The three books in the Interactions Integrated Skills Program provide an in-depth coverage of the four major language skills: reading, writing, listening, and speaking. In addition, a strong grammar component acts as a foundation for students to rely on while mastering their new skills. The content

and themes found in the new Integrated Skills Editions are based on materials from the highly successful Interactions series. Like its parent series, the Integrated Skills Program places a great emphasis on the development of skills and strategies in all language areas. All of the reading selections found in the Interactions Integrated Skills Editions, are fresh and new, with a wide variety of formats and themes. Each selection is accompanied by a host of reading strategies and skill-building practice

activities including guessing meaning from context, reading for main ideas and details, skimming, scanning, and so on. The writing component features a step-by-step approach to process writing and rewriting in a variety of different genres. Grammar is always presented in the context of the chapter theme, and each grammar topic is accompanied by a number of communicative practice activities. Finally, the listening/speaking section features detailed practice with specific listening strategies and includes a variety of engaging speaking activities based on the chapter theme. The Interactions Integrated Skills Program also features an exciting video component, with practice activities featured in the opening sections of each chapter.

EBOOK: Classroom Interactions in Literacy McGraw-Hill Education

Building Social Relationships addresses the need for social skills programming for children and adolescents with autism spectrum disorders and other social difficulties by providing a comprehensive model that incorporates the following five steps: assess social functioning, distinguish between skill acquisition and performance deficits, select intervention strategies, implement intervention, and evaluate and monitor progress. The model describes how to organize and make sense of the myriad social skills strategies and resources available to parents and professionals. It is not meant to replace other resources or

strategies, but to synthesize them into one comprehensive program.

This book examines some of the complexities and debates about language, literacy and learning, challenging current assumptions about shared understanding of pedagogical principles. It foregrounds social and

cultural issues and the nature of interaction between children and teachers; children and children; children and texts of all kinds; and the significance of wider interactions within the teaching profession. The contributors revitalise debate about the nature of professional knowledge, provide insights into the detail of classroom discourse and teacher interventions and examine the transformative possibilities of literacy. They argue for a more open and expansive agenda informed by an analytically constructive view of pedagogy and challenge the profession to move from restrictive certainties to the potent possibilities of development through uncertainty and risk.

The long-anticipated new version of the internationally recognized Early Childhood Environment Rating Scale®, ECERS-3, focuses on the full range of needs of preschool- and kindergarten-aged children. This widely used, comprehensive assessment tool measures both environmental provisions and teacher-child interactions that affect the broad developmental needs of young children, including: Cognitive Social-emotional Physical Health and safety ECERS-3 also includes additional items assessing developmentally appropriate literacy and math activities. Designed for preschool, kindergarten, and child care classrooms serving children 3 through 5 years of age, ECERS-3: Provides a smooth transition for those already using

ECERS-R. Emphasizes the role of the teacher in creating an environment conducive to developmental gains. Is designed to predict child outcomes more accurately and with greater precision. Provides a stronger method of distinguishing between good and truly excellent programs. Offers a complete training program with ongoing support available at the Environment Rating Scales Institute (ERSI) website ([www.ersi.info](http://www.ersi.info)). ECERS-3 is appropriate for state and district-wide QRIS and continuous improvement; program evaluation by directors and supervisors; teacher self-evaluation; monitoring by agency staff; and teacher education. The established reliability and long term evidence of validity of the ERS family of instruments make this new version of

ECERS particularly useful for RTTT-ELC accountability and research. Suitable for use in inclusive and culturally diverse programs, ECERS-3 subscales evaluate: Space and Furnishings Personal Care Routines Language and Literacy Learning Activities Interaction Program Structure

Winner of the 2015 NAGC Curriculum Studies Award Interactions in Ecology and Literature integrates ecology with the concept of interactions and the reading of fictional and informational texts. This unit, developed by Vanderbilt University's Programs for Talented Youth, is aligned to the Common Core

State Standards for English Language Arts and Next Generation Science Standards. Students will research questions such as "Should animals be kept in zoos?" and "Should humans intervene to control overpopulation of species?" They will examine relationships among living things and the environment as well as relationships between literary elements in texts through accelerated content, engaging activities, and differentiated tasks. Ideal for gifted classrooms or gifted pull-out groups, the unit features fictional texts from Lynne Cherry, Katherine Applegate, and Jacqueline Woodson; art from Mark Rothko and Georges Seurat; informational texts about deforestation and a variety of animals; biographies about Michael Jordan, J. K. Rowling, and

Walt Disney; and videos about food chains, food webs, and more. Grades 2-3

One key measure of a country's status in the world is the literacy of its people; at the same time, global migration has led to increased interest in bilingualism and foreign language learning as topics of research. Literacy Development and Enhancement Across Orthographies and Cultures reviews international studies of the role of literacy in child development, particularly how children learn their first

written language and acquire a second written and spoken one. Comparisons and contrasts are analyzed across eight countries and 11 languages, including English, Spanish, Mandarin, Hebrew, Dutch, and Catalan. Using qualitative and quantitative, established and experimental methods, contributors trace toddlers' development of print awareness, clear up common myths regarding parental involvement and non-involvement in their children's literacy, and suggest how the spelling of words can aid in the gaining of vocabulary. For added relevance to educators, the book includes chapters on early intervention for reading problems and the impact of pedagogical science on teaching literacy. Highlights of the coverage: Letter name knowledge in early spelling

development Early informal literacy experiences Environmental factors promoting literacy at home Reading books to young children: what it does—and doesn't do The role of orthography in literacy acquisition among monolingual and bilingual children Gaining literacy in a foreign language Instructional influences on literacy growth Literacy Development and Enhancement Across Orthographies and Cultures adds significant depth and interest to the knowledge base and should inspire contributions from additional languages and orthographies. It belongs in the libraries of researchers and educators involved in cognitive psychology, language education, early childhood education and linguistics. *Grammar* McGraw-Hill Education
