TESSA SWANSON

[African Immigrant Traders in Inner City Johannesburg](#) University Press of America

This book contests the negative portrayal of African immigrants as people who are not valuable members of South African society. They are often perceived as a threat to South Africa and its patrimony, accused of committing crime, taking jobs and competing for resources with South African citizens. Unique in its deployment of a deconstructionist theoretical and analytical framework, this work argues that this is a simplistic portrayal of a complex reality. Innocent Moyo lays bare, not only the failings of an exclusivist narrative of belonging, but also a complex social reality around migration and immigration politics, belonging and exclusion in contemporary South Africa. Over seven chapters he introduces new perspectives on the negative portrayal of African immigrants and argues that to sustain a negative view of them as the 'threatening other' ignores complex people-place-space dynamics. For these reasons, the analytical, empirical and theoretical value of the project is that it broadens the study of migration related contexts in a South African setting. Academics, students, policy makers and activists focusing on the migration and immigration debate will find this book invaluable.

Compendium of documents relating to regional and sub-regional peace and security in Africa (second edition) (2021) Pretoria University Law Press

[Compendium of Key Documents Relating to Peace and Security in Africa](#) Oxford University Press

The humanitarian crises caused by civil conflicts and wars in Africa are too great in scope for an adequate and effective continental response. The founding of the African Union and the drafting of the Responsibility to Protect doctrine, the basis for collective action against genocide, ethnic cleansing and crimes against humanity makes this a critical time to reflect on how best to address regional conflicts. This book responds to new regional conflicts over health, water, land and food security in the world's poorest, most socially fragmented continent. The work assesses African regional security arrangements and provides new policy recommendations for the future.

Africa Edizioni Nuova Cultura

African Stability and Integration is a practical and meaningful analysis of the ways to bring Africans together in order to pursue growth and development on the continent of Africa. By combining vivid examination of past and contemporary uniting efforts of continental and diasporic Africans, Agyemang Attah-Poku stresses unity and its resultant stability as the most important goal for Africa to function as a constructive, harmonic society. Attah-Poku investigates the past activities and ideas of Pan-Africanism, relates Pan-Africanism to contemporary time, and makes suggestions, recommendations, and proposals for the immediate and future stability, growth, and development of Africa. A timely work, *African Stability and Integration* will be of great interest to students and professors of history, economics, politics, international relations, and cross-cultural studies.

Addressing Regional Peace and Conflict in the 21st Century Springer

Terrorism: Documents of International and Local Control is a hardbound series that provides primary-source documents on the worldwide counter-terrorism effort. Chief among the documents collected are transcripts of Congressional testimony, reports by such federal government bodies as the Congressional Research Service and the Government Accountability Office, and case law covering issues related to terrorism. Most volumes carry a single theme, and inside each volume the documents appear within topic-based categories. The series also includes a subject index and other indices that guide the user through this complex area of the law. Volume 86 constitutes the inaugural edition of the enhanced version of *Terrorism: 1st Series*. With this new volume, Oxford Law introduces the expert commentary and editing of Professor Douglas C. Lovelace, Director of the Strategic Studies Institute at the Army War College. Professor Lovelace's high-ranking experience

in authoring national securities directives makes him the perfect addition to this *Terrorism* project. Lovelace's expansive background offers readers access to invaluable commentary which has been sensibly organized to aid research. Volume 86 explores the large body of national security and military strategies currently in effect for the U.S. The topical organization of these "National Strategies" and the expert introductions provided for these documents, validates Lovelace's expertise in this area as well as his extensive inside knowledge of U.S. security policy. For readers and researchers in need of a thorough but concise guide to current government plans in the war on terror, Volume 86 will prove indispensable.

Compendium of documents relating to regional and sub-regional peace and security in Africa (second edition) (2021) Routledge

Violent conflicts today are complex and increasingly protracted, involving more nonstate groups and regional and international actors. It is estimated that by 2030—the horizon set by the international community for achieving the Sustainable Development Goals—more than half of the world's poor will be living in countries affected by high levels of violence. Information and communication technology, population movements, and climate change are also creating shared risks that must be managed at both national and international levels. *Pathways for Peace* is a joint United Nations* World Bank Group study that originates from the conviction that the international community's attention must urgently be refocused on prevention. A scaled-up system for preventive action would save between US\$5 billion and US\$70 billion per year, which could be reinvested in reducing poverty and improving the well-being of populations. The study aims to improve the way in which domestic development processes interact with security, diplomacy, mediation, and other efforts to prevent conflicts from becoming violent. It stresses the importance of grievances related to exclusion—from access to power, natural resources, security and justice, for example—that are at the root of many violent conflicts today. Based on a review of cases in which prevention has been successful, the study makes recommendations for countries facing emerging risks of violent conflict as well as for the international community. Development policies and programs must be a core part of preventive efforts; when risks are high or building up, inclusive solutions through dialogue, adapted macroeconomic policies, institutional reform, and redistributive policies are required. Inclusion is key, and preventive action needs to adopt a more people-centered approach that includes mainstreaming citizen engagement. Enhancing the participation of women and youth in decision making is fundamental to sustaining peace, as well as long-term policies to address the aspirations of women and young people.

Terrorism: Documents Springer

Nowhere in the world is the demand for peace more prominent and challenging than in Africa. From state collapse and anarchy in Somalia to protracted wars and rampant corruption in the Congo; from bloody civil wars and extreme poverty in Sierra Leone to humanitarian crisis and authoritarianism in Sudan, the continent is the focus of growing political and media attention. This book presents the first comprehensive overview of conflict and peace across the continent. Bringing together a range of leading academics from Africa and beyond, *Peace and Conflict in Africa* is an ideal introduction to key themes of conflict resolution, peacebuilding, security and development. The book's stress on the importance of indigenous Africa approaches to creating peace makes it an innovative and exciting intervention in the field.

The Emergence of a Holistic Approach in International Affairs. Bloomsbury Publishing
 Africa is experiencing one of the greatest transformations of its history. Today's Sub-Saharan Africa is still marked by enduring instability, mass migrations and crises, but at the same time it is also characterised by positive developments including economic growth and regional integration. This publication sheds light on these changes from three perspectives: economic policies and sustainable development; good governance and democracy; peace and security. Research in relevant regions in Sub-Saharan Africa and key countries (Ethiopia, Mozambique, Nigeria and South Africa) has been

conducted by African and European experts with the aim of assessing the role of the private sector and determining the partnership opportunities that could potentially be developed with the public sector. A series of policy recommendations are offered to the European Union on how to tackle these opportunities in cooperation with old and new actors.

Promoting Norms, Institutionalizing Solutions Pretoria University Law Press

This book analyses how the complementarity regime of the ICC's Rome Statute can be implemented in member states, specifically focusing on African states and Nigeria. Complementarity is the principle that outlines the primacy of national courts to prosecute a defendant unless a state is 'unwilling' or 'genuinely unable to act', assuming the crime is of a 'sufficient gravity' for the International Criminal Court (ICC). It is stipulated in the Rome Statute without a clear and comprehensive framework for how states can implement it. The book proposes such a framework and argues that a mutually inclusive interpretation and application of complementarity would increase domestic prosecutions and reduce self-referrals to the ICC. African states need to have an appropriate legal framework in place, implementing legislation and institutional capacity as well as credible judiciaries to investigate and prosecute international crimes. The mutually inclusive interpretation of the principle of complementarity would entail the ICC providing assistance to states in instituting this framework while being available to fill the gaps until such time as these states meet a defined threshold of institutional preparedness sufficient to acquire domestic prosecution. The minimum complementarity threshold includes proscribing the Rome Statute crimes in domestic criminal law and ensuring the institutional preparedness to conduct complementarity-based prosecution of international crimes. Furthermore, it assists the ICC in ensuring consistency in its interpretation of complementarity.

Compendium of documents relating to regional and sub-regional peace and security in Africa (second edition) (2021)

This volume offers an informed and critical analysis of the operationalization and institutionalization of the peace and security architecture by the African Union and Africa's Regional Economic Communities (RECs). It examines the institutions that will carry the mandate forward, raises pertinent research questions for the successful operationalization of the architecture and debates the medium and long-term challenges to implementation.

An Inquiry Into the Legality of Power Sharing with Warlords, Rebels, and Junta World Bank Publications

This volume examines democracy and elections in Africa, taking stock of the state of constitutional democracy on the continent after the democratic gains of the 1990s and 2000s, focusing on how competitive politics or multiparty democracy can be realized and how, through competition, such politics could lead to better policy and practice outcomes.

Conflict Resolution in Africa: The Case of the Organisation of African Unity (OAU) Manchester University Press

This book investigates how changing norms of sovereignty may promote better governance in Africa. It begins by tracing the evolution of the concept of sovereignty and how, in the post-Cold War era, sovereignty has been redefined to emphasize the responsibility of the state to manage conflict and protect human rights. African Reckoning includes assessments of how state actors in Africa measure up to the norms inherent in the notion of sovereignty as responsibility. The book also examines the question of accountability at the regional and international levels. The authors conclude that since the power of oppressed people to hold their governments accountable is very limited, the international community has a responsibility to provide victims of internal conflict and gross violations of human rights with essential protection and assistance. Accordingly, the book expounds on the normative principles of responsible sovereignty, international mechanisms and strategies for their enforcement, and empirical evidence about the performance of governments as measured by the requirements of responsible sovereignty. Contributors include Richard Falk, Abdullahi Ahmed An-Na'im, James Rosenau, Goran Hyden, Michael Chege, and John D. Steinbruner. *Historic Documents of 2013 Policy Dialogue*

About the publication This Compendium of documents relating to regional and sub-regional peace and security in Africa is the second edition to the 2006 Compendium of key documents related to peace and security in Africa (edited by Dr Monica Juma). It is both an updated and expanded attempt at consolidating the vast legal instruments broadly relating to peace and security on the African continent. More specifically, the Compendium aims to consolidate, both on the regional and sub-regional level, treaties and decisions of regional organisations pertaining to conflict prevention, management and resolution in the African regional and sub-regional context. It ultimately aims to serve as a useful research guide to those involved with matters of peace and security in Africa. Documents and legal instruments included in this Compendium focus on the Organisation of African Unity, the African Union, and its eight Regional Economic Communities: the Arab Maghreb Union (AMU), the Common Market for Eastern and Southern Africa (COMESA), the Community of Sahel-Saharan States (CEN-SAD), the East African Community (EAC), the Economic Community of Central African States (ECCAS), the Economic Community of West African States (ECOWAS), the Intergovernmental Authority on Development (IGAD), and the Southern African Development Community (SADC). This edition also includes additional documents from sub-regional organisations, including documents from the Great Lakes Region and Horn of Africa Conference on the Proliferation of Small Arms and Light Weapons, the Gulf of Guinea Commission, the Central African Economic and Monetary Community, the Eastern Africa Standby Force, the G5 Sahel, the Indian Ocean

Commission, and the Mano River Union. Additionally, each chapter outlines the organisation in question, its principal institutions relating to peace and security, relevant documents and legal instruments, and listed topical decisions, declarations and communiqués by that organisation and its institutions. It also briefly puts forward the details of any military interventions or peacekeeping missions undertaken by each organisation. Finally, the Compendium's indexes include a list of peace and ceasefire agreements (listed by country), chart of ratifications, a list of useful websites and a selected bibliography.

Demilitarisation and Peace-Building in Southern Africa Brill Nijhoff

"This Compendium contains key documents relating to human rights adopted by the African Union (including NEPAD) and its predecessor, the Organization of African Unity. It also includes a selection of decisions and resolutions of the African Commission on Human and People's Rights. For the third edition of the Compendium has been updated to May 2007"--Back cover.

Democracy, Elections, and Constitutionalism in Africa Zed Books Ltd.

Experience and research have long shown an intrinsic link between human rights, conflict and development. This interdependence between different areas, doctrines, and disciplines calls for a genuinely coherent, holistic approach in International Affairs. With the challenges the work for the protection and respect of humanity encounters, this book intends to bring together articles and ideas that indicate the complexity of such an endeavor. The chapters, written by academics and practitioners encompass snapshots of crucial development lines as well as conceptual ideas and frameworks. In doing so the book provides insight to the principal understanding that peace efforts, encapsulating human rights, conflict management and development, can only be sustained and flourish as long as conflicting parties have at least a minimal consensus and will to settle their differences peacefully. As a Liber Amicorum for Joseph Voyame the book honors the determination for humanity and respect for human dignity and peaceful mitigation of conflict which marked his life and work.

The Department of State Bulletin McGill-Queen's Press - MQUP

This volume examines the legal and political efficacy of transitional political power-sharing between democratically constituted governments and the African warlords, rebels, or junta that seek to violently unseat them. This book addresses this issue and others through the prism of three West African case studies: Liberia, Sierra Leone, and Guinea-Bissau.

Community of Insecurity Brookings Institution Press

Exploring the formation, evolution and effectiveness of the regional security arrangements of the Southern African Development Community (SADC), Nathan examines a number of vital and troubling questions: * why has SADC struggled to establish a viable security regime? * why has it been unable to engage in successful peacemaking?, and * why has it defied the optimistic prognosis in the early 1990s that it would build a security community in Southern Africa? He argues that the answers to these questions lie in the absence of common values among member states, the weakness of these states and their unwillingness to surrender sovereignty to the regional organization. Paradoxically, the challenge of building a co-operative security regime lies more at the national level than at the regional level. The author's perspective is based on a unique mix of insider access, analytical rigour and accessible theory.

Illegal Peace in Africa Routledge

The debates over what African economic integration and development actually entails continue across international economic organizations, national governments and NGOs. Despite the glare of media attention and the position this issue has on international political agendas, few comprehensive accounts exist that fully examine why this process will be inevitable in the 21st century and how integration of national economies can be attuned to attaining the socio-economic goals and aspirations of member-countries. This book addresses this problem. It combines theory with application, enumerating the imperatives and initiatives governments will be forced to confront; providing insights for educators and students in African development, for policy makers in African governments, and for inter-governmental organizations.

The Complementarity Regime of the International Criminal Court Institute for Strategic Studies University of Pretoria

Facing threats ranging from Islamist insurgencies to the Ebola pandemic, African regional actors are playing an increasingly vital role in safeguarding peace and stability across the continent. But while the African Union has demonstrated its ability to deploy forces on short notice and in difficult circumstances, the challenges posed by increasingly complex conflict zones have revealed a widening divide between the theory and practice of peacekeeping. With the AU's African Standby Force becoming fully operational in 2016, this timely and much-needed work argues that responding to these challenges will require a new and distinctively African model of peacekeeping, as well as a radical revision of the current African security framework. The first book to provide a comprehensive overview and analysis of African peace operations, *The Future of African Peace Operations* gives a long overdue assessment of the ways in which peacekeeping on the continent has evolved over the past decade. It will be a vital resource for policy makers, researchers and all those seeking solutions and insights into the immense security challenges which Africa is facing today.

The Future of African Peace Operations Bloomsbury Publishing

This comprehensive volume provides a ready reference to often hard-to-find documents and statutes for scholars, researchers, and policy makers working on issues involving the people and nations of Africa. Published under the Transnational Publishers imprint.
