Condition John Wiley &  
Sons  
Profiles of ... private  
and corporate  
foundations and direct  
corporate givers

receptive to library grant proposals.

**The Nonprofit Manager's Resource Directory**

International City/County Management Association(ICMA) With libraries under the gun to provide more and better services, and with fewer resources in many cases, they need to come up with innovative and reliable ways to fund new initiatives. Providing targeted access to the most promising major givers, The Big Book of Library Grant Money 2002-2003 is the largest directory available, pulled from an authoritative and upto-the-minute database of library-specific funders. This forward-looking edition includes more than

2,175 private and corporate foundations and givers that have either indicated an interest in giving money to libraries or have already done so. Organized by state, potential donors in The Big Book are profiled with contact and portfolio information, past contributions summary and analysis, and application information. With historical data, you can track contributions and assets and predict future giving patterns. Offering you the most hooks for connecting with actual people, The Big Book also provides biographical information on more than 34,000 foundation officers, directors, trustees, and corporate officers. As an added feature, ALA's own development office

experts have included tips on winning grants for libraries. Tailor *The RAISING PROJECT FINANCE Handbook* 40 years of capital raising experience, the last 20 in project finance as both an intermediary and financier are crammed into this no nonsense, jargon-free, hands on guide. The RAISING PROJECT FINANCE Handbook has been produced to save time, money, effort and frustration in the quest to finance YOUR project. No matter if it is a \$10 million boutique hotel, a \$500 million waste-to-energy plant or a \$5 billion infrastructure project, anywhere in the world, the requirements from the financier's standpoint are always the same, and clearly presented in this

Handbook. Critically, the book highlights how the market has changed since the banking crisis of 2008 and how the overwhelming majority of financiers are now directing private (as opposed to bank/institutional) capital into the market. These new channels now range across alternative investment funds, hedge funds, asset managers, private debt & equity funds, mandated lenders, wealth managers, private banks, family offices and U/HNWI's (Ultra-/High Net Worth Individuals) and others. The book covers how and where to find them and what is involved in producing a project plan that will be taken seriously by financiers. **Journal of Electricity**
