Leadership, God's Agency, and Disruptions Elevate Publishing

This book argues that ethical leadership without a theological foundation is lacking a firm foundation. It begins with a critical assessment of ethical leadership as a leadership theory, showing how ethics and theology became separated, creating the space for ethical leadership outside of theology. Nevertheless, the author argues that ethical leadership without a biblical basis is weak, though one need not be religious to embrace the leadership principles of biblical theology. Unfolding Christology, anthropology, eschatology, and contextualized leadership as four key aspects of biblical theology for ethical leadership, this book will appeal to those studying leadership, business, innovation, and entrepreneurship.

Scholarly studies consider Paul's views on leadership tend to fall into one of three camps: 1) the historical development view, which in large measure identifies developments in church practice with developments in Pauline and deutero-Pauline ecclesiology; 2) the synchronic, historical reconstruction, typically making use of Graeco-Roman, social context sources, or social-scientific modelling, focusing on a single congregation, and sometimes distinguishing between the situation to which Paul was responding and the pattern he sought to impose; and 3) the theological/hermeneutical analysis, identifying Paul's particular approach to power and authority, often independently of any detailed reconstruction of the situations to which

Paul was responding. Andrew Clarke has explored in an earlier work, *Serve the Community of the Church* (Eerdmans, 2000), the distinctive, local and historical situations in the various Pauline communities and concluded that there is no evidence that they organised themselves according to a common set of governmental structures which clearly developed with the passage of time. Rather each community was influenced by its own localized, social and cultural context. The present project builds on this, and necessarily focuses on leadership style rather than church order. It seeks to recover from Paul's critical responses, his generic ethos of church leadership, including the ideal qualities, characteristics and task of leaders and the nature of appropriate interaction and engagement with church members. In the light of current, theoretical discussions about power and gender, the study focuses particularly on Paul's attitude towards hierarchy, egalitarianism, authority, responsibility and privilege.

Biblical Leadership takes the best of evangelical scholarship to make the leadership lessons of Scripture tangible for today's readers. All contributors are biblical scholars who not only think seriously about the texts covered in their individual chapters, but have committed their lives to teaching and living the truths therein. Every chapter analyzes the original setting of the writing, extrapolates the leadership principles in the text, and provides advice on applying that theology of leadership. Presented in everyday language understandable to both professionals and practitioners, these lessons will equip current and upcoming leaders to make a Christlike impact.

Change the Way You Think about Leadership At the age of thirty-three, Dr. Albert Mohler became the youngest president in the 164-year history of Southern Baptist Theological Seminary. He was the driving force behind the school's transformation into a thriving institution with an international reputation characterized by a passionate conviction for truth. In the process he became one of the most important and prominent Christian voices in contemporary culture. What will it take to transform your leadership? Effective leaders need more than administrative skills and vision. They need to be able to change the hearts and minds of those they lead. Leadership like this requires passionate beliefs that can stand up to pressure from without and within. In this updated edition Dr. Mohler has added a

new introduction and conclusion based on an additional 10 years of leadership. He has also completely rewritten the chapter "The Digital Leader." The Conviction to Lead will crystallize your convictions while revolutionizing your thinking, your decision-making, your communication, and ultimately, those you lead. "Dr. Al Mohler has written a book that shakes us up and challenges our thinking. The Conviction to Lead is poised to become one of the all-time classic works on Christian leadership."-- JIM DALY, President - Focus on the Family "Having rarely thought about leadership, I was hooked from the first chapter--to my complete surprise. This is a powerful book and gracefully written."-- FRED BARNES, Executive Editor--The Weekly Standard

The Five Phases of Leadership is a book written by a practitioner for practitioners. Organized around five stages of leadership - establishing trust, cultivating leaders, discerning vision, implementing plans and transitioning out - this book offers an overview of the leadership life cycle from a distinctively Christian perspective. Dr. Justyn Terry draws on over twenty years of leadership experience in seminaries and churches, to offer practical insight into a leader's role. Rather than focusing primarily on leadership styles or skills, this book demonstrates why those skills matter in context. By focusing on a leader's overall task, Dr. Terry offers a vision of leadership that draws together its disparate elements into a unified whole.

Biblical Theology for Ethical Leadership Abingdon Press

This book explores the concepts from Scripture for Servant leadership and compare these findings with contemporary models of servant leadership. It is an examination of Christian leadership for the contemporary world in its global and increasing secular context. Leadership studies typically view leadership externally from the results. This is a good beginning but leadership needs to also view the inside of leadership in the person of the leader. Scripture is uniquely qualified in this area since its first concern is the person who leads not just in leadership behaviors. The author uses examples from both the Old and New Testament to establish a new shepherd model of leadership that moves beyond the servant mode to the mode of caring direction. This model will provide scholars and researchers as well as leaders themselves with a way of leading that overcomes negative forms of leadership which lead to failure.

Stronger Than the Struggle Crossway
Leaders in congregations and Christian organizations wrestle with an unraveling of the world in which they have little experience and training. While they are offered unending resources by experts on leadership, some with claims to biblical blueprints, the challenges seem mismatched to those methods. Branson and Roxburgh frame the situation as one in which "modernity's wager"--the conviction that God is not necessary for life and wisdom and meaning--has defined the Western imagination. Because churches and leaders are colonized by this ethos, even when God

is named and beliefs are claimed, approaches to leadership are blind to God's agency. Branson and Roxburgh approach this challenge as a work in practical theology, attending to our cultural context, narratives of God's disruptive initiatives in Scripture, and a reshaping of leadership theories with a priority on God's agency. With years of experience as teachers, consultants, and guides, they name practices which lead to more faithful participation.

Leadership, God's Agency, and Disruption is wide-ranging in cultural and biblical scholarship, challenging in its engagement with numerous leadership studies, and practical with its focus toward the on-the-ground life of churches and organizations.

Ministry by the Book InterVarsity Press

This book examines the principles and procedures implemented by Moses for developing leaders. Using Exodus 18 as the basis, the author explores how leadership skills are best developed in small group settings. The author then delves into contemporary leadership principles, such as authentic leadership, and how organizations can develop leaders at every level of the organization. Issues such as accountability, ethics, and trust will be discussed at length, with an examination of the expected outcomes of training leaders at all levels. This book will be a valuable addition to the leadership literature in showing how biblical leadership principles can be used in contemporary organizations.

Biblical Servant Leadership Biblical Theology for the Church

Understanding Christian Leadership offers an examination of a distinctly Christian understanding of leadership offering a critical appraisal of insights from secular theories of leadership,

exploring biblical and other theological insights into the nature and practice of leadership. Whilst arguing for a form of leadership which is widely dispersed and collaborative, the book seeks to explain the distinctive role of leaders within such a leadership economy. It also seeks to establish a proper relationship between sacred and secular leadership thinking, tackling some of the common philosophical and theological reservations to do with leadership discourse, whilst offering a critical framework for discerning the suitability for the Church of different sources of leadership thinking. Designed as core reading for leadership modules currently taught by the author across a large number of training contexts in the UK, this book is an indispensable text for those taking undergraduate or postgraduate-level qualifications in Christian leadership as well as those in other less formal leadership training contexts. Foreword by Justin Welby, Archbishop of Canterbury

Christians love to celebrate grace, but often talk about it in vague generalities. But such an important biblical concept ought to be clearly defined so it can be consistently defended. In this book, best-selling author Kevin DeYoung points modern readers back to an old document originally written to do just that. Warmly pastoral and broadly accessible, this book introduces readers to the Canons of Dort, a 17th-century work summarizing the central doctrines of the Christian faith. Widely regarded as a key pillar of the Reformed tradition, the Canons of Dort stand as a faithful witness to God's grace—offering a depth of understanding that the church still needs today. In three concise sections—covering history, theology, and practical application—DeYoung explores what led to the Canons and why they were needed, the five important doctrines that they explain, and Dort's place in the Reformed tradition today. *Servants of the Servant* InterVarsity Press

Evangelicals stand divided in their view of women in the church. On one side stand complementarians, arguing the full worth of women but assigning them to differing roles. On the other side stand egalitarians, arguing that the full worth of women demands their equal treatment and access to leadership roles. Is there a way to mend the breach and build consensus? Sarah Sumner thinks there is. Avoiding the pitfalls of both radical feminism and reactionary conservatism, she traces a new path through the issues—biblical, theological, psychological and practical—to establish and affirm common ground. Arguing that men and women are both equal and

distinct, Sumner encourages us to find ways to honor and benefit from the leadership gifts of both. Men and Women in the Church is a book for all who want a fresh and hope-filled look at a persistent problem.
