BROCK TRISTIN

Violeta [English Edition] SAGE Publications India

Is time, even locally, like the real line? Multiple structures of time, implicit in physics, create a consistency problem. A tilt in the arrow of time is suggested as the most conservative hypothesis which provides approximate consistency within physics and with topology of mundane time. Mathematically, the assumed constancy of the velocity of light (needed to measure time) implies functional differential equations of motion, that have both retarded and advanced deviating arguments with the hypothesis of a tilt. The novel features of such equations lead to a nontrivial structure of time and quantum-mechanical behaviour. The entire argument is embedded in a pedagogical exposition which amplifies, corrects, and questions the conventionally accepted approach. The exposition includes historical details and explains, for instance, why the entropy law is inadequate for time asymmetry, and why notions such as time asymmetry (hence causality) may be conceptually inadequate. The first three parts of the book are especially suited as

supplementary reading material for undergraduate and graduate students and teachers of physics. The new ideas are addressed to researchers in physics and philosophy of science concerned with relativity and the interpretation of quantum mechanics.

Bedrijfsontwikkeling Independently Published

An Amazon Charts and #1 Wall Street Journal bestselling series. They're hunting a killer so silent, so invisible, that his unspeakable crimes are the only proof he exists. A car submerged in a remote pond. The bodies of two girls strapped into their seats. The mystery of their mother, vanished without a trace, leads Gwen Proctor and Kezia Claremont into dangerous territory. On the surface, Gwen's life is good--two children approaching adulthood, a committed partner, and a harrowing past dead and gone. But that past is attracting the attention of someone invisible...and unstoppable. Trouble's just beginning. So is the body count in this backwoods Tennessee town. As threats mount and Gwen's hunted by an enemy who pulls all the strings, Kezia has her back. But working to solve these vicious and unreasonable crimes will expose them both to a killer they can't for the life of them see coming.

vrolijk en romantisch Uitgeverij Cupido

A fascinating adventure on the trail of time. An encyclopedic work well illustrated and laced with anecdotes, quotations, and parables, written by a timesmith who ranges the clockshops of the Precambrian to the restaurant at the end of the universe. Fraser is a leading authority in the world on the study of time.

Steering Automated, Shared, and Electric Vehicles to a Better Future Pushkin Children's Books
 This creative 18-month planner features monthly and weekly calendar views, and inspirational quotes and images to color in as the days pass by. Every spread in this 18-month planner—covering July 2021 to December 2022—includes an inspirational quote and an image to color. When you start your week off with a relaxing coloring activity instead of the dreaded Monday blahs, you'll soon find your mood improving in everything you do—whether at work, play, or a quiet evening at home. Also included are two sheets of colorful stickers that you can use to highlight important dates and events.

The Essential Concepts Entangled: Brazen

Pluck has a little red tow truck. He drives it all over town looking for a place to live. Then Dolly the pigeon tells him that the tower of the Pill Building is empty. In the Pill Building, Pluck meets Mr.

Penn and Zaza the cockroach. Pluck makes lots more friends and solves all kinds of problems. But the biggest problem is Dove Grove. It used to be a garden with tall trees, but it has been neglected and gone wild. Grown-ups never go there, but the kids from the Pill Building love playing there. But now the Park Superintendent has decided to chop down the trees to make a paved square. Pluck and his friends try to save Dove Grove. But first he has to rescue Longmount from the canal.

Heartbreak Bay Harvard University Press

G. J. Whitrow (1912-2000) begins this classic exploration of the nature of time with a story about a Russian poet, visiting London before the First World War. The poet's English was not too good and when he asked a man in the street, 'Please, what is time?' he received the response, 'But that's a philosophical question. Why ask me?'. Starting from this simple anecdote, Professor Whitrow takes us on a good-humored and wide-ranging tour of the thing that clocks keep (more or less). He discusses how our ideas of time originated; how far they are inborn in plants and animals; how time has been measured, from sundial and hourglass to the caesium clock, and whether time possesses a beginning, a direction, and an end. He coaxes the diffident layman to contemplate with pleasure the differences between cyclic, linear, biological, cosmic, and space-time, and he provides frequent diversions into fascinating topics such as the Mayan calendar, the migration of birds, the dances of bees, precognition, and the short, crowded lives of mu-mesons, particles produced by cosmic-ray showers that exist for just two millionths of a second. This reissue of the classic and authoritative *What is Time?* includes a new introduction by Dr J. T. Fraser, founder of the International Society for the Study of Time, and a bibliographic essay by Dr Fraser and Professor M. P. Soulsby of the Pennsylvania State University.

Lifehacker W. W. Norton & Company

Well known for his histories of Norman Sicily, Venice, the Byzantine Empire and the Mediterranean, John Julius Norwich has now turned his attention to the oldest continuing institution in the world, tracing the papal line down the centuries from St Peter himself to traditionally (though by no means historically) the first pope to the present Benedict XVI. Of the 280-odd holders of the supreme office, some have unquestionably been saints; others have wallowed in unspeakable iniquity. One was said to have been a woman and an English woman at that, her sex being revealed only when she improvidently gave birth to a baby during a papal procession. Pope Joan never existed (though the Church long believed she did) but many genuine pontiffs were almost as colourful: Formosus, for example, whose murdered corpse was exhumed, clothed in pontifical vestments, propped up on a throne and subjected to trial; or John XII of whom Gibbon wrote: 'his rapes of virgins and widows deterred female pilgrims from visiting the shrine of St Peter lest, in the devout act, they should be violated by his successor.' Others earned respect, including Leo the Great who protected Rome from the Huns and the Goths, and Gregory the Great who struggled manfully with the emperor for supremacy. After calamitous crusades, and 70-year exile in Avignon, came the larger-than-life pontiffs of the Renaissance: the Borgias and the Medicis ('God has given us the papacy; let us now enjoy it'). Pius VII had to contend with Napoleon, Pius IX to steer the papacy through the storm of the Risorgimento. John Julius Norwich brings the story up-to-date with lively investigations into the anti-semitism of Pius XII, the possible murder of John Paul I and the phenomenon of the Polish John Paul II. From here the glories of the Byzantium to the decay of Rome, from the Albigensian Heresy to sexual misbehaviour within the Church today, the pace never slackens. John Julius Norwich, an agnostic with no religious axe to grind, has a thrilling and important tale to tell you and in this rich, authoritative book he does it full justice.

A Comparative Calendar of the Iranian, Muslim Lunar, and Christian Eras for Three Thousand Years

□□□□□□

The Scarlet Pimpernel is the first novel in a series of historical fiction by Baroness Orczy, published in 1905. It was written after her stage play of the same title enjoyed a long run in London, having opened in Nottingham in 1903. The novel is set during the Reign of Terror following the start of the

French Revolution. The title is the *nom de guerre* of its hero and protagonist, a chivalrous Englishman who rescues aristocrats before they are sent to the guillotine. Sir Percy Blakeney leads a double life: apparently nothing more than a wealthy fop, but in reality a formidable swordsman and a quick-thinking escape artist. The band of gentlemen who assist him are the only ones who know of his secret identity. He is known by his symbol, a simple flower, the scarlet pimpernel (*Anagallis arvensis*). Marguerite Blakeney, his French wife, does not share his secret. She is approached by the new French envoy to England, Chauvelin, with a threat to her brother's life if she does not aid in the search for the Pimpernel. She aids him, and then discovers that the Pimpernel is also very dear to her. She sails to France to stop the envoy.

It was a simple incident in the life of James Clavell—a talk with his young daughter just home from school—that inspired this chilling tale of what could happen in twenty-five quietly devastating minutes. He writes, "The Children's Story came into being that day. It was then that I really realized how vulnerable my child's mind was—any mind, for that matter—under controlled circumstances. Normally I write and rewrite and re-rewrite, but this story came quickly—almost by itself. Barely three words were changed. It pleases me greatly because I kept asking the questions... Questions like, 'What's the use of 'I pledge allegiance' without understanding? Like Why is it so easy to divert thoughts? Like What is freedom? and Why is so hard to explain? The Children's Story keeps asking me all sorts of questions I cannot answer. Perhaps you can—then your child will...."

A new edition, packed with even more clever tricks and methods that make everyday life easier. Lifehackers redefine personal productivity with creative and clever methods for making life easier and more enjoyable. This new edition of a perennial bestseller boasts new and exciting tips, tricks, and methods that strike a perfect balance between current technology and common sense solutions for getting things done. Exploring the many ways technology has changed since the previous edition, this new edition has been updated to reflect the latest and greatest in technological and personal productivity. The new "hacks" run the gamut of working with the latest Windows and Mac operating systems for both Windows and Apple, getting more done with smartphones and their operating systems, and dealing with the evolution of the web. Even the most tried-and-true hacks have been updated to reflect the contemporary tech world and the tools it provides us. Technology is supposed to make our lives easier by helping us work more efficiently. *Lifehacker: The Guide to Working Smarter, Faster, and Better*, Third Edition is your guide to making that happen!

A Certain Style Simon and Schuster

Are Thomas Piketty's analyses of inequality on target? Where should researchers go from here in exploring the ideas he pushed to the forefront of global conversation? In *After Piketty*, a cast of economists and other social scientists tackle these questions in dialogue with Piketty, in what is sure to be a much-debated book in its own right.

High Days and Holidays in Iceland NBD Biblion Publishers

NEW YORK TIMES BESTSELLER • This sweeping novel from the author of *A Long Petal of the Sea* tells the epic story of Violeta Del Valle, a woman whose life spans one hundred years and bears witness to the greatest upheavals of the twentieth century. ONE OF THE MOST ANTICIPATED BOOKS OF 2022—Oprah Daily, The Washington Post, Business Insider, Marie Claire, Bustle, Ms. magazine, PopSugar, The Week, Electric Lit, The Millions, She Reads, Lit Hub, Book Riot Violeta comes into the world on a stormy day in 1920, the first girl in a family with five boisterous sons. From the start, her life is marked by extraordinary events, for the ripples of the Great War are still being felt, even as the Spanish flu arrives on the shores of her South American homeland almost at the moment of her birth. Through her father's prescience, the family will come through that crisis unscathed, only to face a new one as the Great Depression transforms the genteel city life she has known. Her family loses everything and is forced to retreat to a wild and beautiful but remote part of the country. There, she will come of age, and her first suitor will come calling. She tells her story in the form of a letter to someone she loves above all others, recounting times of devastating heartbreak and passionate affairs, poverty and wealth, terrible loss and immense joy. Her life is shaped by some of the most important events of history: the fight for women's rights, the rise and fall of tyrants, and ultimately not one, but two pandemics. Through the eyes of a woman whose unforgettable passion, determination, and sense of humor carry her through a lifetime of upheaval, Isabel Allende once more brings us an epic that is both fiercely inspiring and deeply emotional.
