 Radiocommunication Field Handbook Some portables have been supplied / equipped with remote speaker Mics and are operated while the radio is being carried on the hip - this does reduce their range. If you are experiencing problems, you may have to remove the portable and operate it with the speaker Mic at an elevated position away from your body.  
 Radiocommunication Field Handbook - British Columbia  
 In radio communication, these flights use the call sign "Lifeguard" followed by the aircraft type and registration letters/numbers. When requested by the pilot, ATC provides necessary notification to expedite ground handling of patients; when possible, however, this information should be passed in advance through non-ATC communications systems.  
 Resources - Library Contents - FAA - FAASafety.gov  
 The Pilot's Radio Handbook is now in its 20th edition and has sold over 55,000 copies. ... Its appendices and additional sections provide a wealth of information useful to pilots for flight planning, checking

communications and navigational frequencies and a whole lot more. The Pilot's Radio Handbook – Radio Procedures for pilots Radio Teletypewriter Set AN/VSC-2 in a remote configuration when the set is equipped with AN/UGC-74 communications terminal and TSEC/KG-84A dedicated loop encryption device (DLED). This procedure assumes that a spare AN/UGC-74, data cable, and TSEC/KG-84A are not available. If monitoring at the radio Radio Operator's Handbook - nj7p.org Section 2. Radio Communications Phraseology and Techniques. General. Radio communications are a critical link in the ATC system. The link can be a strong bond between pilot and controller or it can be broken with surprising speed and disastrous results. Aeronautical Information Manual - AIM - Radio ...
