## MAYRA RIVERA

### **A Dictionary of the Bible: Kabzeel-Red-heifer** InterVarsity Press

This innovative dictionary makes the Hebrew language more accessible to students by eliminating the formidable barrier of the Hebrew alphabet. It's easy to locate words quickly with the Webster's New World Hebrew-English Dictionary, because the Hebrew-to-English section is alphabetized according to the transliterated English spelling. The English version is marked for correct

pronunciation and followed immediately by the Hebrew spelling of the word. This breakthrough work of linguistic scholarship is packed with useful features that guarantee rapid progress, even for those with no familiarity with the Hebrew language. It contains: \* Extensive grammatical information including parts of speech, variant verb forms, and the formation of feminines and plurals \* Listings of idioms and compounds and indications of colloquialisms and slang \* Common variations in pronunciations \* Geographical, historical and cultural entries  
[Revivalistics](#) Oxford University Press, USA  
 This is a reference book providing

intermediate to advanced level students with information about over 3000 idioms. Each idiom is listed, explained and presented in context to enable students to understand how and when to use it.  
*With an Appendix of Idioms and Hints on Translation* Scholastic Reference  
 How does a theatrical tradition emerge in the fields of dramatic writing and artistic performance? How can a culture in which theatre played no part in the past create a theatrical tradition in the modern world? How do political and social conditions affect the encounter between cultures, and what role do they play in creating a theatre with a distinctive identity? This volume attempts to answer these and

other questions in the first in-depth study of the reception of ancient Greek drama in Israeli theatre over the last 70 years. Exploring how engagement with classical culture has shaped the evolution of Israel's theatrical identity, it draws on both dramatic and aesthetic issues - from *mise en scène* to 'post dramatic' performance - and offers ground-breaking analysis of a wide range of translations and adaptations of Greek drama, as well as new writing inspired by Greek antiquity. The detailed discussion of how the performances of these works were created and staged at key points in the development of Israeli culture not only sheds new light on the reception of ancient Greek drama in an important theatrical and cultural context, but also offers a new and illuminating perspective on artistic responses to the fateful political, social, and cultural events in Israel's recent history.

**Encyclopaedia Britannica, Or a Dictionary of Arts, Sciences, and Miscellaneous Literature** Wordsworth Editions

Language is a curious thing. We know that God communicates to us through His Word - the Bible. He reaches out in words of a distant language; one that we don't understand. This book attempts to communicate those cultural idioms and expressions that we so often glaze over, or misinterpret.

*A Smaller Dictionary of the Bible* Ancient Hebrew Research Center  
Israeli television, currently celebrating fifty years of broadcasting, has become one of the most important content sources on the international TV drama market, when serials such as *Homeland*, *Hostages*, *Fauda*, *Zagury Empire* and *In Treatment* were bought by international networks, HBO included. Offering both a textual reading and discourse analysis of contemporary Israeli television dramas, Itay Harlap adopts a case study approach in order to address production, reception and technological developments in its accounts. His premise is that the meeting point between social trends within Israeli society (primarily the rise of opposition groups to the hegemony of the Zionist-Jewish-masculine-Ashkenazi ideologies) and major changes in the medium in Israel (which are comparable to international changes that have been titled "post-TV"), led to the creation of television dramas characterized by controversial themes and complex narratives, which present identities in ways never seen before on television or in other Israeli mediums.  
*Between Jerusalem and Athens* Oxford University Press, USA

An updated introduction to American slang

and phrase origins identifies and defines more than six hundred commonly used idioms, complementing the entries with kid-friendly sample sentences and entertaining illustrations. Original.  
*English-Hebrew* Oxford University Press, USA

80,000 entries! Up-to-date idioms and expressions make this dictionary a sophisticated, bilingual tool. It has clear, bold type and includes notes on English grammar such as plurals, adjectives, verbs, tenses, time of day and much more.  
*Idioms Dictionary* Hippocrene Books  
Has more than 600 phrases, sayings, and expressions and contains explanations.

*The Oxford English-Hebrew Dictionary* Joseph D. Lesser

This easy-to-use handbook is an essential resource for anyone who needs to write English correspondence for an international business audience. In an engaging, accessible style it integrates the theory and controversies of intercultural communication with the practical skills of writing and editing English for those who read it as a second language. The book emphasizes principles of simplicity and clarity, proper etiquette, cultural sensitivity, appropriate layout and typography, and more to increase the chances that a text prepared by a native English speaker will be better understood by a non-native speaker. It also updates traditional advice with new insights into "e-mail culture." Equally useful for students and professionals in business communication, marketing communication, and international business, *The Elements of International English Style* is filled with realistic examples, problems, and projects, including: 57 specific tactics to internationalize one's English; hundreds of before-and-after comparisons showing the effects of editing for an international audience; models of international correspondence; practical discussion questions and work projects; useful resources for further study, including books, articles, and websites.

Citadel Press

This volume, which constitutes the third in the series *Jewish Research Literature*, is divided into two parts. Part One offers detailed descriptions of the various Judaic dictionaries with biographical information on their compilers, beginning with Rav Saadia Gaon's early tenth-century *Egron* and concluding with modern dictionaries compiled in recent years. Bibliographical lists and summaries, arranged chronologically according to date of publication, supplement the text. The narrative is written in nontechnical style,

but technical information appears in the footnotes. Part Two, which deals with concordances, citation collections, proverbs, and folk sayings, will appear separately.

**English-Hebrew/Hebrew-English Compact Dictionary** KTAV Publishing House, Inc.

Whether you know Hebrew or not, this book will provide you with a quick reference resource for learning the meaning of many Hebrew words that lie beneath the English translations, which will open new doors for you into Biblical interpretation. The Hebrew language of the Bible must be understood from its original and Ancient Hebrew perspective. Our interpretation of a word like "holy" is an abstract idea, derived out of a Greco-Roman culture and mindset, which is usually understood as someone or something that is especially godly, pious or spiritual. However, the Hebrew word *קדוש* (*qadosh*) means, from an Ancient Hebrew perspective, unique and is defined in this dictionary as: "Someone or something that has, or has been given the quality of specialness, and has been separated from the rest for a special purpose." With this interpretation, we discover that the nation of Israel is not "holy," in the sense of godliness or piety, but is a unique and special people, separated from all others to serve God. This Biblical Hebrew dictionary contains the one thousand most frequent verbs and nouns found within the Hebrew Bible. Each word is translated and defined from its original concrete Ancient Hebrew perspective, allowing for a more accurate interpretation of the text. In addition to the one thousand verbs and nouns, the appendices in the book include a complete list of Hebrew pronouns, prepositions, adverbs, conjunctions and numbers.

**Encyclopædia Britannica: or, A dictionary of arts and sciences, compiled by a society of gentlemen in Scotland [ed. by W. Smellie]. Suppl. to the 3rd. ed., by G. Gleig** Bloomsbury Publishing USA

An essential reference for serious English and Hebrew users alike, this dictionary reflects the development of Hebrew in the twentieth century, and with over 50,000 entries offers extensive coverage of current idioms and phrases, slang and colloquialisms, technical and scientific terminology, academic discourse, legal and medical terminology, American and Australian terms, and a labeling system allowing easy identification of senses, contexts, and registers.

Dictionary of Yiddish Slang and Idioms

This compact, bilingual dictionary includes over 55,000 total entries! Presenting the Hebrew and English translations, rules of pronunciation for both English and Hebrew, as well as new words, idioms, and slang expressions, this dictionary is an excellent reference for students and travelers familiar with the Hebrew script.

**A Dictionary of the Bible** Cambridge Scholars Publishing

"This seminal book introduces revivalistics, a new trans-disciplinary field of enquiry surrounding language reclamation, revitalization and reinvigoration. The book is divided into two main parts that represent Zuckermann's fascinating and multifaceted journey into language revival, from the 'Promised Land' (Israel) to the 'Lucky Country' (Australia) and beyond. Part 1: language revival and cross-fertilization. The aim of this part is to suggest that due to the ubiquitous multiple causation, the reclamation of a no-longer spoken language is unlikely without cross-fertilization from the revivalists' mother tongue(s). Thus, one should expect revival efforts to result in a language with a hybridic genetic and typological character. The book highlights salient morphological, phonological, phonetic, syntactic, semantic and lexical features, illustrating the difficulty in determining a single source for the grammar of 'Israeli', the language resulting from the Hebrew revival. The European impact in these features is apparent inter alia in structure, semantics or productivity. Multiple causation is manifested in the Congruence Principle, according to which the more contributing languages a feature exists in, the more likely it is to persist in the emerging language. Consequently, the reality of linguistic genesis is far more complex than a simple family tree system allows. 'Revived' languages are unlikely to have a

single parent. Part 2: language revival and wellbeing. The book then applies practical lessons (rather than clichés) from the critical analysis of the Hebrew reclamation to other revival movements globally, and goes on to describe the why and how of language revival. The how includes practical, nitty-gritty methods for reclaiming 'sleeping beauties' such as the Barnarla Aboriginal language of Eyre Peninsula, South Australia, e.g. using what Zuckermann calls talknology (talk technology). The why includes ethical, aesthetic, and utilitarian reasons such as improving wellbeing and mental health"--  
[Hebrew Idioms Found in the Bible](#) Oxford University Press, USA

The essays collected in this volume form a multifaceted discourse on religious, philosophical, historical, ethnocultural and sociocultural, literary and linguistic issues. A multicultural approach to the problem of the soul allows the presentation of it on a microscale, focused on national and regional specificity, as well as on the macroscale, oriented toward universal values which can be observed in the cultures of peoples distant from each other in both time and space. The book consists of 28 chapters, addressing the fundamental themes of human existence, which find expression in cultural texts in both colloquial and artistic language, and which have a prominent place in anthropological, psychological, metaphysical and theological debates.  
*For the Use of Schools and Young Persons* Oxford University Press

The Oxford English-Hebrew Dictionary is a detailed guide to current usage in English and Hebrew. In addition to a full range of idioms and phrases, slang and colloquialisms, the dictionary offers comprehensive coverage of technical, scientific, legal, medical, and academic terminology. Care has also been taken to record British, American, and Australian variants. Both the presentation and content of the dictionary are designed to guide the reader through the pitfalls of varying register and context; clearly labelled senses and numerous example phrases ensure maximum clarity and accessibility. The result is an essential reference tool for English and Hebrew users alike. The Oxford English-Hebrew Dictionary was compiled and edited at the Oxford Centre for Hebrew and Jewish

Studies.

Over 52,000 entries, including: New language, idioms and phrases, and short sayings. The most comprehensive dictionary of it's kind.

**Before Jonathan Edwards** Kernermann Publishing

In *Before Jonathan Edwards*, Adriaan Neele seeks to balance the recent academic attention to the developments of intellectual history after Jonathan Edwards. Neele presents the first comprehensive study of Edwards's use of Reformed orthodox and Protestant scholastic primary sources in the context of the challenges of orthodoxy in his day. Despite the breadth of Edwards scholarship, his use of primary sources has been little analyzed. Yet, as Neele proves, Edwards's thinking on the importance of these primary sources has significant implications not only for the status of the New England theology of pre-Revolutionary America but also for our understanding of Edwards today. This volume locates Edwards's ideas in the context of the theological and philosophical currents of his day, as well as in the pre-modern exchange of books and information during the colonial period. The pre-Revolutionary status of theology and philosophy in the wake of the Enlightenment had many of the same problems we see in our theological education today with respect to the use and appropriation of classical theology in a 21st-century context. Ideas about the necessity of classical primary sources of Christianity in sustaining our theological education are once again becoming important, and Edwards offers many relevant insights. Edwards was not unique in his deployment of these primary sources; many New England pastors, including Cotton Mather (1663-1728), preached and wrote about the necessity of orthodox theology. Edwards's distinction came in his thinking about the issues set forth in these sources at a transitional moment in the history of Christian thought.
