Most people know that

there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans

looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s -

show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in Millionaire by Thirty, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their

investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

Confronting trauma behind the transnational adoption system—now back in print Many adoptees are required to become people that they were never meant to be. While transracial adoption tends to be considered benevolent, it often exacts a heavy emotional, cultural, and economic toll

on those who directly experience it. *Outsiders Within* is a landmark publication that carefully explores this most intimate aspect of globalization through essays, fiction, poetry, and art. Moving beyond personal narrative, transracially adopted writers from around the world tackle difficult questions about how to survive the racist and ethnocentric worlds they inhabit, what connects the countries relinquishing their children to the countries importing them,

why poor families of color have their children removed rather than supported—about who, ultimately, they are. In their inquiry, the contributors unseat conventional understandings of adoption politics, reframing the controversy as a debate that encompasses human rights, peace, and reproductive justice. Bitch in Heat Del Rey
 The first graphic novel
 guide to growing a

successful raised bed vegetable garden, from planning, prepping, and planting, to troubleshooting, care, and harvesting. "A fun read packed with practical advice, it's the perfect resource for new gardeners, guiding you through every step to plant, grow, and harvest a thriving and productive food garden."—Joe Lamp'l, founder and creator of the Online Gardening Academy Like having your own personal gardening mentor at your side, The Comic Book

Guide to Growing Food is the story of Mia, an eager young professional who wants to grow her own vegetables but doesn't know where to start, and George, her retired neighbor who loves gardening and walks her through each step of the process. Throughout the book, "cheat sheets" sum up George's key facts and techniques, providing a handy quick reference for anyone starting their first vegetable garden, including how to find the best location, which vegetables are easiest to

grow, how to pick out the healthiest plants at the store, when (and when not) to water, how to protect your plants from pests, and what to do with extra produce if you grow too much. If you are a visual learner, beginning gardener, looking for something new, or have struggled to grow vegetables in the past, you'll find this unique illustrated format ideal because many gardening concepts--from proper planting techniques to building raised beds--are easier to grasp when

presented visually, step by step. Easy and entertaining, The Comic Book Guide to Growing Food makes homegrown vegetables fun and achievable.

Praise for Sun Yung Shin: Finalist for the Believer Poetry Award "[her] work reads like redactions, offering fragments to be explored, investigated

and interrogated, making her reader equal partner in the creation of meaning."—Star Tribune

Sun Yung Shin moves ideas—of identity (Korean, American, adoptee, mother, Catholic, Buddhist) and interest (mythology, science fiction, Sophocles)—around like building blocks, forming and reforming new constructions of what it means to be at home. What is a cyborg but a hybrid creature of excess? A thing that exceeds the sum of its parts. A thing

that has extended its powers, enhanced, even superpowered.

The Wild Life and Mad Genius of Jagger DC Comics

With *The Chronicles of Thomas Covenant*, Stephen R. Donaldson changed the face of fantasy fiction forever. In *The Mirror of Her Dreams*, the astonishing first novel in the two-volume *Mordant's Need* series, Donaldson shows us a world of wondrous beauty and seductive illusion, where mirrors hold the deadliest of magics and

nothing is what it seems. . . . The daughter of rich but neglectful parents, Terisa Morgan lives alone in a New York City apartment, a young woman who has grown to doubt her own existence. Surrounded by the flat reassurance of mirrors, she leads an unfulfilled life—until the night a strange man named Geraden comes crashing through one of her mirrors, on a quest to find a champion to save his kingdom of Mordant from a pervasive evil that threatens the land. Terisa

is no champion. She wields neither magic nor power. And yet, much to her own surprise, when Geraden begs her to come back with him, she agrees. Now, in a culture where women are little more than the playthings of powerful men, in a castle honeycombed with secret passages and clever traps, in a kingdom threatened from without and within by enemies able to appear and vanish out of thin air, Terisa must become more than the pale reflection of a person. For the way back

to Earth is closed to her.
And the enemies of
Mordant will stop at
nothing to see her dead.

as impossible to ignore as
Jagger himself. Based on
interviews with friends,
family members, fellow
music legends, and
industry insiders—as well
as wives and legions of

light on a man whose very
name defines an era and
candidly reveals: —New
details about Jagger’s jaw-
dropping sexual exploits
with more than four
thousand women
(including Madonna,
Angelina Jolie, Carly
Simon, Linda Ronstadt,
Uma Thurman, and

France's First Lady Carla Bruni)—as well as his encounters with several of rock's biggest male stars. Also, the day Mick's wife Jerry Hall and Keith Richards pleaded with Jagger to seek treatment for sex addiction. —The backstage drama surrounding Mick's knighthood, and Jagger's little-known ties to Britain's Royal Family, including Prince William and Kate Middleton. —What he really thinks of today's superstars—including Lady Gaga, Britney

Spears, Beyoncé, Justin Timberlake, Kanye West, and Justin Bieber. —Never-before-revealed, behind-the-scenes accounts of his often turbulent relationships—from his band-mates, ravenous groupies, and rabid fans to such intimates as Andy Warhol, John Lennon, Jackie Onassis, Bill Clinton, and others. —Cocaine, LSD, hashish, and speed—the flabbergasting truth about the extent of Jagger's substance abuse, and how long it really went on. —A

rare glimpse into Mick's business dealings and the killer instinct that has enabled him to amass a personal fortune well in excess of \$400 million. —The stormy "marriage" between Mick and Keith that nearly ran aground over Keith's searing comments—and all the scandal, mayhem, excess, madness, and genius that went into making the Rolling Stones "the world's greatest rock-and-roll band." Like its subject, this book is explosive and riveting—the definitive biography of a living

legend who has kept us thrilled, confounded, and astounded. THIS IS MICK.
