Advertising Art in the Art Deco Style

Courier Dover Publications

Arnold Schwartzman's stunning photographs of the finest examples of Art Deco from all over the world are collected here as a celebration of one of the world's most popular decorative styles. Art deco is the 20th century's most glamorous architectural style, and the one that shaped popular ideas of modern luxury. With over 200 photographs, this is a visual celebration of this very popular style. Unlike most other books on the subject that tend to be regionally specific, this book highlights Art Deco buildings from all

over the world, from Australia to South America, with an emphasis on London, Los Angeles, New York, Chicago, Miami, and Paris. Art Deco features much careful and exacting detail, and of special interest in this book are photos that zoom in on murals, mosaics, flooring, ironwork, and other ornamental flourishes. Art Deco began in 1925 and quickly swept the globe becoming the style epitomizing Jazz Age glamor and sophistication. It drew from a variety of influences including ancient Egyptian, Moorish, and Mayan motifs but also modernist movements like Cubism, Fauvism, and De Stijl. Its influence was felt everywhere, from the

skylines of New York to Shanghai, and it gained prominence not only with architects and designers but enjoyed a passionate following among the public as well.

Art Deco burst upon the world for a brief but unforgettable existence during the 1920s and 1930s. It embraced new media, such as the cinema and radio, as well as new forms of transport and the associated buildings, and above all brought a sense of luxury, fun and escapism to the world during some of the hardest times. Art Deco Architecture - The Inter War Period examines the sources and origins of the style from before the First World War. It offers an in-depth exploration of the origins, inspirations and political backdrop behind this popular style. Lavishly illustrated with images taken especially for the book, topics covered include: a worldwide

examination of the spread and usage of Art Deco; short biographical essays on architects and architectural practices; an in-depth examination of French architects and their output from this period; an introduction to stunning and little-known buildings from around the world and finally, the importance of World Fairs and Expositions in the spread of Art Deco. Will be of great interest to all architecture students and Art Deco enthusiasts and is lavishly illustrated with 299 colour photographs especially taken for the book. Mike Hope is an author, lecturer, curator and designer and tours extensively lecturing on architecture and design.

Art Nouveau Floral Ornament in Color
Courier Corporation
A revolutionary reaction to the eclectic historical styles of nineteenth-century art, the turn-of-the-century Art Nouveau movement drew much of its inspiration from nature. Applying its sinuous, curvilinear motifs to the decorative arts, graphics, architecture, sculpture, and painting, artists and crafters attempted to create a style suitable for a "modern" age. This treasury of rare Art Nouveau decorative ornaments offers an unusual selection of the genre's most strikingly imaginative graphics. Originally published in Paris in 1899 and sold by subscription, the collection features fifty

full-page plates depicting a rich profusion of everyday items rendered in the distinctive Art Nouveau style. Intricate patterns of flowers, vines, faces, and other designs decorate scores of objects made of metal, ceramic, and glass: pitchers and vases, cutlery, walking sticks, jewelry, and other objects and artifacts. A source of authentic Art Nouveau graphics, this compilation will serve as an inspiration for artists, illustrators, and designers.

 From the early twentieth century until the Communist takeover in 1949, Shanghai commercial artists created thousands of colorful posters and black and white advertisements that formed an essential part of modern life in the city. This visually appealing and richly illustrated work describes the origin and evolution of modern commercial art in China, focusing on colorful advertisement calendar posters that featured distinctive feminine images. It makes clear how essential commercial art and its institutional backing were to the development of modern art and even modern society in

China over the past century. *Selling Happiness* discusses not only advertising art but also the production and marketing of the calendar poster. These posters, like other advertisements, were rendered in a Western realistic technique and were wildly and widely popular. Ordinary people throughout China often acquired them to decorate their homes. Laing outlines how the Chinese commercial artist, who rarely attended formal Western art classes, gained skills in Western representational art. In the final chapter of the book, she explains how the styles developed by the commercial poster artists during the 1920s and 1930s became the basis for certain types of

propaganda art under the Chinese Communists in the 1950s and 1960s.
