Can a woman ever really know herself if she doesn't know her mother? From the author of the smash-hit bestseller *Firefly Lane* and *True Colors* comes Kristin Hannah's powerful, heartbreaking novel that illuminates the intricate mother-daughter bond and explores the enduring links between the present and the past. Meredith and Nina Whitson are as different as sisters can be. One stayed at home to raise her children and manage the family apple orchard; the other followed a dream and traveled the world to become a famous photojournalist. But when their beloved father falls ill, Meredith and Nina find themselves together again, standing alongside their cold, disapproving mother, Anya, who even now, offers no comfort to her daughters. As children, the only connection between them was the Russian fairy tale Anya sometimes told the girls at night. On his deathbed, their father extracts a promise from the women in his life: the fairy tale will be told one last time—and all the way to the end. Thus begins an unexpected journey into the truth of Anya's life in war-torn Leningrad, more than five decades ago. Alternating between the past and present, Meredith and Nina

will finally hear the singular, harrowing story of their mother's life, and what they learn is a secret so terrible and terrifying that it will shake the very foundation of their family and change who they believe they are.

How Boston radio station WBCN became the hub of the rock-and-roll, antiwar, psychedelic solar system. While San Francisco was celebrating a psychedelic Summer of Love in 1967, Boston stayed buttoned up and battened down. But that changed the following year, when a Harvard Law School graduate student named Ray Riepen founded a radio station that played music that young people, including the hundreds of thousands at Boston-area colleges, actually wanted to hear. WBCN-FM featured album cuts by such artists as the Mothers of Invention, Aretha Franklin, and Cream, played by announcers who felt free to express their opinions on subjects that ranged from recreational drugs to the war in Vietnam. In this engaging and generously illustrated chronicle, Peabody Award-winning journalist and one-time WBCN announcer Bill Lichtenstein tells the story of how a radio station became part of a revolution in youth culture. At WBCN, creativity and countercultural politics ruled: there were no set playlists; news segments anticipated the satire of *The Daily Show*; on-air interviewees ranged from John and Yoko to Noam Chomsky; a telephone "Listener Line" fielded questions on any subject, day and night. From 1968 to Watergate, Boston's WBCN was the hub of the rock-and-roll, antiwar, psychedelic solar

system. A cornucopia of images in color and black and white includes concert posters, news clippings, photographs of performers in action, and scenes of joyousness on Boston Common. Interwoven through the narrative are excerpts from interviews with WBCN pioneers, including Charles Laquidara, the “news dissector” Danny Schechter, Marsha Steinberg, and Mitchell Kertzman. Lichtenstein’s documentary WBCN and the American Revolution is available as a DVD sold separately.

Henrik Ibsen is known as one of the four great Norwegian writers, and his poem "Terje Vigen" ranks among his notable works. The poem is believed to have been inspired by verbal accounts that Ibsen got during the time he lived in Grimstad in his youth. Verbal accounts about the hardships the people in the area had to suffer during the Napoleonic wars, when British ships sieged Norwegian ports. The blockade lasted from 1807 to 1814, and brought poverty to Norway. A poverty which caused people to start dying from starvation. The dire circumstances even compelled many impoverished Norwegians to row over to Denmark to get food, in order to save themselves and their families from starvation. Many of whom were captured and imprisoned. This forms well-known historical facts. The poem revolves around these historical facts. It tells a tale about how the common and poor Norwegians were impacted by these events. In the poem, Terje Vigen must row to Denmark in order to provide the life-saving food his family needs. But as he is about to arrive home in Norway on his way back, he is captured by a patrolling ship, and taken prisoner in England. Terje Vigen spends five years in prison, and when he gets back to Norway afterwards, he learns what has happened to his family while he was in prison. Later in the poem, Terje Vigen encounters the captain of the ship that took him captive, and Terje gets a chance to take revenge for the losses and grievances the imprisonment imposed on him. Though this poem is based on real life events, there exists no solid proof that a man named Terje Vigen ever existed who did all the things accounted for in the poem. The poem must therefore, even if it is based on knowledge of real-life events, be categorized as a fictional work of literature. But even if this work of literature remains a fictional one, it nonetheless provides an opportunity to imagine how life was for some of the people impacted by this event in history. And if we further keep in mind that life in Norway, for the majority of the population, throughout centuries has been a life of mere subsistence, we can let ourselves be persuaded that this poem not only provides an artistic rendition of the life and events of the possibly fictitious Terje Vigen and those taking place in the poem in particular, but paints a picture of life as it historically has been for many Norwegians in general.

In *The Mikado to Matilda: British Musicals on the New York Stage*, Thomas Hischak provides an overview of British musicals that made their way to Broadway, covering their entire history up to the present day. This is the first book to look at the British musical theatre with reference to those London musicals that were also produced in New York City. The book covers 110 British musicals, ranging from 1750 to the present day, including the popular Gilbert and Sullivan comic operettas during the Victorian era, the Andrew Lloyd Webber mega-musicals of the late twentieth century, and today's biggest hits such as *Matilda*. Each London musical is discussed first as a success in England and then how it fared in America. The plots, songs, songwriters, performers, and producers for both the West End and the Broadway (or Off Broadway) production are identified and described. The discussion is sometimes critical, evaluating the musicals and why they were or were not a success in New York.

This is the first book to systematically describe the range of approaches used in music imagery and Guided Imagery and Music across the lifespan, from young children through to palliative care with older people. Covering a broad spectrum of client populations and settings, international contributors present various adaptations of the Bonny Method of Guided Imagery to accommodate factors such as time restraints, context (including hospitals, schools, and the wider community), client symptomology, and the increasing use of more contemporary music. Each chapter presents a different model and includes background information on the client group, the type of approach, elements of approach (including length of the session, choice of music, verbal interventions during the music, and discussion of the experience), and theoretical orientation and intention. A nomenclature for the range of approaches is also included. This information will be a valued guide for both practitioners and students of Guided Imagery and Music and receptive methods of music therapy.
