 The Globus Toolkit is a key technology in Grid Computing, the exciting new computing paradigm that allows users to share processing power, data, storage, and other computing resources across institutional and geographic boundaries. Globus Toolkit 4: Programming Java Services provides an introduction to the latest version of this widely acclaimed toolkit. Based on the popular web-based The Globus Toolkit 4 Programmer's Tutorial, this book far surpasses that document, providing greater detail, quick reference appendices, and many additional examples. If you're making the leap into Grid Computing using the Globus Toolkit, you'll want Globus Toolkit 4: Programming Java Services at your side as

you take your first steps. Written for newcomers to Globus Toolkit, but filled with useful information for experienced users. Clearly situates Globus application development within the context of Web Services and evolving Grid standards. Provides detailed coverage of Web Services programming with the Globus Toolkit's Java WS Core component. Covers basic aspects of developing secure services using the Grid Security Infrastructure (GSI). Uses simple, didactic examples throughout the book, but also includes a more elaborate example, the FileBuy application, that showcases common design patterns found in Globus applications. Concludes with useful reference appendices.

FRONT COVER Top: Louis "Lepke" Buchalter, gangster, responsible, as head of "Murder Inc.," for up to 700 contract killings. Highest-ranking mobster ever to die in the electric chair. Crude; lacks refinement. Bottom: Russian-Jewish "gangster capitalists" Vladimir Gusinsky (left) and Boris Berezovsky (right) drink to the "free market" (an economic fad) after scooping up trillions of dollars worth of natural resources for pennies on the dollar in crooked "privatization" schemes with copious assistance from Chechen gunmen and assassins, destroying the economy of the country, reducing over a hundred million people to abject poverty, with a crash in the birth rate, mass homelessness, hundreds of thousands of suicides, murders, "disappearances" and premature deaths through malnutrition and alcohol poisoning. Much better.

PROVEN STRATEGIES FOR APPLYING PROGRAM MANAGEMENT TECHNIQUES TO PUBLIC SECTOR PERFORMANCE

MANAGEMENT Government Program Management examines ongoing global reforms in public-sector program design and management and explains how to deliver public-sector programs in response to these reforms. A new, generic program management model--essential for government executives, program managers, and legislative leaders--is presented. The new model addresses various dysfunctional forces, many of them global in scale, that inhibit public programs from achieving their intended benefits and outcomes. This in-depth resource discusses broad reforms that fundamentally alter government agency structure, performance reporting and budgeting, composition, and roles and functions. The book also looks at targeted reforms affecting individual programs, covering concept, planning, design, delivery, cost control, and performance reporting. Best practices from both the public and private sectors are covered in this pioneering guide. Government Program Management covers: Forces for change in government program management: impacts of the new public management theory Problems and issues in public program performance and benefits management Agency performance and program management developments in the United States Applying the industry standard for program management according to the Project Management Institute to public agencies and programs The program management office in the public sector Government workforce changes and implications for program management Public program leadership developments Global models and benchmarks for program management: new public management concepts Models for future programs Case study: a national digital health information system in the United States The special problem of networked and intergovernmental programs

Recommendations for changing public program management structure, systems, and processes in the United States beginning with the president [Gifted Tongues](#) Packt Publishing Ltd Learning to argue and persuade in a highly competitive environment is only one aspect of life on a high-school debate team. Teenage debaters also participate in a distinct cultural world--complete with its own jargon and status system--in which they must negotiate complicated relationships with teammates, competitors, coaches, and parents as well as classmates outside the debating circuit. In *Gifted Tongues*, Gary Alan Fine offers a rich description of this world as a testing ground for both intellectual and emotional development, while seeking to understand adolescents as social actors. Considering the benefits and drawbacks of the debating experience, he also recommends ways of reshaping programs so that more high schools can use them to boost academic performance and foster specific skills in citizenship. Fine analyzes the training of debaters in rapid-fire speech, rules of logical argumentation, and the strategic use of evidence, and how this training instills the core values of such American institutions as law and politics. Debates, however, sometimes veer quickly from fine displays of logic to acts of immaturity--a reflection of the tensions experienced by young people learning to think as adults. Fine contributes to our understanding of teenage years by encouraging us not to view them as a distinct stage of development but rather a time in which young people draw from a toolkit of both childlike and adult behaviors. A well-designed debate program, he concludes, nurtures the intellect while providing a setting in which teens learn to make better behavioral choices, ones that will shape relationships in their personal, professional, and civic lives.

Yukie Sakai is a sprightly young home health aide eager to help her elderly clients. But what seems like a straightforward job quickly turns into a series of increasingly surreal and bizarre adventures that put Yukie's wits to the test! Cartoonist Kago, who is well known for combining a more traditional manga style with hyper realistic illustration technique, an experimental visual storytelling approach, and outrageously sexual and scatological subject matter, has single-handedly created his own genre: "fashionable paranoia."

This book helps advance process safety in a key area of interest. Currently, no literature exists which is solely dedicated to process safety for the bioprocessing industry. There are texts, guidelines, and standards on biosafety at the laboratory level and for industrial hygiene, but no guidelines for large-scale production facilities. In fact, biosafety is largely defined as a field that promotes safe laboratory practices, procedures and use of containment equipment and facilities. Additionally, biomedical engineers, biologists, or other professionals without chemical engineering training or knowledge of inherently safe design are designing many of these facilities.

Lucius Tarquinius Superbus over took the Roman throne after the assassination of King Servius Tullius the sixth King of Rome, as soon as his grip firmed by the power of his bloodied sword; he began taking out his enemies and all those loyal to King Tullius, Tarquinius became the seventh King of the Roman Kingdom, its people suffered during his reign under the forces of tyranny, injustice and corruption. The revolution sparked a wave of anger amongst citizens across the Kingdom after Sextus the King's son raped the noble woman Lucretia, causing the fall of the last Roman Kingdom in 509 BC. And the salvation of its citizens by the hands of a pimp called ETERLIMUS.

Cobblestone streets leading to perfectly preserved historic homes. Intricate wrought-iron gates opening to lush, fragrant gardens. A skyline of steeples and a river harbor bustling with schooners and sailboats. Charleston is one of America's most charming cities. In vibrant watercolors and detailed sketches, artist Diana Gessler captures the beauty and riches that make Charleston so unique: White Point Gardens, the Spoleto Festival, Rainbow Row, Waterfront Park, Fort Moultrie, the beaches of Sullivan's Island, sumptuous Lowcountry cuisine, and handmade sweetgrass baskets. Full of fascinating details--on everything from the art of early entertaining, the city's inspired

architectural and garden designs, and George Washington's Southern tour to famous Charlestonians and the flags of Sumter--Very Charleston celebrates the city, the Lowcountry, the people, and our history. Hand-lettered and full color throughout, Very Charleston includes maps, an index, and a handy appendix of sites. With her cheerful illustrations and love for discovering little-known facts, Diana Gessler has created both an entertaining guide and an irresistible keepsake for visitors and Charlestonians alike.

Poetry Speaks features the work of the most influential writers in modern poetry-written and performed-from 1892 to 1997. This book combines their most significant poems in print with the authors themselves reading their poetry on audio CD. Poets range from Alfred, Lord Tennyson, Walt Whitman, T.S. Eliot and Dorothy Parker to Langston Hughes, Allen Ginsberg, Sylvia Plath and Gwendolyn Brooks. The power of spoken poetry is at the heart of Poetry Speaks. Poetry is a vocal art, an art meant to be read aloud. Listening to a poem read aloud can be a transforming experience. Poetry Speaks not only introduces the finest work from some of the greatest poets who ever lived, it reintroduces the oral tradition of poetry. Poetry Speaks features over 40 poets in chapters each containing: - The poems that are read by the poet on the audio CD - Additional poems in print form to allow the reader to further explore the poet - A short biography and photo of each poet - Original manuscripts and letters for most of the featured poets - An original essay for each poet written by today's most influential poets, a veritable Who's Who of poetry, including: Seamus Heaney on W.B. Yeats; Richard Wilbur on Robert Frost; Mark Strand on Wallace Stevens; Jorie Graham on Elizabeth Bishop; Glyn Maxwell on Dylan Thomas; and Rita Dove on Melvin B. Tolson. Poetry Speaks-combining the talents of great poets past and living, their words written and spoken-is the most ambitious, comprehensive and innovative poetry project to be published in years, and is sure to be the model for collections to come.

In this, his fourth big cookbook, the award-winning chef John Besh takes another deep dive into the charm and authenticity of creole cooking inspired by his hometown, New Orleans. Besh Big Easy: 101 Home-Cooked New Orleans Recipes, is a fresh and delightful new look at his signature food. Besh Big Easy will feature all new recipes and easy dishes, published in a refreshing new flexibound format and accessible to cooks everywhere. Much has changed since Besh wrote his bestselling My New Orleans in 2009. His restaurant empire has grown from two to twelve acclaimed eateries, from the highly praised Restaurant August to the just

opened farm-to-table taqueria, Johnny Sanchez. John's television career has blossomed as well. He's become known to millions as host of two national public television cooking shows based on his books and of Hungry Investors on Spike TV. Besh Big Easy is dedicated to accessibility in home cooking and Orleans cuisine. "There's no reason a good jambalaya needs two dozen ingredients," John says. In this book, jambalaya has less than ten, but sacrifices nothing in the way of flavor and even offers exciting yet simple substitutions. With 101 original, personal recipes such as Mr. Sam's Stuffed Crabs, Duck Camp Shrimp & Grits, and Silver Queen Corn Pudding, Besh Big Easy is chock-full of the vivid personality and Louisiana flavor that has made John Besh such a popular American culinary icon. Happy eating!
