The Hero's Journey Palladium Books Incorporated

Jack and I, we did everything backward. The day he lured me into his office-which was also the first day we met-he proposed. You'd think a guy who looked like him-a bit cold maybe, but still striking and very unattainable-would only ask the love of his life to marry him, right? You'd think he must be madly in love.Nope. It was me he asked. A complete stranger who had never even heard of him. A stranger who had been dumped by her fiancé only weeks before. You'd think I'd laugh in his face, call him insane-and a few other names-then walk away as quickly as possible. Well...I did all those things except the walking away part.It took him only minutes to talk me into a business deal...erm, I mean marriage, and only days for us to officially tie the knot. Happiest day of my life. Magical. Pop the champagne... Not. It was the worst day. Jack Hawthorne was nothing like what I'd imagined for myself.I blamed him for my lapse in judgment.I blamed his eyes, the ocean blue eyes that looked straight into mine unapologetically, and that frown on his face I had no idea I would become so fascinated with in time.It wasn't long after he said I was the biggest mistake of his life that things started to change. No, he still didn't talk much, but anyone can string a few words together. His actions spoke the loudest to me. And day after day my heart started to get a mind of its own.One second he was no one. The next he became everything.One second he was unattainable. The next he seemed to be completely mine.One second I thought we were in love. The next it was still nothing but a lie.After all, I was Rose and he was Jack. We were doomed from the very beginning with those names. Did you expect anything else?

Imagine, for a moment, that you live in a world full of superheroes. Imagine a world where people bend steel in their bare hands, where champions dart across the sky, where avengers step out of the shadows to protect the innocent. Imagine a man larger than life protecting the innocent, imagine a family of heroes, imagine warriors dedicated to the safety of mankind. Imagine you've worshiped them your entire life. Then imagine it's all a hoax. Imagine that your champions are actors, the fights choreographed... imagine the real heroes vanished a decade ago. Imagine you're the only one who knows the truth. And imagine what you would do to put things right...

More than 60 years had passed before I found them. Dozens and dozens of letters written to my family during WWII- from total strangers- to tell my great-grandmother that her son had been captured and was being held as a POW. How did they know this? Well, it seems the short-wave radio had held all the answers. POWs were allowed to state their names and hometowns on the radio, and sometimes relay a short message to their families. Scores of Americans, listening to the German propaganda from so far away, heard my grandfather's information, and took it upon themselves to write to my great-grandmother. All of these dear people wanted to give my great-grandmother a measure of comfort to know her son was alive. That was only the beginning of my journey.

This is a full-length, science-fiction, alien abduction romance that was previously released as part of a two-book collection introducing the first books in two series. Each book is now being released separately. This revised edition of *The Scorpion's Mate* has some small changes from the original. Claire has never really fit in with everyone around her, but she's carved out a life for herself using her own unique style and artistic ability to support herself on the Internet. The last thing she expects is to be abducted by aliens and dropped into a research facility, where a genetically-engineered alien soldier chooses her as his life-mate. Thrax's pheromones are compelling, and his status as a fellow unwilling test subject makes them allies, but Claire isn't certain she can trust someone who is convinced she belongs to him, when all she wants to do is find a way to return home to Earth—a place that her devoted alien can never follow, because there's no way the scorpion-like alien would ever be able to pass for human. Still, she'll accept help where she can find it, so she doesn't hesitate to escape with Thrax from the facility, though their time running from their pursuers in the warrens beneath the research facility will forever change Claire, and could make it impossible for her to return to Earth. But will there be anywhere else in the galaxy they can go where their love will be accepted? Author's Note: 18+ only, this book contains scenes of graphic intimacy and violence that are not intended for younger readers. Also, please note that the hero in this book is not human-looking and possesses an appearance and attributes that may not be comfortable for some readers to read about.
