Public Enemy #1 - the Infamous History of John Dillinger McFarland

During the Great Depression, writers of True Crime could take the decade off: life was imitating art so dramatically they had nothing to add. In these pages historian Robert Underhill presents the most notorious criminals of 1930-1934: Wilbur Underhill, Alvin Karpis, the Barker Clan, Pretty Boy Floyd, Baby Face Nelson, the Barrows (Buck, Blanche, Clyde, and Bonnie), and John Dillinger along with supporting material on their henchmen and the rise of the FBI. Often armed better than the police, criminals of the 1930s committed deeds ranging from stealing chickens to kidnappings, bank robberies, and killing innocent victims. Yet such crimes were often taken in stride by avid readers. Cooperation among local, state and federal lawmen was rare as each sought to protect his own turf. Criminals and lawmen made mistakes battling one another, but in most cases the law triumphed and the wanted fugitive died under a hail of bullets. His death would start myths and raise his reputation to national status. The author of 'Against the Grain: Six Men Who Shaped America' and 'The Rise and Fall of Franklin D. Roosevelt' shows us another aspect of the Roosevelt era and portrays a series of figures who contributed to pop culture as well helping to shape the security forces in America. Robbing the banks and driving fast cars, they did what many Americans dreamed of, and gave a depressed populace some excitement to distract from everyday worries. With the Great Depression, some citizens came to regard bank robbers as modern Robin Hoods seeking to avenge depositors whose life earnings had been wiped out by a bank's failure or malfeasance by its owners. No small wonder that criminals were given colorful sobriquets and fact and fiction became intertwined. Underhill shows how such heists, and kidnappings especially, helped create the modern FBI, overcoming the complaints of those who alleged that a federal force was the first step toward an American Gestapo. The belief that federal government had nothing to do with fighting crime was rooted in the U.S. Constitution and its provisions for states' rights. Local police were expected to provide security and to apprehend criminals without Washington getting involved. In the big cities, Prohibition era mobsters still ruled, but in the Midwest especially, smaller bands, "gangsters," began to make headlines. They tended to be blue-collar criminals whose favorite targets were filling stations, grocery stores, and small town banks. Prior to 1930, corruption was rife and cooperation among local, state, and federal police was little to none; criminals often got away. Only in 1935 was the FBI formally anointed and its agents were permitted to carry guns. Now, there was a federal agency that could supply sheriffs all over the country with information on suspected criminals. By 1935, the hardest times of the Depression were beginning to ease and the thrill of watching these cops-and-robber stories play out was combined with a renewed interest in the lives of the rich and famous, previously scorned for their role in ripping off the average man. All in all, the early 1930s were a uniquely dramatic time for crime and crimestoppers in America.

Hoosier Public Enemy Indiana Historical Society

A deeply researched account of Depression-era criminals who roamed the Midwest by the Pulitzer Prize-winning, New York Times-bestselling author. John Dillinger and his compatriots' crime spree lasted a little over a year in the 1930s and left a trail of bodies in its wake. Dillinger's bank robberies—and his ability to elude both a half-dozen state police forces and the FBI—kept Americans

riveted during this bleak economic period. In this book, the author of the classic *The Rising Sun* chronicles Dillinger's short criminal career and the exploits of other outlaws of the time. The eminent twentieth-century historian conducted hundreds of interviews and visited banks, jail cells, and other relevant sites in thirty-four states. Leading up to Dillinger's violent death outside a Chicago movie house, this true-crime story is told with great depth and vivid detail. "This is the famed Dillinger's story, a compendium as well of the murderous doings of compatriots like Ma Barker, Pretty Boy Floyd, Bonnie Parker, the Barrow Brothers, and a host of other hip-shooting, car-stealing bank robbers who made underworld American history in the Depression. . . [A] brutal yet colorful book." —Kirkus Reviews

Chasing Dillinger Dundurn

Between 1933 and 1939, the FBI pursued an aggressive, highly publicized nationwide campaign against a succession of Depression era "public enemies," including John Dillinger, George "Baby Face" Nelson, Charles Arthur "Pretty Boy" Floyd, George "Machine Gun Kelly" Barnes, Bonnie Parker and Clyde Barrow, and the Ma Barker Gang. Bureau Director J. Edgar Hoover's successes in this crusade made him the hero of law and order in the public mind. This historical analysis reveals the agency's often illegal tactics, including torture, frame-ups, and summary executions--later expanded throughout Hoover's 48-year reign in Washington, D.C., and exposed only after his death (some say murder) in 1972.

Former Prussian soldier Herman "Baron" Lamm (1890-1930) adapted his military training to a much less noble occupation after moving to America, developing a reputation as one of history's most brilliant and efficient bank robbers. Lamm's time fell between Butch Cassidy and John Dillinger's notorious careers, and Lamm never received the attention of the two famous gunslingers. This first full-length biography promotes Lamm from his supporting role, tracing his criminal exploits and his pioneering use of concepts like "casing" a bank and planning escape routes. Analysis of arrest records finds Lamm's genius as a criminal mastermind much overrated, and a detailed examination of the trial transcript of fellow gang members Walter Detrich and James Clark brings to life Lamm's spectacular downfall.

This book picks up where *The Desperate Ones: Canada's Forgotten Outlaws* left off. Here are more remarkable true stories about Canadian crimes and criminals — most of them tales that have been buried for years. The stories begin in colonial Newfoundland, with robbery and murder committed by the notorious Power Gang. As readers travel across the country and through time, they will meet the last two men to be hanged in Prince Edward Island, smugglers who made lake Champlain a battleground, a counterfeiter whose bills were so good they fooled even bank managers, and teenage girls who committed murder in their escape from jail. They will meet the bandits who plundered banks and trains in Eastern Canada and the West, and even the United States. Among them were Same Behan, a robber whose harrowing testimony about the brutal conditions in the Kingston Penitentiary may have brought about his untimely death in "The Hole"; and John "Red" Hamilton, the Canadian-born member of the legendary Dillinger gang.

Defining Memory Filibust

Indiana State Police Captain Matt Leach led the hunt for John Dillinger during the violent early 1930s. Pushing a media campaign aimed at smoking out the fugitive, Leach elevated Dillinger to unprecedented notoriety. In return, Dillinger taunted him with phone calls and postcards, and vowed to kill him. Leach's use of publicity backfired, making him a pariah among his fellow policemen, and the FBI ordered his firing in 1937 for challenging their authority. This is the first full-length biography of the man.

Johnnie D. Rough Guides UK

John Dillinger's reign as Public Enemy No. 1 began in the summer of 1933, when he left the Commercial Bank of Daleville, Indiana, with \$3,500 and a diamond ring belonging to the bank president's daughter. It was the depth of the Depression. Banks were closing everywhere, and millions of Americans were losing their life savings. To them, Dillinger's act made him a sort of hero, even a modern-day Robin Hood. Within the next year, he would go on to rob ten banks and break out of two jails, one of them theoretically "escape-proof." Everything John Dillinger did, whether it was firing a tommy gun or relieving smitten bank tellers of the cash in their vaults, he did with style. This is his story, as told by Dillinger and those who knew him. Brought to life by Arthur Winfield Knight, the voices of the past emerge to vividly recount the renegade's story. Dillinger's associates included the likes of Harry Pierpont and George "Baby Face" Nelson. And the women in his life were as colorful as the boys in his gang, from the love of his life, Evelyn "Billie" Frechette, to Anna Sage, the "woman in red," who lured him into the FBI sting that resulted in his death on July 22, 1934. Many a man fell on both sides in the effort to capture--and keep imprisoned--the incorrigible Johnnie D. Sixty-five years after Dillinger's death, Knight proves that this story of America's dashing Public Enemy is still the most charged and gutsy of the 1930s. Dillinger remains the enduring symbol of the gangster era, a gentleman on the wrong side of the law. Fugitives occupy a unique place in the American criminal justice system. They can run and they can hide, but eventually each chase ends. And, in many cases, history is made along the way. John Dillinger's capture obsessed J. Edgar Hoover and helped create the modern FBI. Violent student radicals who went on the lam in the 1960s reflected the turbulence of the era. The sixteen-year disappearance and sudden arrest of gangster James "Whitey" Bulger in 2011 captivated the nation. Fugitives have become iconic characters in American culture even as they have threatened public safety and the smooth operation of the justice system. They are always on the run, always trying to stay out of reach of the long arm of the law. Also prominent are the men and women who chase fugitives: FBI agents, federal marshals and their deputies, police officers, and bounty hunters. A significant element of the justice system is dedicated to finding those on the run, and the most-wanted posters and true-crime television shows have made fugitives seemingly ubiquitous figures of fear and fascination for the public. In *On the Lam*, Jerry Clark and Ed Palattella trace the history of fugitives in the United States by looking at the characters - real and fictional - who have played the roles of the hunter and the hunted. They also examine the origins of the bail system and other legal tools, such as most-wanted programs, that are designed to guard against flight.
