Defining Hybrid

Homeschools in America: Little Platoons explores the idea of hybrid homeschools, where students attend a formal school setting for part of the week and are homeschooled the rest of the week. Eric Wearne observes that school choice in America typically comes in two forms: programs set up for disadvantaged students, and the more common form of choice that wealthy parents can exercise—paying private tuition or moving to a more desirable school district. While disadvantaged families in

many places and wealthy families everywhere can exercise choice when it comes to schooling, a sizeable group typically gets left out of those options—the large number of families who are too wealthy to access state or local programs, but not wealthy enough to pay for private schooling or moving expenses.

Wearne argues that this is a long-term weakness for school choice in America; the middle class is generally a well-off demographic, but is almost completely unserved when it comes to this large aspect of their children's lives.

However, one low-cost option has arisen to address this niche: hybrid home schools. Wearne cites existing research to argue for this model's efficacy for the middle class as a strong example of a healthy civil society and examines how policy definitions are breaking down and evolving in education as we challenge the existing definitions of schooling.

Home educator Laura Berquist presents a modern curriculum based on the time-tested philosophy of the classical Trivium—grammar, logic

and rhetoric. She has given homeschoolers a valuable tool for putting together a "liberal arts" curriculum that feeds the soul, as well as the intellect. Her approach, covering grades K - 12, is detailed and practical, and it is adaptable by parents and teachers to any situation. This third revised edition includes a much expanded section for a high school curriculum, and an updated list of resources for all grades.

From the author of the beloved classic *Where the Red Fern Grows* comes a timeless adventure about a boy who discovers a tree full of monkeys. The last thing fourteen-year-old Jay Berry Lee expects to find while trekking through the Ozark Mountains of Oklahoma is a tree full of monkeys. But then Jay learns from his grandpa that the monkeys have escaped from a traveling circus, and there's a big reward for the person who finds and returns them. His family could really use the money, so Jay sets off, determined to catch them. But by the end of the summer, Jay will have learned a lot more than he bargained for—and not

just about monkeys. From the beloved author of *Where the Red Fern Grows* comes another memorable adventure novel filled with heart, humor, and excitement. THE COLFAXES DIDN'T START TEACHING THEIR BOYS AT HOME TO GET THEM INTO HARVARD - BUT THAT'S WHAT HOMESCHOOLING ACCOMPLISHED! For over fifteen years, David and

Micki Colfax educated their children at home. They don't think of themselves as pioneers, though that's what they became. Unhappy with the public schools, the Colfaxes wanted the best education possible for their four sons: a program for learning that met the evolving needs of each child and gave them complete control of how and what their children learned. The results? A prescription for excellence—Harvard educations for their sons Grant, Drew, and Reed. (Their fourth son is still too young for college.) Now the Colfaxes tell how all parents can become involved in homeschooling. In a straight-talking book that reads like a frank conversation among friends, they tell what they did and how they did it: their educational approaches, the lessons they learned, and what materials—books, equipment, educational aids—proved most useful over the years. Best of all, they show you how you can take charge of your children's education—in an invaluable sourcebook that will help you find a rewarding and successful alternative to our failing schools.

In this unit you can play games that Russian children have been playing for centuries, make a cosmonaut craft of the Baikonur Cosmodrome in Kazakhstan, craft a lapbook of the history of science, and try your hand at some real watercolor painting projects. There are dozens of projects to choose from in Unit 3-10. In each unit you'll find a recommended library list, important background information about each topic, lots of activities to choose from for kids of all ages, and sidebars with a bunch more ideas including Additional Layers, Fabulous Facts, On The Web, Writer's Workshop, Famous Folks, and Teaching Tips. Printable maps and worksheets are included at the end of each unit and may be printed as often as needed for your family or class.

A Practical Application of Charlotte Mason's Philosophy for Today

 It's not easy being a homeschooling parent today. Educating one's children is a huge responsibility. There seem to be more "answers" than there are questions! Everyone has a textbook, a method, or a philosophy. But how are we supposed to figure out just what path to take? For more than 25 years, Sherry Hayes, the homeschooling mother of 15 children, has been asking these same questions about education. During her own journey, she has read books and research by the most insightful and influential homeschooling leaders such as Dr. Raymond and Dorothy Moore, Ruth Beechick, Charlotte Mason, John Taylor Gatto, and many more. They were true pioneers of the current homeschool movement and all were dedicated to the welfare of children and their families. But how do we implement these ideals? Sherry's heart was burdened with the realization that there were many others just like her that were seeking a way to simplify their homeschooling into a

coherent system which made room for individual personality and gifts, but at the same time gave each child structure as well as discipline. She came to realize that the modern educational systems and methods are strangely unique in our human history, and have failed us abysmally. Never before have we had so much knowledge at our fingertips, and yet, the literacy rates of our nation's school systems are at an all-time low. Despite the fact that we live in the information age; the divorce, homicide and suicide rates are at all-time highs. Our children face greater challenges today than we would have ever dreamed; nevertheless, many don't have the tools to handle these new demands and pressures. It is time we threw out the progressive educational philosophies and ideologies which have lead us here. We need to turn back the clock and promote the fear of God which is the beginning of wisdom. We must revive the unswerving Christian devotion that used to be lived out by our predecessors before the present narcissistic influence of humanism took over! We can

rediscover the tools of learning that helped our forefathers overcome the great obstacles of their time, that have only recently been replaced by "dumbed-down" work texts and worthless statistics which require no higher thinking on the part of young learners. Homeschool Sanity: a Practical Guide to Redemptive Home Educating is Sherry's attempt to communicate a way back to common sense learning. It is a pathway back to the simplicity and joy of gaining the knowledge born out of reverence for the God of the Bible. It is a journey filled with the grace and truth of Jesus Christ. This book is easy to read. Even if one only has time for perusing, something useful and encouraging will be gleaned. To learn more visit Sherry's blog Large Family Mothering at: <http://largefamilymothering.com/>. This wonderful book is full of engaging graphics, helps, charts, templates and resources. Even the busiest mother will be able to breathe a sigh of relief as she reads just how easy it is to give her children an education that will be a blessing to them for the rest of their lives! Here is a small portion of

 No fancy psycho-anything here. Sherry has rediscovered precisely why things used to work, and why they are so very broken today. She hopes to lead the way into a fresh effort to bring back the best of the past in order to prepare our children for the best possible future. Readers will discover a catalog of successful methodologies for their own re-education. You will not feel tired and anxious after you read this book; you will be refreshed and filled with real hope!
