Kenneth Winkler's deft abridgment of Locke's *Essay Concerning Human Understanding* includes generous selections from the *Essay*, topically arranged passages from the replies to *Stillingfleet*, a chronology, a bibliography, a glossary, and an index based on the entries that Locke himself devised. His insightful introduction provides the reader with both a historical and a philosophical context in which to assess Locke's masterwork.

The Sociology and Social Philosophy of Karl Marx Karl Marx Selected Writings

Throughout his career Stuart Hall engaged with Marxism in varying ways, actively rethinking it to address the political and cultural exigencies of the moment. This collection of Hall's key writings on Marxism surveys the questions central to his interpretations of and investments in Marxist theory and practice. It includes Hall's readings of canonical texts by Marx and Engels, Gramsci, and Althusser; his exchanges with other prominent thinkers about Marxism; his use of Marxist frameworks to theorize specific cultural phenomena and discourses; and some of his later work in which he distanced himself from his earlier attachments to Marxism. In addition, editor Gregor McLennan's introduction and commentary offer in-depth context and fresh interpretations of Hall's thought. *Selected Writings on Marxism* demonstrates that grasping Hall's complex relationship to Marxism is central to understanding the corpus of his work.

Mahdi Amel (1936–87) was a prominent Arab Marxist thinker and Lebanese Communist Party member. This first-time English translation of his selected writings sheds light on his notable contributions to the study of capitalism in a colonial context.

A Heterodox Marxist and His Century: Lelio Basso Createspace Independent Publishing Platform
 Letters, articles, and sections of books from the period 1834–47 reveal Marx's (1818–83) early thinking on the nature of religion, freedom of the press, the relation of the state to democracy, the humanistic critique of philosophical idealism, and other topics. Reprinted from the 1967 Doubleday edition because of renewed interest after the fall of the Soviet Union. Paper edition (unseen), \$12.95. Annotation copyrighted by Book News, Inc., Portland, OR

The book provides new vistas on Karl Marx's political economy, philosophy and politics on the occasion of his 200th birthday. Often using hitherto unknown material from the recently published Marx-Engels Gesamtausgabe (the MEGA2 edition), the contributions throw new light on Marx's works and activities, the sources he used and the discussions he had, correcting received opinions on his doctrines. The themes dealt with include Marx's concepts of alienation and commodity fetishism, the labour theory of value and the theory of exploitation, Marx's studies of capital accumulation and economic growth and his analysis of economic crises and of the labour contract. Novel developments in the reception of his works in France and the UK conclude the volume. This book was originally published as a special issue of *The European Journal of the History of Economic Thought*.

Lelio Basso was a major thinker and political leader of Italian socialism; his writings – translated for the first time – provide highly original contributions on anti-fascist struggles, and a rethinking of Marxism centred on Rosa Luxemburg, Italy's radical politics and internationalism.

Karl Marx BRILL

Karl Marx's *Communist Manifesto*, first printed just before the French revolution of 1848, is his most accessible and famous work. In his powerful call to arms, Marx expounds his famous theory that class struggle is the real determinant of historical change. Next in this volume comes his treatise, *Wages, Price and Profit*, written in 1865, which serves as an accessible introduction to the ideas which Marx went on to develop in *Capital*, his masterful analysis of how the world was irreversibly changed by the industrial revolution. This Macmillan Collector's Library edition contains the most salient extracts from his great work, selected and introduced by Hugh Griffith. Whilst old-style Marxism is now dead and buried, today's conflicts within capitalism are as sharp as ever and Marx's brilliant, painstaking writings remain disturbingly relevant.

(Applause Books). Groucho Marx was a comic genius who starred on stage and in film, radio, and television. But he was also a gifted writer the author of a play, two screenplays, seven books, and over 100 articles and essays. This newly expanded collection presents the best of Groucho's short comic pieces, written over a period of more than fifty years between 1919 and 1973 for the New York Times , the New Yorker , the Saturday Evening Post , Variety , the Hollywood Reporter , and other newspapers and magazines. Here is the one and only Groucho on his family, his days in vaudeville, his career, World War II, taxes, and other topics from his love of a good cigar to his chronic insomnia, from "Why Harpo Doesn't Talk" to "The Truth About Captain Spalding." The familiar irreverence, wordplay, and a dash of self-deprecation bring Groucho's wisecracking voice to life in these pages, firmly establishing him as one of the world's great humorists. Groucho Marx and Other Short Stories and Tall Tales (a title of Groucho's own choosing) is essential reading for Marx Brothers fans, and a hilarious and nostalgic trip through the twentieth century.

& Selected Writings Random House Trade

Karl Marx (1818-1883) is arguably the most famous political philosopher of all time, but he was also one of the great foreign correspondents of the nineteenth century. During his eleven years writing for the New York Tribune (their collaboration began in 1852), Marx tackled an abundance of topics, from issues of class and the state to world affairs. Particularly moving pieces highlight social inequality and starvation in Britain, while others explore his groundbreaking views on the slave and

opium trades - Marx believed Western powers relied on these and would stop at nothing to protect their interests. Above all, Marx's fresh perspective on nineteenth-century events encouraged his readers to think, and his writing is surprisingly relevant today. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Raya Dunayevskaya is hailed as the founder of Marxist-Humanism in the United States. After breaking with Leon Trotsky in 1939 and heading west, Dunayevskaya labeled Stalin's Russia a totalitarian state-capitalist society. In this new collection of her essays co-editors Peter Hudis and Kevin Anderson have crafted a work in which the true power and originality of Dunayevskaya's ideas are displayed.
