Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before

escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children

from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

Equally engaged with social and political histories, and the history of art, Colescott, Marshall, and Thomas have created works that at times poignantly and satirically critique dominant narratives and posit alternatives. By considering these artists together, this

thought-provoking book expands our understanding of contemporary history painting, a genre first defined during the 17th century and known for didactic paintings that often depicted Biblical or mythological subjects, and expressed the tastes and narratives of a ruling class. Colescott, Marshall, and Thomas marry appreciation of these traditional forms of representation to a deep understanding of contemporary American culture to create insightful works that disrupt historic narratives and read against the grain. *The Soundscape of Modernity* Que Publishing For students enrolled in Fixed Income Securities Courses or

Bond Markets Courses. An applied approach to understanding bond markets. Through its applied approach, Fabozzi's Bond Markets prepares students to analyze the bond market and manage bond portfolios without getting bogged down in the theory. This edition has been streamlined and updated with new content, and features overall enhancements based on previous editions' reader and instructor feedback.

Penguin

This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer

science to biology.

Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems.

Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L

systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L. Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G.

Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

An illuminating collection of work by members of the Religious Society of Friends. Covering nearly three centuries of religious development, this comprehensive anthology brings together writings from prominent Friends that illustrate the development of Quakerism, show the nature of Quaker spiritual life, discuss Quaker contributions to European and American civilization, and introduce the diverse community of Friends, some of whom are little remembered even among Quakers

today. It gives a balanced overview of Quaker history, spanning the globe from its origins to missionary work, and explores daily life, beliefs, perspectives, movements within the community, and activism throughout the world. It is an exceptional contribution to contemporary understanding of religious thought. Hip Hop in American Cinema examines the manner in which

American feature films have served as the primary medium for mainstreaming hip hop culture into American society. With their glamorizing portrayals of graffiti writing, break dancing, rap music, clothing, and language, Hollywood movies have established hip hop as a desirable youth movement. This book demonstrates how Hollywood studios and producers have exploited the profitable connection among rappers, soundtracks, and mass audiences. Hip Hop in American Cinema offers valuable information for courses in film studies, popular culture, and American studies.

If you're a parent of one of the more than one million children in this country with obsessive-compulsive disorder, you know how confusing, even frightening, the symptoms of OCD can be. You're terrified of losing your child and angry about the havoc this disorder has wreaked in your family. More than anything, you want to be able to unlock the secrets of

OCD, understand the cause of your child's bizarre symptoms, and help your child break free of these disruptive, relentless thoughts and actions. In her landmark book, *Freeing Your Child from Obsessive-Compulsive Disorder*, Dr. Tamar E. Chansky creates a clear road map to understanding and overcoming OCD based on her successful practice treating hundreds of children and teenagers with this disorder. In Part I, Dr. Chansky "cracks the code" of the peculiar rules and customs of OCD -- the handwashing, tapping, counting, and so forth. She explains how OCD is diagnosed, how to find the right therapist partner, and how to tailor treatment options to your child's

needs. You'll learn how powerful behavioral modification can be and when medication can help. In Part II, you'll learn how not to be pulled in by your child's debilitating rituals at home or at school, how to talk to your child about the "brain tricks" OCD causes, and how to create an effective OCD battle plan that will empower your child to "boss back" the OCD monster. You'll also learn how to cope in moments of crisis. Part III offers specific advice for how to help your child handle the most common manifestations of OCD such as fears of contamination, checking, getting things "just right," intrusive thoughts, and more. Part IV is an indispensable guide to

additional resources, including books, videos, organizations, and websites. Filled with Dr. Chansky's compassionate advice and inspiring words from the many children with OCD whom she has helped, this book will be your lifeline. Battling back from OCD is hard work, but with the comprehensive, proven guidance in this book, you can help your child reclaim a life free from its grip.

A Powerful, Life-Affirming New Perspective on the Holocaust Almost ninety children and grandchildren of Holocaust survivors—theologians, scholars, spiritual leaders, authors, artists, political and community leaders and

media personalities—from sixteen countries on six continents reflect on how the memories transmitted to them have affected their lives. Profoundly personal stories explore faith, identity and legacy in the aftermath of the Holocaust as well as our role in ensuring that future genocides and similar atrocities never happen again. There have been many books and studies about children of Holocaust survivors—the so-called second and third generations—with a psycho-social focus. This book is different. It is intended to reflect what they believe, who they are and how that informs what they have done and are doing with their lives. From

major religious or intellectual explorations to shorter commentaries on experiences, quandaries and cultural, political and personal affirmations, almost ninety contributors from sixteen countries respond to this question: how have your parents' and grandparents' experiences and examples helped shape your identity and your attitudes toward God, faith, Judaism, the Jewish people and the world as a whole? For people of all faiths and backgrounds, these powerful and deeply moving statements will have a profound effect on the way our and future generations understand and shape their understanding of

the Holocaust. Praise from Pope Francis for Menachem Rosensaft's essay reconciling God's presence with the horrors of the Holocaust: "When you, with humility, are telling us where God was in that moment, I felt within me that you had transcended all possible explanations and that, after a long pilgrimage—sometimes sad, tedious or dull—you came to discover a certain logic and it is from there that you were speaking to us; the logic of First Kings 19:12, the logic of that 'gentle breeze' (I know that it is a very poor translation of the rich Hebrew expression) that constitutes the only possible hermeneutic interpretation. "Thank you from my heart. And, please, do not

forget to pray for me. May the Lord bless you." —His Holiness Pope Francis
