Suspension
(Electronically
controlled air
suspension system)
ECAS is an
electronically
controlled air
suspension sys-tem for
vehicles with a large
number of functions. It
has been used on
motor vehicle since
about the early 80s. In
the mechanically
controlled air
suspension
systems ECAS for
Trailers - WABCO The

ECAS system will either
regulate the residual
pressure to remain on
the set value or freeze
the status of the ECAS
system. ECAS freeze
can also function
separately from the
residual pressure
value. There will be no
height, pressure or lift
axle control as long as
ECAS freeze is active.
