Parker is a wolf, a human-wolf hybrid to be precise. She is a young female alpha of the great Onyx pack, a pack that currently rules over all of the other surrounding packs. Parker is just fine living out her days normally with her two best human friends Harley and Ariel. They had become her pack. They were all she really wanted as a pack until her father goes behind her back and invites some new wolves into their school When Gage, Rowan, Brock, Dillon, and London walk into her life, she had no idea how fast things would change. Secrets and hidden pasts come out. Much needed goodbyes are said. She falls for the unexpected and just as they are about to announce their relationship and take it to the next level things quickly go downhill. Lies take hold as one young alpha male decides to take things into his own hands when he doesn't get his way. Everything quickly spins even farther out of control. Parker's true love and mate are suddenly miles away, taken to the Island, lost forever unless she can break free and rescue him. It takes her on a long journey, one where she meets some unexpected friends and Hunters who turn out to be completely different than what she had been taught as a young pup. With help from friends and family she will fight hard to break into the Island to free her love, but it's only the beginning of her fight to stay alive. When tragedy strikes, will Parker even want to continue on? Will someone pick her back up, or will she give up completely? Only she can decide. Excerpt: "That's usually the

way love goes, Parker. One day you hate them and the next you can't figure out a single reason why you stayed away for so long in the first place." - Derek
