said, "I can sleep now. I've just killed Paul." A small town in mid-America is shocked when its most successful merchant commits murder. His daughter tells her father's story as she lived it at age thirteen. *Breaking Point* is a brief story of three generations of one family. It concerns an Irish immigrant great-grandfather and how his influence spread down through the generations into the lives of his grandsons: one the obedient grandson, one the alcoholic. The pressure between them, the weaker against the stronger, grew until all rationalization failed, thus, the breaking point. What will the verdict be?

Location-based Marketing outlines the main concepts, methods and strategies for implementing spatial marketing, also known as geomarketing. With an emphasis on the value of mapping in marketing decision-making, this book demonstrates the importance of a more spatialized view of these decisions, in order to best respond to market realities - whether local or international. The main techniques of geomarketing are presented along with an understanding of the spatial behavior of consumers, both outside the point of sale and in stores. The book further introduces

the idea of a "geomarketing mix", which spatializes product innovations, merchandising, pricing and various aspects of promotion. Finally, the book defines what real georetailing comprises and develops the concept of mobile marketing based on geolocation techniques.

The inside story of decades of government interference in the work of our national public broadcaster, CBC/Radio-Canada. Is there a quiet campaign to hamstring and silence the CBC? In *Losing Our Voice* Alain Saulnier, long-time head of news and public affairs at Radio-Canada, documents the decades of political interference that have jeopardized the very existence of one of Canada's most important cultural

institutions. For French-speaking Canadians, with limited options in their own language, the national broadcaster is all the more important. But tensions surrounding national unity and identity have exacerbated the tendency of federal politicians to meddle in CBC/Radio-Canada's content and management. Saulnier takes us behind the scenes as these tensions play out, and culminate in the punitive Harper budget cuts.

In the last two years, Canadian society has been marked by political and ideological turmoil. How does an increasingly divided country engage a world that is itself divided and tumultuous? Political instability has been reinforced by international uncertainty: the COVID-19 pandemic, populism, Black Lives Matter, and the chaotic final year of the Trump presidency that increased tensions between the West, China and Russia. Even with a Biden presidency, these issues will continue to influence Canada's domestic situation and its ability to engage as an effective global actor. Contributors explore issues that cause or reflect these tensions, such as Canada's willingness to address pressing crises through multilateralism, including the COVID-19 pandemic. Can Canada forge its own path in a turbulent world?
