Singa, the Lion of Malaya McGraw Hill Professional

"Beautifully written, compellingly personal, and a treasure to read." —Most Rev. Charles J. Chaput, OFM, Cap., Archbishop of Philadelphia "This spiritually grounded, easy-to-read treatise is a solid piece of research, and yet is still packed throughout with supporting anecdotes that the reader will recognize and appreciate. Eminently practicable, *Unrepeatable* is for every Christian, especially the teacher, counselor, or spiritual director, who is truly serious about sifting through the cultural morass to find the 'right' vocation, rather than just a job." —Bishop Robert Barron, Auxiliary Bishop, Archdiocese of Los Angeles What if we were able to gain profound insight into the unique design, creative drive, and potential destiny of the people in our lives? The bold promise of this book is that we can. This ability carries an awesome responsibility: We must all be mentors and midwives to the personal vocations of others. *Unrepeatable* is about the urgent need for each of us to cultivate the vocations of others and the steps we should take to do it well. By smartly weaving evocative stories of those who have radically lived out their callings with practical tools for discernment and mentorship, Luke Burgis and Joshua Miller—who have a combined twenty-five years of experience helping people and organizations discover their purpose—turn staid perceptions of vocation on their head. *Unrepeatable* will equip you to: • Renew your church, school, community, or company by empowering every member to discover, embrace, and fully live out their unique calling • Confidently teach and mentor young people in critical skills of

discernment and decision-making • Know and be known by others in a deeply personal way through a technique that unlocks and awakens the deepest desires of the heart As we enter into the stories of others' lives, we enter into the story of God's love. There is no greater adventure. *Unrepeatable* invites you to be a part of it.

Early Kingdoms of the Indonesian Archipelago and the Malay Peninsula Harper Collins

A piercing and scientifically grounded look at the emergence of the coronavirus pandemic and how it will change the way we live—"excellent and timely." (The New Yorker) *Apollo's Arrow* offers a riveting account of the impact of the coronavirus pandemic as it swept through American society in 2020, and of how the recovery will unfold in the coming years. Drawing on momentous (yet dimly remembered) historical epidemics, contemporary analyses, and cutting-edge research from a range of scientific disciplines, bestselling author, physician, sociologist, and public health expert Nicholas A. Christakis explores what it means to live in a time of plague—an experience that is paradoxically uncommon to the vast majority of humans who are alive, yet deeply fundamental to our species. Unleashing new divisions in our society as well as opportunities for cooperation, this 21st-century pandemic has upended our lives in ways that will test, but not vanquish, our already frayed collective culture. Featuring new, provocative arguments and vivid examples ranging across medicine, history, sociology, epidemiology, data science, and genetics, *Apollo's Arrow* envisions what happens when the great force of a deadly germ meets the enduring reality of our evolved social nature.

The unabridged versions of these definitive works are now available together as a highly designed paperback with flaps with a new introduction by Robert Weick. Part of the Knickerbocker Classics series, a modern design makes this timeless book a perfect travel companion. Considered to be one of the most influential political writings, *The Communist Manifesto* is as

relevant today as when it was originally published. This pamphlet by the German philosophers Karl Marx and Friedrich Engels, published in 1884 as revolutions were erupting across Europe, discusses class struggles and the problems of a capitalist society. After being exiled to London, Marx published the first part of *Das Kapital*, a theoretical text that argues that capitalism will create greater and greater division in wealth and welfare and ultimately be replaced by a system of common ownership of the means of production. After Marx's death, Engels completed and published the second and third parts from his colleague's notes. The Knickerbocker Classics bring together the essential works of classic authors from around the world in stunning editions to be collected and enjoyed.

It is surprising that Islam is gaining momentum in the West amidst negative media coverage. The surge of new converts on hostile ground proves that Islam is a true religion that needs reckoning by the West. On 7th October 2002, it was reported in St. Petersburg Times that "Every year, about 20 000 people in the United States convert to Islam, according to a study conducted by the Council on American-Islamic Relations." On 22nd February 2004, Nicholas Hellen and Christopher Morgan reported in The Sunday Times that "More than 14 000 white Britons have converted to Islam after becoming disillusioned with western values, according to the first authoritative study of the phenomenon. Some of Britain's top landowners, celebrities and the offspring of senior Establishment figures have embraced the strict tenets of the Muslim faith." The intention of writing this book is not to create enmity or dissension, but to convey the truth about Islam. We pray to Allah that it will benefit everybody, Muslims and non-Muslims alike. Dr. Danial bin Zainal Abidin graduated from Alexandria University, Egypt and is a licensed medical practitioner.
