Fox Chapel Publishing Presents information about basic garment construction, using patterns, and instructions on how to create basic clothes such as shirts, skirts, and blouses. *Garment Construction* Routledge The definitive career guide for grad students, adjuncts, post-docs and anyone else eager to get tenure or turn their Ph.D. into their ideal job Each year tens of thousands of

students will, after years of hard work and enormous amounts of money, earn their Ph.D. And each year only a small percentage of them will land a job that justifies and rewards their investment. For every comfortably tenured professor or well-paid former academic, there are countless underpaid and overworked adjuncts, and many more who simply give up in frustration. Those who do

make it share an important asset that separates them from the pack: they have a plan. They understand exactly what they need to do to set themselves up for success. They know what really moves the needle in academic job searches, how to avoid the all-too-common mistakes that sink so many of their peers, and how to decide when to point their Ph.D. toward other, non-academic

options. Karen Kelsky has made it her mission to help readers join the select few who get the most out of their Ph.D. As a former tenured professor and department head who oversaw numerous academic job searches, she knows from experience exactly what gets an academic applicant a job. And as the creator of the popular and widely respected advice site The Professor is In, she has

helped  
countless  
Ph.D.'s turn

applicants and

*The Palmer Pletsch Complete Guide to Fitting Fox Chapel Publishing* Draping—the art of using cotton muslin to create womenswear directly on a dress form—is an essential skill for fashion designers. Through a series of step-by-step projects, designed to develop skills from the most basic to more advanced techniques, this book will guide you in creating both classic and contemporary garments, as well as historical styles and costumes. Draping projects include dresses, bustiers, and jackets, and highlight key fashion garments such as Audrey Hepburn's dress from *Breakfast at Tiffany's* and the Dolce & Gabbana tuxedo jacket. Starting with the basics of choosing and preparing the dress form for draping, the book advances through pinning, trimming, and clipping, and creating shape using darts and tucks, to adding volume using pleats and gathers, and handling complex curves. Advanced skills include how to use support elements such as shoulder pads, under layers, and petticoats, and how to handle bias draping. The book culminates with a chapter on improvisationa

I skills. Each skill and technique throughout the book is explained with step-by-step photographs and line drawings that bring the art of creating womenswear in three dimensions to life.
