Whether offering up the lighter side of an emergency room trip or taking a few jolly jabs at the task of sewing, humorist Dorothy Monroe is just the antidote for all of us who are familiar with life's many little catastrophes. *Cobwebs on the Chandelier* serves up a collection of 37 essays that span a fifty-year marriage, each finding the frequently hidden laugh in dealing with mute teenagers, escalating home repair bills, never-ending science fairs, and more than one fender bender. Was it getting married on April Fools' Day that set the tone for a family life infused with plenty of mishaps and just as much mirth? With droll wit and warm heart, this canny, clear-eyed writer pens and sends up, a life endured, survived—and, above all, enjoyed. *Cobwebs on the Chandelier* will delight readers with its wry recollections of an action-packed family life with four kids, a procession of pets, and a series of misadventures that are likely to plague anyone charged with juggling roles as household mechanic, resident psychologist, weather forecaster, construction foreman, dispute resolution mediator, and more. A family train trip turns into a sick bed on wheels. A last minute attempt to clean a chandelier for a dinner party puts the hostess under the table before the party begins. A preachy attitude toward a teenaged son's driving comes crashing down on the writer's own driving confidence. As Monroe relives decades of household hijinks, battles with the elements, and more, her comic relief comes to the rescue for her husband, her four children, and her. There is no situation that Monroe can't get a rise out of. Throughout, this modern-day Erma Bombeck shares a host of revelations that always ring true, while they frequently coax an irrepressible grin. For example, a bird on the wing is worth two in the cage, and the time it takes to assemble a do-it-yourself project can be divined by the size of the instruction page. Engaging, uplifting, and teeming with good fun, essays, covering a fifty-year-span, not only depict the funny side of life, they also affirm the essential goodness of marriage and family. All in all, *Cobwebs on the Chandelier* offers side-splitting proof that anything that does not kill you, just might make you chuckle. It's certain to resonate and tickle anyone who has slogged through a pile of laundry or two, yet still adores her family.

The 2020 Lithium-Ion Battery Guide: The Easy DIY Guide To Building Your Own Battery Packs Brandt Tobler

This is true story about real people is set in Edinburgh City and Dundee, where a petite Scottish Lassie called Rosie Gilmour, mother to Finlay Sinclair, receives news of the death of her son - who tragically has taken his own life by hanging. Rosie pretends her son is still alive by talking to him, for that takes away the unbearable pain of her loss. But once she begins to face up to the fact that Finlay is not coming back, her conversations become more of a challenge than she can handle. When memories of her past are triggered by everyday life events, they take her mind back and forth in time - back to her own childhood days in 1960, when she flirted with the fairground boys, and to the day she gave birth to Finlay - "ME LADDIE". Rosie's Scottish accent becomes more apparent whenever her emotions are heightened and she begins to recite poetry. She goes on to reveal doubts about her own self-worth and how she re-unites her role as mother - a role she had denied herself for seven years prior to Finlay's death. Rosie learns how to forgive herself and how to accept her loss with using practical coping strategies that sometimes but not always work for her. Many voices of different natures and walks of life appear in Rosie's, story with each one offering a part of their own belief to try and console her in her misery - except that she turns her back on any advice or support offered. Rosie is convinced that she can cope with her loss on her own and "needs no help from anyone, thank you"; - until a sweet, gentle, soft-spoken voice begins to travel with her throughout her ordeal, leaving her no other choice but to listen. Eventually moving to the countryside in Angus, Rosie finds the isolation gives her life a new meaning offering her the opportunity to re-value her beliefs about her own self values and decides the time has come to give her son a memorial service and invite a chosen few dance companions whom she met on a regular basis in Edinburgh to honour this day. Rosie begins to accept she will never be the same person she once had been and shall never be again, believing now her journey through grief taught her many lessons making her a stronger and better person than she imagined she could ever be.
