Several Variables provides a conceptual treatment of multivariable calculus. This book emphasizes the interplay of geometry, analysis through linear algebra, and approximation of nonlinear mappings by linear ones. Advanced Calculus of Several Variables - C. H. Edwards ...Advanced Calculus. This rigorous two-part treatment advances from functions of one variable to those of several

variables. Intended for students who have already completed a one-year course in elementary calculus, it defers the introduction of functions of several variables for as long as possible, and adds clarity and simplicity by avoiding a mixture of heuristic and rigorous arguments. Advanced Calculus of Several Variables (Dover Books on Advanced Mathematics) (Dover Books on Mathematics) Paperback - 1 April 1995 by C. H.
