## **ATKINSON AYERS**

Marxist Theories of  
Imperialism Spokesman  
Books

"Greek Imperialism" by  
William Scott Ferguson.  
Published by Good Press.  
Good Press publishes a  
wide range of titles that  
encompasses every  
genre. From well-known  
classics & literary fiction  
and non-fiction to  
forgotten—or yet  
undiscovered gems—of  
world literature, we issue  
the books that need to be  
read. Each Good Press  
edition has been  
meticulously edited and  
formatted to boost  
readability for all e-  
readers and devices. Our  
goal is to produce eBooks  
that are user-friendly and  
accessible to everyone in  
a high-quality digital  
format.

**Pulp Empire** University  
of Chicago Press  
A landmark work from the  
author of *Orientalism* that  
explores the long-  
overlooked connections  
between the Western  
imperial endeavor and the  
culture that both reflected  
and reinforced it. In the  
nineteenth and early  
twentieth centuries, as

the Western powers built  
empires that stretched  
from Australia to the West  
Indies, Western artists  
created masterpieces  
ranging from Mansfield  
Park to *Heart of Darkness*  
and *Aida*. Yet most  
cultural critics continue to  
see these phenomena as  
separate. Edward Said  
looks at these works  
alongside those of such  
writers as W. B. Yeats,  
Chinua Achebe, and  
Salman Rushdie to show  
how subject peoples  
produced their own  
vigorous cultures of  
opposition and resistance.  
Vast in scope and  
stunning in its erudition,  
*Culture and Imperialism*  
reopens the dialogue  
between literature and  
the life of its time.  
*Orientalism* Princeton  
University Press  
[In this book, the author's]  
analysis of the effects and  
causes of capitalist  
underdevelopment in  
Latin America present  
[an] account of ... Latin  
American history. [The  
author] shows how foreign  
companies reaped huge  
profits through their  
operations in Latin  
America. He explains the  
politics of the Latin  
American bourgeoisies  
and their subservience to  
foreign powers, and how  
they interacted to create  
increasingly unequal

capitalist societies in Latin  
America.-Back cover.  
*Imperialism* Abrams  
The last two hundred  
years have seen a  
massive increase in the  
size of the world economy  
and equally massive  
inequalities of wealth and  
power between different  
parts of the world. They  
have also witnessed the  
rise to dominance of the  
capitalist mode of  
production. Marxists, from  
Marx himself through to  
present day thinkers,  
have argued that these  
changes are profoundly  
interconnected. This book  
offers a unique account of  
Marxist theories of  
Imperialism. It has been  
fully updated and  
expanded to cover all the  
developments since its  
initial publication and will  
be essential reading for  
any student of Marxism.

An intimate and poignant  
graphic novel portraying

one family's journey from war-torn Vietnam, from debut author Thi Bui. This beautifully illustrated and emotional story is an evocative memoir about the search for a better future and a longing for the past. Exploring the anguish of immigration and the lasting effects that displacement has on a child and her family, Bui documents the story of her family's daring escape after the fall of South Vietnam in the 1970s, and the difficulties they faced building new lives for themselves. At the heart of Bui's story is a universal struggle: While adjusting to life as a first-time mother, she ultimately discovers what it means to be a parent—the endless sacrifices, the unnoticed gestures, and the depths of unspoken love. Despite how impossible it seems to take on the simultaneous roles of both parent and child, Bui pushes through. With haunting, poetic writing and breathtaking art, she examines the strength of family, the importance of identity, and the meaning of home. In what Pulitzer Prize-winning novelist Viet Thanh Nguyen calls "a book to break your heart and heal it," *The Best We Could Do* brings

to life Thi Bui's journey of understanding, and provides inspiration to all of those who search for a better future while longing for a simpler past.

**Imperialism** McDougal Littell/Houghton Mifflin The pamphlet here presented to the reader was written in the spring of 1916, in Zurich. In the conditions in which I was obliged to work there I naturally suffered somewhat from a shortage of French and English literature and from a serious dearth of Russian literature.

However, I made use of the principal English work on imperialism, the book by J. A. Hobson, with all the care that, in my opinion, work deserves. This pamphlet was written with an eye to the tsarist censorship. Hence, I was not only forced to confine myself strictly to an exclusively theoretical, specifically economic analysis of facts, but to formulate the few necessary observations on politics with extreme caution, by hints, in an allegorical language—in that accursed Aesopian language—to which tsarism compelled all revolutionaries to have recourse whenever they took up the pen to write a "legal" work. It is painful,

in these days of liberty, to re-read the passages of the pamphlet which have been distorted, cramped, compressed in an iron vice on account of the censor. That the period of imperialism is the eve of the socialist revolution; that social-chauvinism (socialism in words, chauvinism in deeds) is the utter betrayal of socialism, complete desertion to the side of the bourgeoisie; that this split in the working-class movement is bound up with the objective conditions of imperialism, etc.—on these matters I had to speak in a "slavish" tongue, and I must refer the reader who is interested in the subject to the articles I wrote abroad in 1914-17, a new edition of which is soon to appear. In order to show the reader, in a guise acceptable to the censors, how shamelessly untruthful the capitalists and the social-chauvinists who have deserted to their side (and whom Kautsky opposes so inconsistently) are on the question of annexations; in order to show how shamelessly they screen the annexations of their capitalists, I was forced to quote as an example—Japan! The careful reader will easily

substitute Russia for Japan, and Finland, Poland, Courland, the Ukraine, Khiva, Bokhara, Estonia or other regions peopled by non-Great Russians, for Korea. I trust that this pamphlet will help the reader to understand the fundamental economic question, that of the economic essence of imperialism, for unless this is studied, it will be impossible to understand and appraise modern war and modern politics.

**American History** NYU Press

Kwame Nkrumah **NEO-COLONIALISM THE LAST STAGE OF IMPERIALISM** This is the book which, when first published in 1965, caused such an uproar in the US State Department that a sharp note of protest was sent to Kwame Nkrumah and the \$25million of American "aid" to Ghana was promptly cancelled.

**Greek Imperialism** NYU Press

This book is an examination of national identity in a crucial period. The United States first announced its power on the international scene at the Centennial Exhibition in 1876 and first demonstrated that power during World War I. The years in between

were a period of dramatic change, when the dynamics of industrialization rapidly accelerated the rate at which Americans were coming in contact with foreign peoples, both at home and abroad. In this work, the author shows how American conceptions of peoplehood, citizenship, and national identity were transformed in these crucial years by escalating economic and military involvements abroad and by the massive influx of immigrants at home. Drawing upon a diverse range of sources, not only traditional political documents, but also novels, travelogues, academic treatises, and art, he demonstrates the close relationship between immigration and expansionism. By bridging these two areas, so often left separate, he rethinks the texture of American political life in a keenly argued and persuasive history. This book shows how these years set the stage for today's attitudes and ideas about "Americanism" and about immigrants and foreign policy, from Border Watch to the Gulf War.

**The Origin and Fundamentals of U.S.**

**World Dominanc**

Vintage

A milestone in the understanding of British history and imperialism, this ground-breaking book radically reinterprets the course of modern economic development and the causes of overseas expansion during the past three centuries. Employing their concept of 'gentlemanly capitalism', the authors draw imperial and domestic British history together to show how the shape of the nation and its economy depended on international and imperial ties, and how these ties were undone to produce the post-colonial world of today. Containing a significantly expanded and updated Foreword and Afterword, this third edition assesses the development of the debate since the book's original publication, discusses the imperial era in the context of the controversy over globalization, and shows how the study of the age of empires remains relevant to understanding the post-colonial world. Covering the full extent of the British empire from China to South America and taking a broad chronological view from the seventeenth century

to post-imperial Britain today, *British Imperialism: 1688–2015* is the perfect read for all students of imperial and global history.

**A Strategy of**

**Imperialism** *The Black Man's Burden*

This Elibron Classics title is a reprint of the original edition published by the Government Printing Office in Washington, 1903.

OUP Oxford

"Paul Hirsch's revelatory book opens the archives to show the complex relationships between comic books and American foreign relations in the mid-twentieth century. Scourged and repressed on the one hand, yet co-opted and deployed as propaganda on the other, violent, sexist comic books were both vital expressions of American freedom and upsetting depictions of the American id. Hirsch draws on previously classified material and newly available personal records to weave together the perspectives of government officials, comic-book publishers and creators, and people in other countries who found themselves on the receiving end of American culture"--

*Heart of Darkness*

Houghton Mifflin College Division

Adapted from the critically acclaimed chronicle of U.S. history, a study of American expansionism around the world is told from a grassroots perspective and provides an analysis of important events from Wounded Knee to Iraq, in a volume created in the format of a graphic novel. Simultaneous. 100,000 first printing.

**A Survey** McDougal

Littell/Houghton Mifflin

The classic, critical and humorous study of cultural imperialism and children's literature; how the Disney fantasy world reproduces the "American Dream" fantasy world, and the disastrous effect of Disney comics and other "mass" cultural merchandise on the development of the so-called "Third" World. In 1973 this work was banned and burned in Chile, and later the English edition was banned for more than a year by the US government. In comic book format with cartoon examples, introduction by David KUNZLE on the Disney world, a bibliography of left writings on cultural imperialism and the comics, and an appendix

by John Shelton

LAWRENCE on the book's US censorship and the legal-political issues involved in the right to criticize Disney.

concerned with the

political economy of

imperialism, John Smith's

*Imperialism in the*

*Twenty-First Century* is a

seminal examination of

the relationship between

the core capitalist

countries and the rest of

the world in the age of

neoliberal

globalization. Deploying a

sophisticated Marxist

methodology, Smith

begins by tracing the

production of certain

iconic commodities--the T-

shirt, the cup of coffee,

and the iPhone--and

demonstrates how these

generate enormous

outflows of money from

the countries of the Global

South to transnational

corporations

headquartered in the core capitalist nations of the Global North. From there, Smith draws on his empirical findings to powerfully theorize the current shape of imperialism. He argues that the core capitalist countries need no longer rely on military force and colonialism (although these still occur) but increasingly are able to extract profits from workers in the Global South through market mechanisms and, by aggressively favoring places with lower wages, the phenomenon of labor arbitrage. Meticulously researched and forcefully argued, *Imperialism in the Twenty-First Century* is a major contribution to the theorization and critique of global capitalism.

McDougal Littell World History: Patterns of Interaction W. W. Norton & Company

“Uncompromising and unconventional . . . Cornel West is an eloquent prophet with attitude.” —*Newsweek*“ West reveals himself as a thinker of dazzling erudition, whose critiques are inevitably balanced by an infectious optimism and magnanimity of spirit.” —*The Village Voice* In his major bestseller, *Race Matters*, philosopher

Cornel West burst onto the national scene with his searing analysis of the scars of racism in American democracy. *Race Matters* has become a contemporary classic, still in print after ten years, having sold more than four hundred thousand copies. A mesmerizing speaker with a host of fervidly devoted fans, West gives as many as one hundred public lectures a year and appears regularly on radio and television. Praised by *The New York Times* for his “ferocious moral vision” and hailed by *Newsweek* as “an elegant prophet with attitude,” he bridges the gap between black and white opinion about the country's problems. In *Democracy Matters*, West returns to the analysis of the arrested development of democracy—both in America and in the crisis-ridden Middle East. In a strikingly original diagnosis, he argues that if America is to become a better steward of democratization around the world, we must first wake up to the long history of imperialist corruption that has plagued our own democracy. Both our failure to foster peace in the Israeli-Palestinian

conflict and the crisis of Islamist anti-Americanism stem largely from hypocrisies in our dealings with the world. Racism and imperial expansionism have gone hand in hand in our country's inexorable drive toward hegemony, and our current militarism is only the latest expression of that drive. Even as we are shocked by Islamic fundamentalism, our own brand of fundamentalism, which West dubs Constantinian Christianity, has joined forces with imperialist corporate and political elites in an unholy alliance, and four decades after the murder of Dr. Martin Luther King, Jr., insidious racism still inflicts debilitating psychic pain on so many of our citizens. But there is a deep democratic tradition in America of impassioned commitment to the fight against imperialist corruptions—the last great expression of which was the civil rights movement led by Dr. King—and West brings forth the powerful voices of that great democratizing tradition in a brilliant and deeply moving call for the revival of our better democratic nature. His impassioned and provocative argument for the revitalization of America's democracy will

reshape the terms of the raging national debate about America's role in today's troubled world. Barbarian Virtues University of Chicago Press

In 221 bc the First Emperor of Qin unified the lands that would become the heart of a Chinese empire. Though forged by conquest, this vast domain depended for its political survival on a fundamental reshaping of Chinese culture. With this informative book, we are present at the creation of an ancient imperial order whose major features would endure for two millennia. The Qin and Han constitute the "classical period" of Chinese history--a role played by the Greeks and Romans in the West. Mark Edward Lewis highlights the key challenges faced by the court officials and scholars who set about governing an empire of such scale and diversity of peoples. He traces the drastic measures taken to transcend, without eliminating, these regional differences: the invention of the emperor as the divine embodiment of the state; the establishment of a common script for communication and a state-sponsored canon for

the propagation of Confucian ideals; the flourishing of the great families, whose domination of local society rested on wealth, landholding, and elaborate kinship structures; the demilitarization of the interior; and the impact of non-Chinese warrior-nomads in setting the boundaries of an emerging Chinese identity. The first of a six-volume series on the history of imperial China, The Early Chinese Empires illuminates many formative events in China's long history of imperialism--events whose residual influence can still be discerned today.

Oxford University Press

Since its publication in 1990, Critical Terms for Literary Study has become a landmark

introduction to the work of literary theory—giving tens of thousands of students an unparalleled encounter with what it means to do theory and criticism. Significantly expanded, this new edition features six new chapters that confront, in different ways, the growing understanding of literary works as cultural practices. These six new chapters are "Popular Culture," "Diversity," "Imperialism/Nationalism," "Desire," "Ethics," and "Class," by John Fiske, Louis Menand, Seamus Deane, Judith Butler, Geoffrey Galt Harpham, and Daniel T. O'Hara, respectively. Each new essay adopts the approach that has won this book such widespread acclaim: each provides a concise history of a literary term, critically explores the issues and questions the term raises, and then puts theory into practice by showing the reading strategies the term permits. Exploring the concepts that shape the way we read, the essays combine to provide an extraordinary introduction to the work of literature and literary study, as the nation's most distinguished scholars put the tools of critical practice vividly to

use.
