This book is structured with the aim of providing English teaching materials for the students of Management Department who study Business English in accordance with KKNI. These teaching materials are designed for national use and therefore lecturers throughout Indonesia can use them directly in the classroom or by adapting as needed and learning tasks are developed with the principles of the Communicative Approach to develop student competencies in all four language skills, namely listening, speaking, reading and writing. The learning material and assignments in this book are organized into two learning cycles, namely the oral cycle and the written cycle. The oral cycle emphasizes developing listening and speaking skills

using video-recording media through YouTube, and the writing cycle develops reading and writing skills. In accordance with the principle of cohesiveness in language learning, the two cycles develop all four language skills in an integrated manner. Both the oral cycle and the written cycle are composed of four types of learning activities, namely opening, exposure to the target language, explanation of the linguistic elements, and the practice of communicating in the target language in a guided or free manner. In addition, for the purpose of enrichment and evaluation, each unit is equipped with structured tasks in the form of homework and evaluation.

It is with great pleasure we introduce the proceeding of the 5th International Conference on Accounting, Management, and Economics (ICAME 2020) on The New Normal Economy. This conference has gathered researchers, academicians, and practitioners who are concerned with the topics, developing policy recommendations towards a better resilience amidst crises. The theme of the 5th International Conference on Accounting, Management, and Economics (ICAME 2020) was "The New Normal Economy: Risk-Based Decision Making in Economics, Management, and Accounting Perspectives". The sudden and rapid emergence of the New Normal Era, particularly in business industry forces various elements in the society to challenge the conventional, and universities as the higher education institutions are no exception. It poses challenges to universities to produce graduates with ability to respond to changes, compete globally, create innovations, and quickly adapt to the vast technology advancements. With this in mind, the 5th ICAME has taken the theme The New Normal Economy: Risk-Based Decision Making in Economics, Management, and Accounting Perspectives. The conference invited speakers from academic and business practitioners who are experts in their fields to share their insights related to business and research orientation in facing the New Normal Era. The conference also invited researchers, academicians, and practitioners to participate in the Call for Papers to share their research results. The organizer hopes that the conference can stimulate various new research and discussions about New-Normal Economy that can help society and business to navigate and adapt in this pandemic era.
