A.P.J. Abdul Kalam Rameshwaram to Rashtrapati Bhawan On the life and achievements of Avul Pakir Jainulabdeen Abdul Kalam, b. 1931, President of India and architect of missile technology in India. Great Scientist-president Dr. Abdul Kalam Biography of Avul Pakir Jainulabdeen Abdul Kalam, b. 1931, President of India and the father of India's missile technology. Wings of Fire An Autobiography Dr. Kalam was born and brought up in a multi-religious, multi-ethnic community, and this type of milieu had a profound effect on his personality. He gave equal respect to all faiths and religions; and he did not pay only lip-service to different religions. During his life, he visited the saints and seers of all faiths, discussed with them and learnt from them. He learnt what divinity and spirituality actually meant, and brought out a

blended form. For him, religion is a connecting thread. He was quite at ease when he quoted from the Gita or the Hadith, or for that matter, from the holy texts of other faiths. In this book, we have made a solemn endeavour to read his mind, how he thought at every turn of his life; and this will help the readers to understand the intricacies of his thinking and how he was guided for a mission in his life. To understand him well, we have also narrated a number of incidents, accidents and events of his life, that would contribute to holistic understanding about him. He took up the challenges and worked on them wholeheartedly; whenever he failed, he overcame his negativity and came out a stronger man than ever. This is the beauty of his character, and this makes him one of the most popular public figures of all times. May his soul rest in peace! —K. Senthil Kumar, IAS

The students? diligent teacher, the nation?s gifted scientist, the humble ?People?s

President? - an indefinable name he is. Dr. APJ Abdul Kalam. A man who dedicated his life and work to the betterment of a nation, and his time and energy to the billions of young minds he wished to ignite. He has left back dreams in everyone, and the undying inspiration to make those dreams come true. A surfeit of contents has been interwoven to give this book a shape. To read through the pages will mean a journey through his life in entirety. Besides Kalam's own speeches and quotes, it also contains literary tributes by scientists, academicians and students, the interviews of his family members, and a real-time anecdote of his interment ceremony at Rameswaram. This isn't just a tribute, but a world beyond it to be read, explored and discovered. *Wings of Fire* Oswaal Books and Learning Private Limited

An Autobiography Partridge Publishing "After the peace treaty was signed at Armistice Hall, several groups were formed to take care of the restless situation in Korea. One of the teams was the Custodian Force, of which, I was fortunately part of! When I boarded the special train to Madras with my fellow members, there were already thirty cameramen eager to cover the news at the station. The civilians assembled with flags and shouted 'Jai Hind!' When I was posted in Vietnam, I had to go to the China Border to give a surprise visit to make sure that no weapons were being smuggled from China to North Vietnam. By the end of 1987, I had explored so many new and charismatic places in my own country. But while we were in Fatehpur Sikri, the only thought that daunted me in the

evening was - Will we see the next day? Is this the end of us? Then again in 1998, I got bored of my hometown and decided to explore another new state to quench my wander thirst."
