Dante brings the legendary author—and the medieval Italy of his era—to vivid life, describing the political intrigue, battles, culture, and society that shaped his writing. Dante Alighieri's *Divine Comedy* has defined how people imagine and depict heaven and hell for over seven centuries. However, outside of Italy, his other works are not well known, and less

still is generally known about the context he wrote them in. In Dante, Barbero brings the legendary author's Italy to life, describing the political intrigue, battles, city and society that shaped his life and work. The son of a shylock who dreams of belonging to the world of writers and nobles, we follow Dante into the dark corridors of politics where ideals are shattered by rampant corruption, and then into exile as he travels Italy and discovers the extraordinary color and variety of the countryside, the metropolises, and the knightly courts. This is a book by a serious scholar with real popular appeal, as evidenced by its bestseller ranking in Italy. It is a remarkable piece of forensic investigation into medieval Italian life.

This classic survey of Italian Baroque art and architecture focuses on the arts in every center between Venice and Sicily in the early, high, and late Baroque periods. The heart of the study, however, lies in the architecture and sculpture of the exhilarating years of Roman High Baroque, when Bernini, Borromini, and Cortona were all at work under a series of enlightened popes. Wittkower's text is now accompanied by a critical introduction and substantial new bibliography. This edition will also include color illustrations for the first time. This is the first book in the three volume survey.

This book explores the relationships between education, lifelong learning and democratic citizenship. It emphasises the importance of the democratic quality of the processes and practices that make up the everyday lives of children, young people and adults for their ongoing formation as democratic citizens. The book combines theoretical and historical work with critical analysis of policies and wider developments in the field of citizenship education and civic learning. The book urges educators, educationalists, policy makers and politicians to move beyond an exclusive focus on the teaching of citizenship towards an outlook that acknowledges the ongoing processes and practices of civic learning in school and society. This is not only important in order to understand the complexities of such learning. It can also help to formulate more realistic expectations about what schools and other educational institutions can contribute to the promotion of democratic citizenship. The book is

Dalle popolazioni prenuragiche ai temibili guerrieri Shardana: la storia dei primi dominatori dell'isola più misteriosa del Mediterraneo La Sardegna è senza dubbio l'isola più misteriosa del Mediterraneo. Abitata da tempo immemore, è stata patria di commercianti intraprendenti e di guerrieri formidabili, la cui cultura rimane però ancora avvolta da un fitto alone di incertezza. Esistono numerose testimonianze storiografiche e artistiche che parlano degli antichi abitanti della Sardegna, tra i quali spiccano i temibili Shardana, i guerrieri del mare che impressionarono l'antico Egitto al punto da spingere il faraone Ramsete II a volerli nella sua guardia personale. Ma quali erano i loro costumi? E chi venne prima di

loro? Pierluigi Serra ripercorre le tappe della civiltà umana in Sardegna, dalle popolazioni prenuragiche alla colonizzazione romana, tra domus de janas e pozzi sacri, in cerca di quei popoli che la Storia sembra voler nascondere, ma di cui la leggenda ci ha portato il ricordo. Un viaggio appassionante attraverso le epoche, alla ricerca di una civiltà perduta. Tra gli argomenti trattati: Mont'e Prama, il luogo degli eroi Sardegna ed Egitto: un legame antico Il mito di Sisara L'incubazione rituale Il popolo dei costruttori Una risata tutta sarda Pierluigi Serra È nato a Cagliari nel 1960. Giornalista e autore, ha collaborato con diverse testate giornalistiche, scritto per antologie e riviste e ha realizzato documentari per la televisione. Si occupa da diversi anni di esoterismo e dei fenomeni legati alla magia e alla spiritualità. Attualmente scrive per il quotidiano «L'Unione Sarda» nella pagina della cultura. Caspar David Friedrich and the Subject of Landscape Springer Science & Business Media
The most important study of Charlemagne in a generation, this biography by

distinguished medievalist Alessandro Barbero illuminates both the man and the world in which he lived. Charles the Great—Charlemagne—reigned from a.d. 768 to a.d. 814. At the time of his death, his empire stretched across Europe to include Bavaria, Saxony, parts of Spain, and Italy. With a remarkable grasp of detail and a sweeping knowledge of Carolingian institutions and economy, Barbero not only brings Charlemagne to life with accounts of his physical appearance, tastes and habits, family life, and ideas and actions but also conveys what it meant to be king of the Franks and, later, emperor. He recounts how Charlemagne ruled his empire, kept justice, and waged wars. He vividly describes the nature of everyday life at that time, how the economy functioned, and how Christians perceived their religion. Barbero's absorbing analysis of how concepts of slavery and freedom were subtly altered as feudal relations began to grow underscores the dramatic changes that the emperor's wars brought to the political landscape. Engaging and informed by deep scholarship, this latest account provides a new and richer context

for considering one of history's most fascinating personalities.

Modellizzazione di profili interpretativi. Il contenuto del libro si estende in modo poco conforme al regolare sviluppo argomentativo tipico della scrittura. Questo perché col fine di sottolineare e evidenziare informazioni ritenute importanti, in molti casi il periodo resta spezzato portando a capo le parole della

frase apparentemente interrotta. Sono presenti elencazioni numerate - talvolta brutalmente - riassuntive di informazioni pregresse. Esse possono risultare utili alla semplificazione e alla veloce comprensione del discorso. Esse trattano degli aspetti comunicativi delle opere verificando la produzione di segni, la loro sintassi, i significati principali e quelli che emergono da una valutazione più approfondita del contesto. I titoletti sono riassuntivi in poche parole dei concetti, semplici informazioni o porzioni di contenuto a seguire. Anche i titoletti dei singoli concetti talvolta restano incompiuti e continuano nel tioletto successivo. Masonry constructions are the great majority of the buildings in Europe's historical centres and the most important monuments in its architectural heritage and the demand for their safety assessments and restoration projects is pressing and constant. Nevertheless, there is a lack of a widely accepted approach to studying the statics of masonry structures. This book aims to help fill these gaps by presenting a new comprehensive, unified theory of statics of masonry constructions. The book, result of thirty years of research and professional experience, through an interdisciplinary approach combining engineering, architecture, advances from the simple to the complex and analyses statics of a large variety of masonry constructions, as arches, domes, cross and cloister vaults, piers, towers, cathedrals and buildings under seismic actions.

The Fantastic Flying Journey BRILL

Every era has invented a different idea of the 'classical' to create its own identity. Thus the 'classical' does not concern only the past: it is also concerned with the present and a vision of the future. In this elegant new book, Salvatore Settis traces the ways in which we have related to our 'classical' past, starting with post-modern American skyscrapers and working his way back through our cultural history to the attitudes of the Greeks and Romans themselves. Settis argues that this obsession with cultural decay, ruins and a 'classical' past is specifically European and the product of a collective cultural trauma following the collapse of the Roman Empire. This situation differed from that of the Aztec and Inca empires whose collapse was more sudden and more complete, and from the Chinese Empire which always enjoyed a high degree of continuity. He demonstrates how the idea of the

'classical' has changed over the centuries through an unrelenting decay of 'classicism' and its equally unrelenting rebirth in an altered form. In the Modern Era this emulation of the 'ancients' by the 'moderns' was accompanied by new trends: the increasing belief that the former had now been surpassed by the latter, and an increasing preference for the Greek over the Roman. These conflicting interpretations were as much about the future as they were about the past. No civilization can invent itself if it does not have other societies in other times and other places to act as benchmarks. Settis argues that we will be better equipped to mould new generations for the future once we understand that the 'classical' is not a dead culture we inherited and for which we can take no credit, but something startling that has to be re-created every day and is a powerful spur to understanding the 'other'.
