This elegant programming primer teaches K-12 students to code through more than 100 graded examples, each one illustrated in color. The second edition includes an appendix with a tutorial in CoffeeScript. Written by a computer scientist to teach his own children to program, the book is designed for inductive learning. The

illustrated programs come with no expository text. Instead, the sequence of projects introduce increasingly sophisticated concepts by example. Each one invites customization and exploration. The book begins by suggesting a simple program to draw a line. Subsequent pages introduce core concepts in computer science: loops, functions, recursion, input and output, numbers and text, and data structures. The more advanced material introduces concepts in randomness, animation, HTML5, jQuery, networking, and artificial intelligence.

Dearly Enchanted Lion Books

A new book of poetry from internationally acclaimed, award-winning and bestselling author Margaret Atwood In *Dearly*, Margaret Atwood's first collection of

poetry in over a decade, Atwood addresses themes such as love, loss, the passage of time, the nature of nature and - zombies. Her new poetry is introspective and personal in tone, but wide-ranging in topic. In poem after poem, she casts her unique imagination and unyielding, observant eye over the landscape of a life carefully and intuitively lived. While many are familiar with Margaret Atwood's fiction—including her groundbreaking and bestselling novels *The Handmaid's Tale*, *The Testaments*, *Oryx and Crake*, among others—she has, from the beginning of her career, been one of our most significant contemporary poets. And she is one of the very few writers equally accomplished in fiction and poetry. This collection is a stunning achievement that will be appreciated by fans of her novels and poetry readers alike.

In this delightful and witty novel, Laura Willowes rebels against pressure to be the perfect 'maiden aunt'. Not interested in men or the rushed life of London, Laura is forced to move there from her beloved countryside after the death of her father. Her relatives like dead things; they treasure stuffed animals and parade possible husbands ('suitable and likely undertakers', as Laura calls them) in front of Miss Willowes. Finally, Laura strikes out for the countryside on her own, selling her soul to an affable but rather simple-minded devil, and becomes a witch. First written in the 1920s, this book is timely and entertaining. It was the first selection of the Book-of-the-Month Club in 1926.
