This eponymous comic became an instant hit when it went live on The Oatmeal.com and was liked on Facebook by 700,000 fans. Now fans will have a keepsake book of this comic to give and to keep. In *My Dog: The Paradox*, Inman discusses the canine penchant for rolling in horse droppings, chasing large animals four times their size, and acting recklessly enthusiastic through the entirety of their impulsive, lovable lives. Hilarious and heartfelt, *My Dog: The Paradox* eloquently illustrates the complicated relationship between man and dog. We will never know why dogs fear hair dryers, or being baited into staring contests with cats, but as Inman explains, perhaps we love dogs so much “because their lives aren’t lengthy, logical, or deliberate, but an explosive paradox composed of fur, teeth, and enthusiasm.”

In the age of Buzzfeeds, hashtags, and Tweets, students are increasingly favoring conversational writing and regarding academic writing as less pertinent in their personal lives, education, and future careers. Writing and Literature: Composition as Inquiry, Learning, Thinking and Communication connects students with works and exercises and promotes student learning that is kairotic and constructive. Dr. Tanya Long Bennett, professor of English at the University of North Georgia, poses questions that encourage active rather than passive learning. Furthering ideas presented in *Contribute a Verse: A Guide to First-Year Composition* as a complimentary companion, Writing and Literature builds a new conversation covering various

genres of literature and writing. Students learn the various writing styles appropriate for analyzing, addressing, and critiquing these genres including poetry, novels, dramas, and research writing. The text and its pairing of helpful visual aids throughout emphasizes the importance of critical reading and analysis in producing a successful composition. Writing and Literature is a refreshing textbook that links learning, literature, and life.

An immigrant mother’s long-held secrets upend her daughter’s understanding of her family, her identity, and her place in the world in this powerful and dramatic memoir “Riveting . . . [Wong] tells her story in vivid conversational prose that will make readers feel they’re listening to a master storyteller on a long car trip. . . . Hers is a hero’s journey.”—The New York Times Book Review ONE OF THE BEST BOOKS OF THE YEAR: PopSugar, Kirkus Reviews My mother carried a powerful secret. A secret that shaped my life and the lives of everyone around me in ways she could not have imagined. Carmen Rita Wong has always craved a sense of belonging: First as a toddler in a warm room full of Black and brown Latina women, like her mother, Lupe, cheering her dancing during her childhood in Harlem. And in Chinatown, where her immigrant father, “Papi” Wong, a hustler, would show her and her older brother off in opulent restaurants decorated in red and gold. Then came the almost exclusively white playgrounds of New Hampshire after her mother married her stepfather, Marty, who seemed to be the ideal of the white American dad. As Carmen entered this new world with her new family—Lupe and Marty quickly had four more children—her relationship with her mother became fraught with tension, suspicion, and conflict, explained only years later by the secrets her mother had kept for so long. And when those secrets were revealed, bringing clarity to so much of Carmen’s life, it was too late for answers. When her mother passed away, Carmen wanted to shake her soul by its shoulders and demand: Why didn’t you tell me? A former national television host, advice columnist, and professor, Carmen searches to understand who she really is as she discovers her mother’s hidden history, facing the revelations that seep out. Why Didn’t You Tell Me? is a riveting and poignant story of Carmen’s experience of race and culture in America and how they shape who we think we are.

Groaning Tears examines suicide in Greek tragedy in light of the fifth-century ethical climate. No full-scale work has previously been devoted to this pervasive topic. The particular focus of identifying suicide as a response to the expectations of popular ethics and social demands makes it useful for scholars and students of drama, ethics and sociology. Chapter one establishes the ethical background of audiences in the fifth century while

chapters two through five examine suicide in the context of whole plays based on motivational distinctions: to avoid disgrace and preserve an honorable reputation; to avoid further suffering; to end grief; and to sacrifice oneself for a greater good. The final chapter considers a drama of lighter tone that presents suicide in all of its ethical and theatrical aspects.

The original idea for a conference on the "shapes of knowledge" dates back over ten years to conversations with the late Charles Schmitt of the Warburg Institute. What happened to the classifications of the sciences between the time of the medieval Studium and that of the French Encyclopedie is a complex and highly abstract question; but posing it is an effective way of mapping and evaluating long term intellectual changes, especially those arising from the impact of humanist scholarship, the new science of the seventeenth century, and attempts to evaluate, to apply, to reconcile, and to institutionalize these rival and interacting traditions. Yet such patterns and transformations cannot be well understood from the heights of the general history of ideas. Within the ~eneral framework of the organization of knowledge the map must be filled in by particular explorations and soundings, and our project called for a conference that would combine some encyclopedic (as well as interdisciplinary and international) breadth with scholarly and technical depth.

GOOD MORNING AMERICA BUZZ PICK • The Pulitzer Prize-winning playwright and co-writer of *In the Heights* tells her lyrical story of coming of age against the backdrop of an ailing Philadelphia barrio, with her sprawling Puerto Rican family as a collective muse. **ONGLISTED FOR THE ANDREW CARNEGIE MEDAL • ONE OF THE BEST BOOKS OF THE YEAR:** NPR, New York Public Library, BookPage, and BookRiot • "Quiara Alegría Hudes is in her own league. Her sentences will take your breath away. How lucky we are to have her telling our stories."—Lin-Manuel Miranda, award-winning creator of *Hamilton* and *In the Heights* Quiara Alegría Hudes was the sharp-eyed girl on the stairs while her family danced their defiance in a tight North Philly kitchen. She was awed by her mother and aunts and cousins, but haunted by the unspoken, untold stories of the barrio—even as she tried to find her own voice in the sea of language around her, written and spoken, English and Spanish, bodies and books, Western art and sacred altars. Her family became her private pantheon, a gathering circle of powerful orisha-like women with tragic real-world wounds, and she vowed to tell their stories—but first she'd have to get off the stairs and join the dance. She'd have to find her language. Weaving together Hudes's love of music with the songs of her family, the lessons of North Philly with those of Yale, this is a multitythmic dive into home, memory, and belonging—narrated by an obsessed girl who fought to become an artist so she could capture the world she loved in all its wild and delicate beauty.

This book offers a fine-grained analysis of the most common ingressive and egressive verbs in present-day English in terms of the semantic-pragmatic and cognitive factors responsible for their various structural representations. It draws upon the fundamental assumptions of Cognitive Linguistics, according to which grammar is symbolic and conceptually motivated, and focuses in particular on the ability of these predicates to be integrated into constructions as a result of metonymic and metaphoric processes, which impose a well-defined set of constraints. The book supports its analysis and findings with examples both taken from three of the major corpora of English, namely BNC, COCA and GloWbe, and retrieved through ad hoc Internet searches. Although the literature on English aspectual verbs is vast, there are no studies of the language-external factors responsible for their different configurations. As such, this book fills this gap by offering linguists and students of linguistics a detailed investigation of this topic. It will also be of value to scholars with a more general interest in the linguistic evidence of cognitive activity in meaning construction.

In a timely update of Jane Austen's *Pride and Prejudice*, National Book Award finalist Ibi Zoboi skillfully balances cultural identity, class, and gentrification against the heady magic of first love in her vibrant reimagining of this beloved classic. A smart, funny, gorgeous retelling starring all characters of color. Zuri Benitez has pride. Brooklyn pride, family pride, and pride in her Afro-Latino roots. But pride might not be enough to save her rapidly gentrifying neighborhood from becoming unrecognizable. When the wealthy Darcy family moves in across the street, Zuri wants nothing to do with their two teenage sons, even as her older sister, Janae, starts to fall for the charming Ainsley. She especially can't stand the judgmental and arrogant Darius. Yet as Zuri and Darius are forced to find common ground, their initial dislike shifts into an unexpected understanding. But with four wild sisters pulling her in different directions, cute boy Warren vying for her attention, and college applications hovering on the horizon, Zuri fights to find her place in Bushwick's changing landscape, or lose it all. Literary Nonfiction. Poetry. Latinx Studies. LGBTQIA Studies. Edited by Ricardo F. Vivancos-Pérez and Norma Cantú. Rooted in Gloria Anzaldúa's experiences growing up near the U.S./Mexico border, *BORDERLANDS/LA FRONTERA* remaps our understanding of borders as psychic, social, and cultural terrains that we inhabit and that inhabit us all. Drawing heavily on archival research and comprehensive literature review while contextualizing the book within her theories and writings before and after its 1987 publication, this critical edition elucidates Anzaldúa's complex composition process and its centrality in the development of her philosophy. It opens with two introductory studies; offers a corrected text, explanatory footnotes, translations, and four archival appendices; and closes with an updated bibliography of Anzaldúa's works, an extensive scholarly bibliography on *Borderlands*, a brief biography, and a short discussion of the Gloria E. Anzaldúa Papers. "Ricardo F. Vivancos-Pérez's meticulous archival work and Norma Elia Cantú's life experience and expertise converge to offer a stunning resource for Anzaldúa scholars; for writers, artists, and activists inspired by her work; and for everyone. Hereafter, no study of *Borderlands* will be complete without this beautiful, essential reference."—Paola Bacchetta
