 A valuable new edition of a standard reference The use of statistical methods for categorical data has increased dramatically, particularly for applications in the biomedical and social sciences. An Introduction to Categorical Data Analysis, Third Edition summarizes these methods and shows readers how to use them using software. Readers will find a unified generalized linear models approach that connects logistic regression and loglinear models for discrete data with normal regression for continuous data. Adding to the value in the new edition is: • Illustrations of the use of R software to perform all the analyses in the book • A new chapter on alternative methods for categorical data, including smoothing and regularization methods (such as the lasso), classification methods such as linear discriminant analysis and classification trees, and cluster analysis • New sections in many chapters introducing the Bayesian approach for the methods of that chapter • More than 70 analyses of data sets to illustrate application of the methods, and about 200 exercises, many containing other data sets • An appendix showing how to use SAS, Stata, and SPSS, and an appendix with short solutions to most odd-numbered exercises Written in an applied, nontechnical style, this book illustrates the methods using a wide variety of real data, including medical clinical trials, environmental questions, drug use by teenagers, horseshoe crab mating, basketball shooting, correlates of happiness, and much more. An Introduction to Categorical Data Analysis, Third Edition is an invaluable tool for statisticians and biostatisticians as well as methodologists in the social and behavioral sciences, medicine and public health, marketing, education, and the biological and agricultural sciences.

Physical movement has a positive effect on physical fitness, morbidity, and mortality in individuals with diabetes. Although exercise has long been considered a cornerstone of diabetes management, many health care providers fail to prescribe it. In addition, many fitness professionals may be unaware of the complexities of including physical activity in the management of diabetes. Giving patients or clients a full exercise prescription that take other chronic conditions commonly accompanying diabetes into account may be too time-consuming for or beyond the expertise of many health care and fitness professionals. The purpose of this book is to cover the recommended types and quantities of physical activities that can and should be undertaken by all individuals with any type of diabetes, along with precautions related to medication use and diabetes-related health complications. Medications used to control diabetes should augment lifestyle improvements like increased daily physical activity rather than replace them. Up until now, professional books with exercise information and prescriptions were not timely or interactive enough to easily provide busy professionals with access to the latest recommendations for each unique patient. However, simply instructing patients to "exercise more" is frequently not

motivating or informative enough to get them regularly or safely active. This book is changing all that with its up-to-date and easy-to-prescribe exercise and physical activity recommendations and relevant case studies. Read and learn to quickly prescribe effective and appropriate exercise to everyone.

Sejarah pendidikan Islam merupakan cabang ilmu pengetahuan yang membahas tentang pertumbuhan dan perkembangan pendidikan Islam, baik dari segi konsep, ide, maupun lembaga penyelenggaranya. Berfokus pada kajian sejarah, objek dalam studi ini sama seperti kajian sejarah lainnya, yakni terdapat ruang dan waktu yang merupakan bagian penting dari penelitian sejarah. Pendidikan Islam berperan sebagai objek yang diteliti dengan bertumpu pada runtutan peristiwa atau kejadian yang ditulis menjadi suatu rangkaian kisah berdasarkan periode tertentu. Berbeda dengan buku sejenis, Sejarah Pendidikan Islam mengkaji sejarah pasang surutnya pendidikan Islam berdasarkan perkembangan Islam itu sendiri. Tidak hanya melihat perkembangan pendidikan Islam di dunia, namun di dalamnya juga dipaparkan secara komprehensif mengenai kondisi pendidikan Islam di Indonesia sejak masa kerajaan Islam, kolonial hingga reformasi. Selain itu, buku ini semakin kaya dengan adanya pengetahuan tambahan berupa informasi mengenai profil lembaga perguruan tinggi Islam tertua di dunia dan Indonesia, serta lembaga pendidikan pondok pesantren tertua di Jawa. "He had a very menacing evil grin, as though he were relishing every moment of my suffering . . . I knew he was a dangerous combination of intelligence and ingenuity and he would be angry at my conversion to Christianity." Shari Hadley had been a committed, enthusiastic Wiccan for several years when her husband suddenly died in a violent car crash. That day, a visit from a Christian chaplain prompted a series of events that gradually led her to give her life to Christ. Hadley's journey, however, did not end with her kneeling at an altar and receiving baptism. The more she grew in her relationship with Christ, the more the supernatural terrorized her. But her path of discipleship led her to freedom in Christ, defeating the suffocating grip of oppression in her life. Follow Hadley along her path to freedom and learn how you, too, can be free from sin's damaging control. Shari Y.S. Hadley, MSW, LCSW was raised in the beautiful Ozarks Mountain Country of Southwest Missouri. She earned a Bachelor of Science in psychology from Southwest Baptist University and a Master of Social Work from Missouri State University. She is a licensed clinical social worker and works as a hospice social worker and as the bereavement coordinator for Citizens Memorial Healthcare Hospice. Shari also teaches at Bolivar Technical College and is an accomplished public speaker. Shari is a member of the Association of Death Education and Counseling (ADEC), National Association of Social Workers (NASW) and National Association of Christian Social Workers (NACSW). She is working toward her Fellow in Thanatology. Routledge

Geography does not mean description of the earth's surface. Many changes have occurred due to external and internal forces. Out of these forces many types, micro-organisms and macro-organisms play an important role of all biological elements on this earth, man is the most important creature, and he is the most intelligent of all the living beings. Man has used natural resources for his needs and welfare. All the necessities for the living things are satisfied from natural environment. He has used natural resources according to his needs, sometimes, adapted his living according to natural laws of the earth while at times he has used it by his own will, thus without submitting to the nature.

JavaScript merupakan bahasa skript populer yang dipakai untuk menciptakan halaman Web yang dapat berinteraksi dengan pengguna dan dapat merespon event yang terjadi pada halaman. JavaScript merupakan perekat yang menyatukan halaman-halaman Web. Akan sangat susah menjumpai halaman Web komersial yang tidak memuat kode JavaScript. JavaScript, awalnya dikenal sebagai LiveScript, dikembangkan oleh Brendan Eich di Netscape pada tahun 1995 yang menjadi bagian terintegrasi di dalam Netscape Navigator 2.0. JavaScript merupakan bahasa skript yang menghidupkan halaman-halaman HTML. JavaScript dapat dijalankan pada hampir semua platform. JavaScript merupakan bahasa sisi-klien yang didesain pada browser komputer Anda, bukan pada server. Ia dibangun secara langsung ke dalam browser, Microsoft Internet Explorer, Mozilla Firefox, Google Chrome, Opera, hampir semua browser. Dalam sintaksis, JavaScript mirip dengan C, Perl, dan Java. Program JavaScript dipakai untuk mendeteksi dan beraksi terhadap event-event yang disebabkan oleh pengguna. Anda dapat memperbaiki situs Web dengan bantuan navigasional, kotak dialog, citra dinamis, dan lainnya. JavaScript dapat digunakan untuk mengendalikan tampilan halaman. JavaScript dipakai untuk memvalidasi apa yang diketikkan pengguna ke dalam sebuah form sebelum pengiriman form ke server dilakukan. JavaScript berperan sebagai bahasa pemrograman, yang memiliki konstruksi-konstruksi dasar seperti variabel dan tipe data, look kontrol, statemen if/else, statemen switch, fungsi, dan objek. JavaScript dapat dipakai untuk perhitungan aritmatik, pemanipulasian tanggal dan waktu, pemodifikasian array, string dan objek. Ia juga dapat menangani event yang diinisiasi pengguna, dan menetapkan pewaktu. Kombinasi dari HTML, CSS, dan JavaScript dapat menghasilkan halaman Web yang terstruktur, bergaya, dan interaktif. Para perancang Web sepakat bahwa ketiganya merupakan bagian penting dari sebuah halaman Web. Topik-topik yang dibahas pada buku ini meliputi: Sejarah JavaScript; Tipe Data; Literal, dan Variabel; Kotak Dialog; Operator; Kondisi; Fungsi; Objek; Objek Inti JavaScript; Objek Browser; Form; Citra dan Link; Penanganan Event; CSS dan JavaScript.
