This handbook takes a  
multi-disciplinary  
approach to offer a  
current state-of-art survey  
of intercultural  
communication (IC)  
studies. The chapters aim  
for conceptual  
comprehension,  
theoretical clarity and  
empirical understanding  
with good practical  
implications. Attention is  
mostly on face to face  
communication and  
networked communication  
facilitated by digital  
technologies, much less  
on technically reproduced  
mass communication.  
Contributions cover both  
cross cultural  
communication (implicit  
or explicit comparative  
works on communication  
practices across cultures)  
and intercultural  
communication (works on  
communication involving  
parties of diverse cultural  
backgrounds). Topics  
include generally histories  
of IC research, theoretical  
perspectives, non-western  
theories, and cultural  
communication;

specifically  
communication styles,  
emotions, interpersonal  
relationships,  
ethnocentrism,  
stereotypes, cultural  
learning, cross cultural  
adaptation, and cross  
border messages;and  
particular context of  
conflicts, social change,  
aging, business, health,  
and new media. Although  
the book is prepared for  
graduate students and  
academicians,  
intercultural  
communication  
practitioners will also find  
something useful here.

He took everything from  
her ... and she found the  
only thing she ever really

needed. For Alisse Southwick, the problem wasn't just the musclebound 8 foot tall alien who'd taken her from everything she'd ever known. No, the problem was she was seriously contemplating trading the knowledge that unlocked the secrets of the universe, in exchange for her freedom — sexual and otherwise. She was a woman of science, yes, but why did the alien holding her captive have to look like something out of her darkest wet dreams? From the moment he'd set eyes on her, Lukanos knew only one thing: he had to have her. But there was one minor problem — she was a human. To even show himself to a human — let alone abducting one — was against every law of his people. But each time he looked at her, those sparkling, keen eyes, the long, sable hair, and the lush, shapely body human females were notorious — and celebrated — for, his resolve to follow the law, to obey his people's sacred Directive, was in serious danger of crumbling. He knew he wasn't supposed to want her — but he knew somehow, someday, she would be his — whether

she was ready for it or not. Taking a human being was much more than an abduction though — it was a taboo act. Fearing he'd lose more than his commission in the Scout Corps, Lukanos quickly learned he was far from the only one of his people obsessed with human females. He wasn't the only one keeping a female slave. The repercussions for capturing humans were serious, but Lukanos was prepared to endure them. He'd endure almost anything to make the gorgeous human his, in every way. But what's a captor supposed to do when he begins to fall for his captive? Does he keep her as the only thing she'll ever be on his world — a sexual plaything? Or must he — for the first time in his life — do the right thing? Publisher's Warning: This science fiction dark erotic romance is intended only for mature audiences. 18 and over only! This novel contains the following themes or activities: pervasive BDSM, capture fantasy, intense and explicit sex, spanking, anal play, TPE, and other acts of unequal power dynamics. If any of these might be offensive to you, please do not buy or read

this book. Word Count: 70,578 words Note: This title was originally published as a short novella (21K words) in the USA Today best-selling anthology, Bound, Spanked, and Loved. The story has since been GREATLY expanded from 21k words to over 70k words. For readers who read the original story, this is a much deeper, richer story and in many respects is essentially a new book.

#1 New York Times

Bestseller - Winner of the Pulitzer Prize - Winner of the National Book Award - Winner of the Andrew Carnegie Medal for Excellence in Fiction - Longlisted for the Man Booker Prize One of the Best books of the Year: The New York Times, The Washington Post, NPR, The Boston Globe, The Seattle Times, HuffPost, Esquire, Minneapolis Star Tribune Look for Whitehead's acclaimed new novel, *The Nickel Boys*, available now Cora is a young slave on a cotton plantation in Georgia. An outcast even among her fellow Africans, she is on the cusp of womanhood-- where greater pain awaits. And so when

Caesar, a slave who has recently arrived from Virginia, urges her to join him on the Underground Railroad, she seizes the opportunity and escapes with him. In Colson Whitehead's ingenious conception, the Underground Railroad is no mere metaphor: engineers and conductors operate a secret network of actual tracks and tunnels beneath the Southern soil. Cora embarks on a harrowing flight from one state to the next, encountering, like Gulliver, strange yet familiar iterations of her own world at each stop. As Whitehead brilliantly re-creates the terrors of the antebellum era, he weaves in the saga of our nation, from the brutal abduction of Africans to the unfulfilled promises of the present day. The Underground Railroad is both the gripping tale of one woman's will to escape the horrors of bondage--and a powerful meditation on the history we all share.

Many societies are experiencing growing longevity and population ageing simultaneously with increasing urbanization and mobilities. Such

fundamental demographic and structural shifts have been reflected in a multitude of narratives and strategies how to "age well" in view of rapidly transforming environments, mobilities of people and changing social relations. This volume explores the transcultural dimensions of ageing and care through close-up ethnographic and literary case studies in South Asia, as well as one European case study from a South Asian researcher's view. By critically engaging with Eurocentric aspects in ageing studies, the eleven contributions of this volume highlight how perspectives from the Global South shed light on transcultural entanglements and connectivities of experiences of care and ageing. WHAT OTHER AUTHORS ARE SAYING ABOUT THE LAST GIRL: "In this fresh take on star-crossed love, Ms. Thomas pairs deeply poignant emotion with unforgettable imagery. This one will stay with you long after you've finished reading." -- Annabel Joseph, author of "Comfort Object" "In a time when current vampire fiction seems to be dominated by creatures behaving as pretty humans with fangs, it is so exciting to read a dreadful love story like "The Last Girl." Finally, we have a vampire who is unapologetic for being a predator." --Claudia D. Christian, author of Darling, Book 1 of the

Traumatic brain injury (TBI) in sports has become an important international public health issue over the past two decades. However, until recently, return to play decisions following a sports-related traumatic brain injury have been based on anecdotal evidence and have not been based on scientifically validated clinical protocols. Over the past decade, the field of Neuropsychology has become an increasingly important component of the return to play decision making process following TBI. Neuropsychological assessment instruments are increasingly being adapted for use with athletes throughout the world and the field of sports neuropsychology appears to be a rapidly evolving subspecialty. This book provides a comprehensive overview of the application of neuropsychological assessment instruments in sports, and it is structured to present a global perspective on

contemporary research. In addition to a review of current research, *Traumatic Brain Injury in Sports: An International Neuropsychological Perspective*, presents a thorough review of current clinical models that are being implemented internationally within American and Australian rules football, soccer, boxing, ice hockey, rugby and equestrian sports. This book is set against the background of the 'justice gap' in sexual assault cases - the dramatic gap between the number of offences recorded by the police and the number of convictions. It seeks to examine the attitudinal problems which bedevil this area of law and possible strategies for addressing them. Written by a professor of law and

a professor of psychology, it reviews evidence from socio-legal and social cognition research and presents new data drawn both from interviews with judges and barristers and from studies with prospective lawyers and members of the public. In the final part, it considers different ways in which rape trials could be improved and suggests steps that could be taken to change public attitudes about sexual assault.

In the aftermath of a plague which brought civilization to its knees and left most of the world's female population sterile, breeders—the few women who remain fertile—have become a precious commodity. Breeders live in relative comfort, but upon

reaching adulthood they are tasked with bearing one child after another to carry on the species. Frequent medical assessments keep the breeders healthy and harsh punishments keep them in line. As a breeder who has just come of age, Rowan knows she will soon be little more than a slave, but when she dares to resist her fate the penalty is severe. After a shameful, public chastisement and a thorough, humiliating examination to determine her suitability for child-bearing, Rowan is given to a savage from outside the community—a huge brute of a man named Silas—to be bred. Against all expectations, Rowan finds herself drawn to her new captor. Brave, ruggedly handsome, and even kind at times, Silas is everything the men who enslaved her were not. When the time comes for him to breed her, despite the circumstances something deep inside her begs for him to take her long and hard. But while she soon finds herself longing to be his forever, Rowan knows that eventually those who gave her to him will try to take her back. When that

day comes will Silas fight to keep her at his side even if it means risking everything he loves?
