Free City! The Fight for
San Francisco's City
College and Education for
All tells the story of the

five years of organizing
that turned a seemingly
hopeless defensive fight
into a victory for the most
progressive free college
measure in the US. In
2012, the accreditor
sanctioned City College of
San Francisco, one of the
biggest and best
community colleges in the
country, and a year later

proposed terminating its
accreditation, leading to a
state takeover. Free City!
follows the multipronged
strategies of the
campaign and the diverse
characters that carried
them out. Teachers,
students, labor unions,
community groups, public
officials, and concerned
individuals saved a

treasured public institution as San Francisco's working-class communities of color battled the gentrification that was forcing them out of the city. And they pushed back against the national "reform" agenda of corporate workforce training that drives students towards debt and sidelines lifelong learning and community service programs. Combining analysis with narrative, Free City! offers a case study in the power of positive vision and solution-oriented

organizing and a reflection on what education can and should be.
