World Impact's vision is clear and bold: to recruit, empower, and release urban leaders who will plant churches and launch indigenous church planting movements. We have established The Evangel School of Urban Church Planting to equip church planters to plant healthy churches among the city's poor. Through assessment, coaching, and consultation, we facilitate church plant teams to use biblical wisdom as they engage unreached urban neighborhoods, with the goal of planting churches where Christ will be honored, the Word of God preached, and justice and compassion demonstrated for all to see. This guidebook is the official text for the Dean Training course to help churches and ministries sponsor their own church plant training. Designed as a manual for deans who help steer urban church planters, this workbook provides a blueprint for the whys and wherefores of the entire process, from formation of the team to transitioning leadership of the newly planted church. On completion of their course and Dean Commissioning, Deans are then certified to host their own Evangel School sessions within their ministry context. This text is keyed to other valuable resources specifically designed for the Evangel Church Plant Schools in order to help urban church planters plant churches in the city (i.e., Ripe for Harvest: A Guidebook for Planting Healthy Churches in the City and Planting Churches among the City's Poor, Vols. 1 and 2). In addition, online videos,

PowerPoint presentations, and other supplemental resources developed for Evangel Church Plant Schools are available to help a church, organization, or ministry train teams to plant churches among the poor. Join us as we strive to plant thousands of healthy churches in communities where Christ is not yet known!

The Honest Guide to Church Planting Xulon Press

This book is a practical step-by-step guide for church planters and their coaches. It covers everything they need to know to start healthy, growing churches that are biblically faithful and yet culturally relevant. While addressing the who, why, and where of planting new congregations, this comprehensive manual focuses primarily on the "how-tos." The authors use a five-stage "life cycle" (conception, pre-natal development, birth/infancy, adolescent growth, and adult reproduction) to flesh out the entire process of starting and growing a new church. Under each of these stages, a host of essential ministry and planning tasks is addressed so the planter can keep his "baby" church on course and can have the joy of watching the new church grow to maturity and eventually reproduce itself.

Many have pontificated about church growth, telling church planters and pastors how to increase the number of attendees and members. Most have spoken authentically from inspiring experiences, and what they've recommended has worked . . . at least for some. But what about advice on how to reduce those numbers, how to empty those pews? This "manual" provides just that, and its suggestions don't emanate from an ivory tower; they, too,

are based on real-life experiences. The insights and guidelines of How to Empty a Church may be expressed tongue-in-cheek, but they're not fictional; they reflect the history of an actual congregation. Fasten your seatbelt; it's going to be a bumpy--but worthwhile--ride!

Christianity Today Book Award What does it take to be a church planter or other ministry entrepreneur? Most leaders start out with passion, a sense of calling, and a focus on building ministry skills. Such things might get some results, but they are not enough to sustain a healthy ministry—or a healthy life. Beyond the vocational capacities every church planter needs, there's a range of capabilities more difficult to measure but even more essential: what veteran church planter Tim Morey calls spiritual competencies. Morey provides here a practical guide to spiritual formation geared to the unique needs of church planters. He helps readers answer the questions, What are the spiritual capabilities that I as a church planter need to develop? How might I lean into the work Jesus is doing in these vital areas? Spiritual competencies have to do not just with behaviors but also with the motivations, agendas, and scripts that drive behaviors. Morey explores how church planters can become people who invest in their own physical, emotional, relational, and spiritual health accept limits and share responsibilities can be trusted with power are able to stay resilient and grow through difficulties can minister without being noticed find a sustainable pace that helps them avoid burnout The health of a church or any ministry organization is directly linked to the health of its leaders. Church planters may be used to improvising, but when it comes to their spiritual lives, they can't afford to just wing it. Featuring real-life stories from leaders, suggested practices, and discussion questions in each chapter, this book will equip individuals and teams (and those who coach them) to commit to an intentional plan for spiritual formation—for the good of their churches, their relationships, and their own lives as disciples of Jesus.

David Garrison, PhD University of Chicago, defines Church Planting Movements as rapidly multiplying indigenous churches planting churches that sweep across a people group or population segment. Garrison's Church Planting Movements: How God Is Redeeming a Lost World signaled a breakthrough in missionary church planting. After the publication of Garrison's book in 2004 it became impossible to talk about missions without referencing Church Planting Movements. Church Planting Movements examines more than two-dozen movements of multiplying churches on five continents. After presenting these case studies, Garrison identifies ten universal elements present in each movement. He then broadens the circle of examination to identify a further ten common characteristics, factors identified in most, but not all, of the movements. He concludes his examination with a list of "Seven Deadly Sins," i.e. harmful practices that stifle or impede Church Planting Movements. Important for evangelical readers, the author returns to his findings to see how they stand up to the light of Scripture. What he discovers is that Church Planting Movements are much more consistent with the New Testament lay-led house-church movements that swept rapidly through the Mediterranean world in the face of hostile opposition than today's more sedentary professional institutionalized Christianity. Church Planter Field Manual InterVarsity Press

The planting of churches is a phenomenon that is widespread among charismatic ministers. It was a major activity of the early disciples. Successful church planting, however, demands skill and embraces multiple factors. Dag Heward-Mills analyzes the various components of church planting in this book. It is a training manual for any minister who wants to make church planting his vision for life.

Church planting is the heartbeat of God. Church is a place where every worshiper looks up to every worship moment to exercise their faith in terms of prayer and worship. Peter, Paul, and James were church planters. The need to plant churches cannot be over-emphasized. Many souls have turned to Christ because someone preached to them. I have planted churches and preaching is what I do. I am the lead pastor in Firebrand Assembly of God in Sugar Land, Texas, a church I planted in 2007. A Bible school has been established in the church and by God's grace it is a privilege to be a teacher in the theological seminary. We established a study center for Global University and ministers of God are being trained in the study center.

In our world today there is no shortage of books and manuals that tell a person how a church should be planted. In most cases the books and manuals will highlight and specialize in one aspect or one methodology of church planting. The book, by its very title, "Church Planting: This Is Not a Manual," sets itself apart from all the rest. Although certainly not a manual, it is filled with insights, real-life stories, and lessons learned through experience that will assist any church planter as he moves forward with his call from God to plant a church. This is the story of church planting as a lifestyle. Much of what a church planter needs when he gets to the field cannot be found in a manual. Much of what he needs is to be found in life experience lived at the feet of Jesus. Church planting is not a career choice. It is a calling to a lifestyle. The Agee family has lived the church planting lifestyle

together for more than thirty-eight years. Their story of God's call, God's provision, God's sustaining power, and God's grace will be a blessing to all who will take the time to read this book.

How to Empty a Church: The Manual Asteroidea Books

The Great Commission provides more than a weekly activity of soulwinning or visitation; it reflects the very heartbeat of God. It is more than a directive for local church outreach programs; it is God's plan for the establishment of local churches around the world. God's Passion is a church planting manual that will both challenge and equip you to align your heart with God's. This book includes teaching on the biblical model of church planting as well as several chapters of intensely practical resources for both the sending church and the church planter. These chapters will encourage you to make Christ's last command your highest priority, and to invest your life--as a supporting church member, a sending pastor, or a church planter--into the passion of God.

This practical guide will help you change the way you view church and church planting. This manual is packed with information, biblical content, case studies and insights. But most of all it contains a challenge that anyone can be involved in advancing the Kingdom of God by starting a simple church in their home. The text flows as you'd expect from a normal book. But supporting it are a host of extra quotes from others involved in church life.

Small group resources tend to overlook the spiritual side of small group leadership. And yet most would agree that spiritual preparation is the most important aspect of leading a small group. Only God's supernatural power can draw people to the truth and liberate them to be all that God wants them to be. The key distinction of this book is the spiritual perspective it gives to small group ministry. So much of the literature about small groups that is already published relates to small group technique and only touches briefly on the Spirit's power. This book is a practical reference guide to help small group leadership begin to move in the supernatural realm. The book's first priority is to help small group leaders and members trust the Holy Spirit to lead them, empower them and work in their group. Small group facilitators often sense a lack of guidance, power and spiritual authority. Jesus knew His disciples would be powerless without a touch from the Holy Spirit, and so He told them to wait in Jerusalem, saying, You will receive power when the Holy Spirit comes on you; and you will be my witnesses in Jerusalem, and in all Judea and Samaria, and to the ends of the earth (Acts 1:8). Small group leaders need a power boost to make small group ministry relevant and exciting. The second priority of this book is to help the facilitator identify and mobilize each small group member to use his or her own spiritual gifts.

Church Plantology InterVarsity Press

The first comprehensive textbook on effective church planting from a veteran church planter. The Apostle Paul was a veteran church planter who "laid a foundation like a wise and master builder" and there is much we can learn from his example. Paul indicated that there were basic skills and experiences required to successfully plant a church. Church Plantology examines the wide variety of church planting methods and ideologies in contemporary pastoral practice and outlines a biblical model based on the New Testament. During his time in prison, Paul spent much of his time writing to Titus, Timothy, and others who'd served alongside him in the trenches to complete their training as church plantings. We can continue to apply these time-tested, proven methods, following the pioneering example of the early church. Today, the casualty rate is high. What if we could reduce the odds of failing? Church Plantology by Peyton Jones is a robust guide to planting that will help planters to provide the foundation necessary to survive beyond the initial first years so that they don't end up a walking statistic.

Getting Started Wipf and Stock Publishers

Church planting has become a cottage industry. National conferences, hip planting organizations, and all-in-one resource kits celebrate the thrill of pioneering a church and inspire visions of glorious victories. Yet few who respond to the call are warned what they'll actually encounter: the relentless opposition they'll endure; the eventual scattering of their entire core group; the failure of their tried-and-true, field-tested system. Here's the dirty little secret of church planting: the roadside is strewn with casualties. Many have closed their churches. Some left ministry permanently. Others abandoned the faith altogether. Church planting is at once the greatest and most grueling ministry work on earth. This book is for those toiling in the trenches, those about to bail out, and those considering jumping in. It's for the church planters laboring and struggling, seeing little movement, and wondering what they're doing wrong or why God is failing them. It's also for mother churches, planting organizations, and denominations, as a challenge to rethink and re-calibrate the way they approach and measure planting endeavors. The Honest Guide to Church Planting is a fresh and candid conversation about the challenges and joys of planting new churches. Tom Bennardo speaks the truth so that those involved in church planting can embrace a more accurate and realistic picture of what planting a church is really like; one that not only enables them to survive, but to thrive in this wondrous work.

[Planting Churches That Reproduce](#) Gospel Light Publications

Church planting is one of the most challenging yet rewarding adventures you can embark on. Often zealous planters and their teams launch their new church prematurely, without taking time to lay a firm foundation for long-term fruitful ministry. Failure to do so often results in a weakened new church, or even the new church closing after a few years. Rather than focusing on methodology, the how to's of church planting, this book gives attention to six foundational concerns wise planters will need to nail down before they ever plant: •Biblical foundations, •Theological foundations, •

Ecclesiological foundations, • Missiological foundations, •Spiritual foundations, •Practical foundations. Although helpful for a wide range of planting leaders, this book is particularly written for four specific groups: •those who feel called to plant and are making preparations; •their planting

teammates and launch leaders; •those exploring church planting; •those who coach and train church planters. Foundations for Fruitful Church Planting serves as a comprehensive resource that will guide you to think strategically, plan carefully, and prepare thoroughly to birth a healthy, growing, and reproducing congregation. Each chapter includes recommended resources, discussion questions, and follow-through exercises.
