GONZALEZ JONAH

Auto e fisco. Con CD-ROM Elsevier
Includes a foreword by Major General David A. Rubenstein. From the editor: "71F, or "71 Foxtrot," is the AOC (area of concentration) code assigned by the U.S. Army to the specialty of Research Psychology. Qualifying as an Army research psychologist requires, first of all, a Ph.D. from a research (not clinical) intensive graduate psychology program. Due to their advanced education, research

psychologists receive a direct commission as Army officers in the Medical Service Corps at the rank of captain. In terms of numbers, the 71F AOC is a small one, with only 25 to 30 officers serving in any given year. However, the 71F impact is much bigger than this small cadre suggests. Army research psychologists apply their extensive training and expertise in the science of psychology and social behavior toward understanding, preserving, and enhancing the health, well being, morale, and performance of Soldiers and military families. As is clear throughout the pages of this book, they do this in many ways

and in many areas, but always with a scientific approach. This is the 71F advantage: applying the science of psychology to understand the human dimension, and developing programs, policies, and products to benefit the person in military operations. This book grew out of the April 2008 biennial conference of U.S. Army Research Psychologists, held in Bethesda, Maryland. This meeting was to be my last as Consultant to the Surgeon General for Research Psychology, and I thought it would be a good idea to publish proceedings, which had not been done

before. As Consultant, I'd often wished for such a document to help explain to people what it is that Army Research Psychologists "do for a living." In addition to our core group of 71Fs, at the Bethesda 2008 meeting we had several brand-new members, and a number of distinguished retirees, the "grey-beards" of the 71F clan. Together with longtime 71F colleagues Ross Pastel and Mark Vaitkus, I also saw an unusual opportunity to capture some of the history of the Army Research Psychology specialty while providing a representative sample of current 71F research and activities. It seemed to us especially important to do this at a time when the operational demands on the Army and the total force were reaching unprecedented levels, with no sign of easing, and with the Army in turn relying more heavily on research psychology to inform its programs for protecting the health, well being, and performance of Soldiers and their families."

Dieses Buch richtet sich an Marketingverantwortliche und Agenturen. Es bietet eine pragmatische Vorgehensweise für die Erstellung von "Advertisements that sell": - ein Reifegradmodell (Basic, Managed, Advanced, Excellent), anhand dessen jeder Mitarbeiter und jede Führungskraft schnell feststellen kann, wie gut die Marketingorganisation wirklich ist und ob noch unentdeckte Reserven in ihr stecken, und - ein Referenzmodell, an dem jeder Marketer seine Abläufe und Strukturen spiegeln kann, um gezielt Ansatzpunkte für die Optimierung der Marketingprozesse zu identifizieren. Diese Modelle orientieren sich an den drei Grundbausteinen der Exzellenz für effiziente und erfolgreiche Marketingkommunikation: - "Wie muss ich meine Werbung gestalten, dass der Adressat nicht nur auf sie aufmerksam wird, sondern auch sofort versteht, welches Bedürfnis er haben soll?" - "Wie

komme ich schnell und wirksam zu einem sehr guten Ergebnis für meine Markenführung?" - Und da es noch schwieriger ist, Ideen umzusetzen, als sie zu generieren, bietet das Buch praxisorientierte Prozesse und Leitlinien, mit denen der Leser die Erkenntnisse aus den anderen Bereichen umsetzen und dabei auch noch die Marketingeffizienz "monitoren" kann. Untermauert wird dies alles durch gute und schlechte Beispiele; Checklisten und Templates erleichtern die praktische Umsetzung.

The "Diamond Dilemma" provides a profound, provocative, and unique

outsider's inside perspective on the challenges and opportunities facing South Korea. It concludes with a passionate plea for change, highlighting how the country can achieve its full potential as a shining diamond. The book received wide-spread acclaim and media attention in Korea, where it was released by Random House Joongang. The English version is now available on Lulu. "For anyone ... trying to understand how nations and industries evolve, what role Korea and other Asian countries are likely to play ..., and why some companies succeed and others fail, the 'Diamond Dilemma' is a fascinating and indispensable guide." Sir Geoffrey Owen, Senior Fellow, London School of Economics, and former editor of the Financial Times
