"We use data to make decisions and maximize performance. Student performance data are used to identify content areas that can be made more direct, concise, and systematic. Learning science reveals that students better learn and retain information when text is presented in a more focused, succinct, blocked format. Visual aids and numerous demonstration and guided example videos offer additional learning aids. New summary Cheat Sheets conclude each chapter to visually reinforce key concepts and procedures"--

A trusted resource on the complex ethical questions that define the accounting profession An accountant's practice depends on making difficult decisions. To achieve the best results, individual accountants and accounting firms need a clear understanding of the ethical duties and decision-making involved in the four major functions of modern accounting—auditing, management accounting, tax accounting, and consulting—as well as a strong sense of ethical conduct to guide the certification and validation of reliable financial records. Now in its third edition, *Accounting Ethics* is a thorough and engaging exploration of the ethical issues that accountants encounter in their professional lives. Since the publication of the first edition in 2002, *Accounting Ethics* has become an indispensable resource for accounting courses and certification programs worldwide, known for its focus on real-world application, practical advice, reader-friendly guidance, and its insight into the effects of global change on the profession. Together with coverage of the contemporary regulatory environment—including the Sarbanes-Oxley Act, the Public Company Accounting Oversight Board, and the Dodd-Frank Wall Street Reform and Consumer Protection Act—this revised edition features expanded pedagogical resources such as new end-of-chapter case studies and discussion questions, and includes the updated AICPA Code of Conduct. Concise and dependable, *Accounting Ethics* sustains its reputation as an

authoritative resource for practicing accountants, new professionals, students of accounting, and those who are considering the profession.
