An invaluable resource that documents the Black Power Movement by its cultural representation and promotion of self-determination and self-defense, and showcases the movement's influence on Black communities in America from 1965 to the mid-1970s. Unlike the Civil Rights Movement's emphasis on the rhetoric

and practice of nonviolence and social and political goal of integration, Black Power was defined by the promotion of Black self-determination, Black consciousness, independent Black politics, and the practice of armed self-defense. Black Power changed communities, curriculums, and culture in the United States and served as an inspiration for social justice internationally. This unique two-volume set provides readers with an understanding of Black Power's

important role in the turbulence, social change, and politics of the 1960s and 1970s in America and how the concepts of the movement continue to influence contemporary Black politics, culture, and identity. Cross-disciplinary and broad in its approach, *Black Power Encyclopedia: From "Black Is Beautiful" to Urban Uprisings* explores the emergence and evolution of the Black Power Movement in the United States some 50 years ago. The entries examine the key players, organizations and institutions, trends, and events of the period, enabling readers to better understand the ways in which African Americans broke through racial barriers, developed a positive identity, and began to feel united through racial pride and the formation of important social change organizations.

The encyclopedia also covers the important impact of the more militant segments of the movement, such as Malcolm X and the Nation of Islam and the Black Panthers.

They all come from all walks of life seeking solutions to their problems . . . Seeking answers from the motivational speaker . . . SST, really I feel Im not worthy to be here, she spoke softly again, displaying a reluctance to speak

out. I immediately got interested! From experience, such people have interesting stories that will make my day. My sister, dont worry, you have come where your problems will be attended to. I was cajoling her to speak out! And please, I didnt get your name, or you dont feel like telling me? I said. Its not like that, SST! Its just that I dont think I should say what I want to say. She was shying away. I was right. She didnt want her name to be mentioned, theres a story all right! She came back reluctantly. OK. SST, my name is Joan, she said. Joan like hell! No problem, I can use that name. Names are like ages. They really dont count on my show because you hardly get the true dose, all the same I just needed it for the reference. OK, Joan, whats the issue? Let me see your steps,

the floor is all yours now. I decided to spur her. I havent got all day even if she was my only caller. Joan, lets hear you before our shot time is up, and we might just miss you for life. I was pushing her. That seemed to wake her, and from then, she started coming out like a canary. When something is bottled up for so long inside someone and it wants to spurt out, a small nod will collapse the whole balloon. SST, you see, I never knew my life will drain to this level. I was not brought up to be like this. I had a good family upbringing, nice parents that wanted the best for me. It was not meant to be like this for me. I bet I was left astray by the company I made in school. Thats it, she is talking now! You cant put it down once you start reading . . .

The culture wars have as much to do with rhetorical style as moral substance. Cathleen Kaveny focuses on a powerful stream of religious discourse in American political speech: the Biblical rhetoric of prophetic indictment. It can be strong medicine against threats to the body politic, she shows, but used injudiciously it does more harm than good.

Free Speech on America's K-12 and College Campuses: Legal Cases from Barnette to Blaine covers the history of legal cases involving free speech issues

on K-12 and college campuses, mostly during the fifty-year period from 1965 through 2015. While this book deals mostly with high school and college newspapers, it also covers religious issues (school prayer, distribution of religious materials, and use of school facilities for voluntary Bible study), speech codes, free speech zones, self-censorship due to political correctness, hate speech, threats of disruption and violence, and off-campus speech, including social media. Randall W. Bobbitt provides a representative sampling of cases spread across the five decades and across the subject areas listed above. Recommended for scholars of communication, education, political science, and legal studies.

A Century of Contributions to Gifted Education traces the conceptual history of the field of gifted education. Bookended by Sir Francis Galton's Hereditary Genius published in 1869, and Sidney Marland's report to the United States Congress in 1972, each chapter represents the life and work of a key figure in the development of the field. While the historical record of gifted education has previously been limited, A Century of Contributions to Gifted Education explores the lives of individuals who made fundamental contributions in the areas of eminence, intelligence, creativity, advocacy, policy, and curriculum. Drawing heavily on archival research and primary source documentation, expert contributors

highlight the major philosophical, theoretical, and pedagogical developments in gifted education over the course of a century, providing both lively biography and scholarly analysis.

"An effective blend of memoir, history and legal analysis."—Christopher Benson, Washington Post Book World In what John Hope Franklin calls "an essential work" on race and affirmative action, Charles Ogletree, Jr., tells his personal story of growing up a "Brown baby" against a vivid pageant of historical characters that includes, among others, Thurgood Marshall, Martin Luther King, Jr., Earl Warren, Anita Hill, Alan Bakke, and Clarence Thomas. A measured blend of personal memoir,

exacting legal analysis, and brilliant insight, Ogletree's eyewitness account of the legacy of *Brown v. Board of Education* offers a unique vantage point from which to view five decades of race relations in America.

In *(Not that You Asked)*, Steve Almond documents a life spent brawling with the idiot kings of modern culture. He squares off against Sean Hannity on national TV, takes on Oprah Winfrey, nearly gets kidnapped by a reality TV crew, and winds up in Boston, where he quickly enrages the entire population of Red Sox Nation. Amid the carnage, he finds time to celebrate his literary hero, the late Kurt Vonnegut. These are essays the Los

Angeles Times has called “rich, fearless [and] cutting.” Praise for *(Not that You Asked)* “Refreshingly irreverent . . . absurdly funny.” –The Boston Globe “[Almond] scores big in every chapter of this must-have collection. Biting humor, honesty, smarts and heart: Vonnegut himself would have been proud.” –Kirkus Reviews (starred review) “Taunting, revealing, irreverent, and earnest.” –The New York Times “Steve Almond has created a distinctive voice and literary persona. Pleasure-obsessed, self-deprecating, horny, hilarious and always dedicated to parsing the messy terrain of the human heart.” –Forward.com *A Century of Contributions to Gifted Education* W. W. Norton & Company The Crisis, founded by W.E.B. Du Bois as the official publication of the NAACP, is a

journal of civil rights, history, politics, and culture and seeks to educate and challenge its readers about issues that continue to plague African Americans and other communities of color. For nearly 100 years, The Crisis has been the magazine of opinion and thought leaders, decision makers, peacemakers and justice seekers. It has chronicled, informed, educated, entertained and, in many instances, set the economic, political and social agenda for our nation and its multi-ethnic citizens.

I have traveled far and wide, far beyond the simple parish I envisioned as a young man. My obligation of service has led me into diverse yet interrelated roles: college teacher, theologian,

president of a great university, counselor to four popes and six presidents. Excuse the list, but once called to public service, I have held fourteen presidential appointments over the years, dealing with the social issues of our times, including civil rights, peaceful uses of atomic energy, campus unrest, amnesty for Vietnam offenders, Third World development, and immigration reform. But deep beneath it all, wherever I have been, whatever I have done, I have always and everywhere considered myself essentially a priest. —from the Preface

A Liberian academic and former government official accounts for and reflects upon half a century of work and experience. An important Liberian

political memoir, the book is at once Dunn's critical exposition on his country and an attempt to explain how Liberia came to be what it is today. In 26 captivating chapters he recounts careers as academic, and services as aide to slain Liberian President Tolbert and consultant to former President Johnson Sirleaf. Between government service in crisis times (late 1970s) and in hopeful times (early 2000s) is positioned more than three decades of University teaching and research.

National Review has always published letters from readers. In 1965 the magazine decided that certain letters merited different treatment, and William

F. Buckley, the editor, began a column called "Notes & Asides" in which he personally replied to the most notable and outrageous correspondence. Culled from four decades of the column, *Cancel Your Own God dam Subscription* includes exchanges with such well-known figures as Ronald Reagan, Richard Nixon, John Kenneth Galbraith, A.M. Rosenthal, Auberon Waugh, Arthur Schlesinger Jr., and many others. There are also hilarious exchanges with ordinary readers, as well as letters from Buckley to various organizations and government agencies. Combative, brilliant, and uproariously funny, *Cancel Your Own God dam Subscription* represents Buckley at his mischievous best. [Oberlin Alumni Magazine](#) Rowman & Littlefield

A young man arrives in England in the 1930s, knowing few words of the English language. Yet, two years later he writes a successful English book on Chinese art, and within the following decade publishes more than a dozen others. This is the true story of Chiang Yee, a renowned writer, artist, and worldwide traveler, best known for the Silent Traveller series--stories of England, the United States, Ireland, France, Japan, and Australia--all written in his humorous, delightfully refreshing, and enlightening literary style. This biography is more than a recounting of extraordinary accomplishments. It also embraces the transatlantic life experience of Yee who traveled from China to England and then on to the United States, where he taught at

Columbia University, to his return to China in 1975, after a forty-two year absence. Interwoven is the history of the communist revolution in China; the battle to save England during World War II; the United States during the McCarthy red scare era; and, eventually, thawing Sino-American relations in the 1970s. Da Zheng uncovers Yee's encounters with racial exclusion and immigration laws, displacement, exile, and the pain and losses he endured hidden behind a popular public image.

From the University of California, Berkeley, to Middlebury College, institutions of higher learning increasingly find themselves on the front lines of cultural and political battles over free speech. Repeatedly, students, faculty, administrators, and politically polarizing invited guests square off against one another, assuming contrary positions on the limits of thought and expression, respect for differences, the boundaries of toleration, and protection from harm. In *Free Speech on Campus*, political philosopher Sigal Ben-Porath

examines the current state of the arguments, using real-world examples to explore the contexts in which conflicts erupt, as well as to assess the place of identity politics and concern with safety and dignity within them. She offers a useful framework for thinking about free-speech controversies both inside and outside the college classroom, shifting the focus away from disputes about legality and harm and toward democracy and inclusion. Ben-Porath provides readers with strategies to de-escalate tensions and negotiate highly charged debates surrounding trigger warnings, safe spaces, and speech that verges on hate. Everyone with a stake in campus controversies—professors, students, administrators, and informed members of the wider public—will find something

valuable in Ben-Porath's illuminating discussion of these crucially important issues.

No one would have blamed Donald Seldin for running away. When he arrived at Southwestern Medical College in 1951, it was a collection of hastily repurposed military shacks creaking in the wind. On practically day one he became chair of the department of medicine—when the only other full-time professors departed. By the time he stepped down thirty-six years later, Seldin had transformed a sleepy medical college into the University of Texas Southwestern Medical Center—a powerhouse of research and patient care and an anchor of the city of Dallas. Raymond Greenberg, a physician-

scholar, tells Seldin's story of perseverance and intellectual triumph. Drawing on interviews with Seldin's trainees and colleagues—and on Seldin's own words—Greenberg chronicles the life of the Brooklyn boy who became one of Texas's foremost citizens and taught decades of men and women to heal. A pioneering nephrologist, Seldin devoted his career to developing the specialty; educating students, residents, and fellows; caring for patients; and nurturing basic research. Seldin was a wildcatter in the best sense. He declined the comfortable prestige of Harvard and Yale and instead embraced a worthy challenge with an unflagging sense of mission. Graceful and richly detailed, *The Maestro of Medicine* captures an inspiring life of achievement and service.

Erich Fromm was a political activist, psychologist, psychoanalyst, philosopher, and one of the most important intellectuals of the twentieth century. Known for his theories of personality and political insight, Fromm dissected the sadomasochistic appeal of brutal dictators while also eloquently championing love—which, he insisted, was nothing if it did not involve joyful contact with others and humanity at large. Admired all over the world, Fromm continues to inspire with his message of universal brotherhood and quest for lasting peace. The first systematic study of Fromm’s influences and

achievements, this biography revisits the thinker’s most important works, especially *Escape from Freedom* and *The Art of Loving*, which conveyed important and complex ideas to millions of readers. The volume recounts Fromm’s political activism as a founder and major funder of Amnesty International, the National Committee for a Sane Nuclear Policy, and other peace groups. Consulting rare archival materials across the globe, Lawrence J. Friedman reveals Fromm’s support for anti-Stalinist democratic movements in Central and Eastern Europe and his efforts to revitalize American democracy. For the first time, readers learn about Fromm’s direct contact with high officials in the American government on matters of war and peace while accessing a deeper

understanding of his conceptual differences with Freud, his rapport with Neo-Freudians like Karen Horney and Harry Stack Sullivan, and his association with innovative artists, public intellectuals, and world leaders. Friedman elucidates Fromm's key intellectual contributions, especially his innovative concept of "social character," in which social institutions and practices shape the inner psyche, and he clarifies Fromm's conception of love as an acquired skill. Taking full stock of the thinker's historical and global accomplishments, Friedman portrays a man of immense authenticity and spirituality who made life in the twentieth century more humane than it might have been.

How may we conceptualize Africa in the driver's seat of her own destiny in the twenty-first century? How practically may her cultures become the foundation and driving force of her innovation, development, and growth in the age of the global knowledge economy? How may the Africanist disciplines in the humanities, the social sciences, and the natural sciences be revamped to rise up to these challenges through new imaginaries of intersectional reflection? This book assembles lectures given by Pius Adesanmi that address these questions. Adesanmi sought to create an African world of signification in which verbal artistry interpellates performer and audience in a heuristic process of knowledge production. The narrative and

delivery of his arguments, the antiphonal call and response, and the aspects of Yoruba oratory and verbal resources all combine with diction and borrowings from Nigerian popular culture to create a distinct African performative mode. This mode becomes a form of resistance, specifically against the pressure to conform to Western ideals of the packaging, standardization, and delivery of knowledge. Together, these short essays preserve the committed and passionate voice of an African writer lost far too soon. Adesanmi urges his readers to commit themselves to Africa's cultural agency.

This is the first biography of Stanley Mosk (1912-2001), iconic protector of civil rights and civil liberties during his 37 years as a justice of the Supreme Court of California (1964 to 2001). He had quickly risen as a well liked leader among Los Angeles reformers, as executive secretary to California governor Culbert Olson and then 16 years as a superior court judge. His 1958 election and service as state attorney general soon won national attention and the promise of likely election to the U.S. Senate, but an unexpected campaign twist augured a new course. This book frames Mosk's Supreme Court years and the landmark cases in which his opinions or biting dissents continue to resonate.
